Title of Project

--

Would you like your project to be entered into the new BT Business of Science and Technology programme?

(Please see the FactFile for more information) Yes No

Stage 1

What problem do you wish to investigate / solve?

What experimental methods do you intend to use in the investigation of the problem?

Indicate the background information (books, articles, papers etc.) which you have consulted in developing your project.

It is important to refer to an existing body of knowledge

Mention people or establishments to whom you will apply for advice or assistance for help with your project.

Stage 2

What practical work have you carried out to date? For example - laboratory measurements, data collection, tests. (Indicate what is planned if not yet started)

THIS SECTION TO BE COMPLETED BY SOCIAL AND BEHAVIOURAL SCIENCES CATEGORY ENTRANTS ONLY.

Indicate which method of data collection you are using in your study.

Documentary Sources Observation Surveys Tests, Measurements and Experimentation

Outline briefly how this method of data collection is to be conducted.

What method of sampling do you intend to use?

How did you source the sample you intend to use?

What sample size will you use?

What apparatus and facilities for research, that are necessary for the experiments mentioned above, are available to you? Please list:
