## Portal

The 57th BT Young Scientist & Technology Exhibition has been transformed into a fully virtual science exhibition

Check it out at  
**[portal.btyoungscientist.com](https://portal.btyoungscientist.com)**

## A message from Shay Walsh

We are hugely proud to welcome you all to the 57th annual BT Young Scientist and Technology Exhibition.

Of course this is year like no other for us as science and technology collide and we move to a virtual space for the first time in our prestigious history. In 2021, we are bringing our event to a global stage as we broadcast live across the world over the coming days.

In spite of a challenging year for students and schools, BT Ireland and the BTYSTE judges are hugely impressed by the quality and quantity of this year's projects. The students have centred their focus on solving the issues that we face today and in the near future. They look to find solutions around the global pandemic, climate change and mental health and to bring about real transformation and impact.

It is encouraging to see that students are continuing to push beyond limits and produce innovative solutions and ideas to everyday problems they encounter. Congratulations to all the students, teachers and parents who have put so much time, effort and resources into the projects. When we see the volumes and the substance of these projects, we know the future is in safe hands.

We hope you'll join us for what promises to be a festival of science and technology as we meet the finalists, marvel at spectacular science shows and learn about the world around us.

A handwritten signature in black ink, appearing to read 'Shay Walsh'.

**Shay Walsh**

# Awards

## Main awards

### BT Young Scientist & Technologist(s) of the Year 2021

#### Individual or Group

- BT Young Scientist(s) of the Year Trophy (perpetual)
- Cheque for €7,500 / £6,750
- The chance to represent Ireland at the European Union Contest for Young Scientists

#### Best Individual or Best Group

- BT Trophy (perpetual)
- Cheque for €2,400 / £2,160

#### Runner-up Individual and Runners-up Group

- BT Trophy (perpetual)
- Cheque for €1,200 / £1,080

Please note if the BT Young Scientist & Technologist of the Year is awarded to an Individual, a Best Group Award will also be made.

If the BT Young Scientist of the Year is awarded to a Group, a Best Individual Award will also be made.

## Category awards

There are 36 prizes for individuals and 36 prizes for group projects. The prizes take the form of 1st, 2nd and 3rd in Junior, Intermediate and Senior sections of each of the four categories:

### Technology

e.g. communications, electronic systems, robotics, computing, control technology, applications of technology, biotechnology, automation.

### Biological & Ecological Sciences

e.g. agriculture, anatomy, biochemistry, biotechnology, ecology, horticulture, physiology, medical science, veterinary science.

### Social & Behavioural Sciences

e.g. economic, geographical, psychological or sociological studies of human behaviour, nutrition, social anthropology, political science.

### Chemical, Physical & Mathematical Sciences

e.g. chemistry, physics, mathematics, applied mathematics, geology, engineering, computer programming, meteorology, astronomy.

The prizes are:

 <b>1st prize</b> <b>€300/£270</b> for both Individual and Group projects	 <b>2nd prize</b> <b>€225/£202</b> for both Individual and Group projects	 <b>3rd prize</b> <b>€150 / £135</b> for both Individual and Group projects
---	---	---

In the event of a tie in any category, the prize money will be split equally. A number of highly commended and display awards will also be awarded in each category by the panel of judges.

## Gold Partner awards

### Student awards

#### Analog Devices Student Award

Analog will present an award in the Technology category to the best placed project, either group or individual, except where the project has been selected as BT Young Scientist & Technologist(s) of the Year. The winning project will be awarded €2,000.

In addition, Analog Devices will donate €2,500 to the school of the winning student(s) as a contribution towards its science laboratory equipment fund\*.

#### Perrigo Student Award

Perrigo will present an award in the Biological and Ecological category to the best placed project, either group or individual, except where the project has been selected as BT Young Scientist & Technologist(s) of the Year. The winning project will be awarded €2,000.

#### RTÉ Student Award

RTÉ will present an award in the Social and Behavioural Sciences category to the best placed project, either group or individual, except where the project has been selected as BT Young Scientist & Technologist(s) of the Year.

#### CISCO Student Award

An award will be presented in the Chemical, Physical and Mathematical category to the best placed project, either group or individual, except where the project has been selected as the BT Young Scientist & Technologist(s) of the year.

\*Analog Devices will contact winner with details, terms and conditions.

### Educator of excellence awards

These awards will be presented to the teachers whose commitment and encouragement have consistently enabled their students to participate successfully in all categories of the exhibition.

#### Analog Devices Educator of Excellence Award - Technology

The winner receives a bursary of €2,000 and an Analog Trophy.

#### Perrigo Educator of Excellence - Biological and Ecological Sciences

The winner receives a bursary of €2,000 and a Perrigo Trophy.

#### BT Educator of Excellence - Chemical, Physical & Mathematical Sciences

The winner receives a bursary of €2,000 and a BT trophy.

#### BT Educator of Excellence - Social and Behavioural Sciences

The winner receives a bursary of €2,000 and a BT Trophy.

### Rev Dr Tom Burke bursary

Fr Tom was one of the co-founders of the project and sadly passed away in 2008. In memory of his contribution to the project, a €1,000 bursary is awarded in his name to an individual participant who is deemed by the judges to be the best communicator. This will be paid on application to a student to help them in their second/third level education.

This bursary will be open to participants of all categories across all age groups, but the winner cannot be either the overall Individual Winner or Runner Up.

### Founders medal

A medal will be awarded in the name of the co-founders of the exhibition, Dr Tony Scott and Fr Tom Burke, a €1,000 award will be made to an individual who has made a remarkable and long standing contribution to the BT Young Scientist and Technology Exhibition. This is chosen by the Co-Founder Dr Tony Scott.

# Special awards

We are pleased and proud to have a fabulous range of Special Awards at this year's Exhibition. Each award is industry-sponsored and details of each organisation and awards can be found on the Awards section of our website **[www.btyoungscientist.com](http://www.btyoungscientist.com)**

This year, Special Awards will be presented by our partner organisations. Special Awards recognise excellence in specific areas, examples include projects which have a focus on innovation in technology, physics, chemistry, sustainability, recycling, the environment, research or improving cancer awareness.

Full details of all the Special Awards and the criteria for each can be found on our website **[www.btyoungscientist.com](http://www.btyoungscientist.com)**

## Schools awards

Each year two school awards are made, one for Best School in Northern Ireland presented by BT and one for Best School in the Republic of Ireland presented by NAPD. These are presented on a points based system and cannot be won by the same school in a three year period.

## Biological & Ecological Sciences

Dr Fidelma Butler

## JUNIOR INDIVIDUAL

1100

**Title:** Leibhéil Bhithéagsúlachta i Saghasanna Dífiríúla Coille

**Overview:** Tomhas a dhéanamh ar leibhéil bhithéagsúlachta i saghasanna coille difiríúla ag baint úsáide as an líon speiceas mar uirlis thomhais.

**School:** Colaiste An Phiarsaigh

**County:** Cork

**Teacher:** Mr Caoimhín Ó Buachalla

**Student(s):** Amhlaoibh Ó Síocháin Ó Beoláin

1101

**Title:** Can using sheep's wool combat Climate Change?

**Overview:** Investigating if sheep's wool can be used as an alternative to plastic packing thus reducing the environmental impact of waste and reviving the wool industry.

**School:** Patrician Presentation

**County:** Tipperary

**Teacher:** Ms Margaret O'Neill

**Student(s):** John David O'Donnell

1102

**Title:** Nature takes on nature: Eradicating Japanese knotweed

**Overview:** To investigate if the walnut tree is effective in eradicating Japanese Knotweed (*Fallopia japonica*). The American walnut tree has poisonous roots that kill sensitive plants.

**School:** Gaelcholáiste Chiarraí

**County:** Kerry

**Teacher:** Mrs Triona Uí Mhaolchatha

**Student(s):** Grace Ni Ifeanáin

1103

**Title:** Does the availability of food affect the movement of periwinkles (*Littorina littorea*)

**Overview:** I am looking at whether the availability of food affects the movement of periwinkles (*Littorina littorea*) on a number of shores in north Clare

**School:** Mary Immaculate Secondary School Lisdoonvarna

**County:** Clare

**Teacher:** Mr John Sims

**Student(s):** Fionn Rush

1104

**Title:** To investigate the nutrients of fruits and vegetables over a period of time.

**Overview:** My project aims to chart the decreasing nutrients in different types of fruits and vegetables over a period of time.

**School:** Mungret Community College

**County:** Limerick

**Teacher:** Mr John McCarthy

**Student(s):** Eoghan Hinchy

1105

**Title:** A comparative study on how plant height is impacted by other plants growing nearby.

**Overview:** I want to complete this experiment to investigate whether a plants growth is affected by other plants in the same area.

**School:** Enfield Community College

**County:** Meath

**Teacher:** Ms. Rebecca Kenneally

**Student(s):** Jasmine Murphy

1106

**Title:** How pollution in rivers affects river wildlife

**Overview:** My project is a study of how pollution in rivers effects the river wildlife's population and health

**School:** St Andrew's College

**County:** Dublin

**Teacher:** Ms Emma Buckley

**Student(s):** Ellie Walsh

1107

**Title:** An Investigation Into The Effects Of Masks On Performance In Sports

**Overview:** Masks help prevent the spread of Covid-19 but are not currently worn in sport. I am investigating the effects masks have on performance in sport.

**School:** Loreto Secondary School Fermoy

**County:** Cork

**Teacher:** Mrs Aine Bushell

**Student(s):** Leah Nolan

1108

**Title:** Ash Dieback and it's Impact on Irish Biodiversity

**Overview:** Ash Dieback, caused by the ascomycete, *Hymenoscyphus fraxinus*, is assessed in relation to it's impact to Irish Biodiversity. Mitigation Measures are Proposed to limit impact.

**School:** Kildare Town Community School

**County:** Kildare

**Teacher:** Ms Larissa O'Neill

**Student(s):** Joseph Moran

1109

**Title:** Is visitor footfall affecting lichen growth on limestone pavement in the Burren?

**Overview:** I am assessing the amount of wear/degradation of lichens on limestone pavement surfaces in the Burren due visitor footfall.

**School:** Mary Immaculate Secondary School Lisdoonvarna

**County:** Clare

**Teacher:** Mr John Sims

**Student(s):** Anna Mae O'Driscoll

1110

**Title:** House searching by hermit crabs

**Overview:** I am looking to see if the choice of shell by hermit crabs is related to shell size and their size and shell availability.

**School:** Mary Immaculate Secondary School Lisdoonvarna

**County:** Clare

**Teacher:** Mr John Sims

**Student(s):** Ciara McDonnell

1111

**Title:** Blooming Good Algae

**Overview:** Could algae be the answer to removing nitrates and phosphates from agricultural and domestic waste-water, while at the same time producing an effective fertilizer?

**School:** Our Lady's Bower

**County:** Westmeath

**Teacher:** Mrs Ellen Maguire

**Student(s):** Michelle Hughes

1112

**Title:** Organic Bioplastic bottles an alternative to single use plastic bottles

**Overview:** My project is to create an organic biodegradable plastic, which could be used as an alternative to single use plastic bottles.

**School:** Midleton College

**County:** Cork

**Teacher:** Ms. Niamh O'Mahony

**Student(s):** Rhys Morgan

1113

**Title:** Does the level of nutrients in seawater affect the abundance of Ulva lactuca

**Overview:** I am looking to see if the level of nutrients in seawater affects the abundance of Ulva lactuca in coastal areas of the Burren

**School:** Mary Immaculate Secondary School Lisdoonvarna

**County:** Clare

**Teacher:** Mr John Sims

**Student(s):** Ella Mooney

1114

**Title:** Optimisation of wild yeast production for bread

**Overview:** Study of the optimisation of wild yeast cultivation for bread using standard domestic equipment that is readily available in peoples' homes.

**School:** Home School

**County:** Dublin

**Teacher:** Ms Orna Collins

**Student(s):** Fionnán Ó Baoighill

## INTERMEDIATE INDIVIDUAL

1200

**Title:** Biodegradable Face Mask to Reduce Pollution & Protect the Environment

**Overview:** To reduce pollution & prevent the spread of viruses by making a breathable, biodegradable face-mask that will not damage our environment using locally sourced materials.

**School:** Desmond College

**County:** Limerick

**Teacher:** Mr Donal Enright

**Student(s):** Lucy Flaherty

1201

**Title:** Hemp for a Sustainable Future?

**Overview:** To investigate the social, economic and environmental benefits and drawbacks of growing hemp and to determine if it can promote sustainable farming in Ireland.

**School:** St. Brogan's College

**County:** Cork

**Teacher:** Ms Laura O'Regan

**Student(s):** Cian Walsh

1202

**Title:** Bake it or Fake it

**Overview:** I will investigate the effects of sunless tanning products on our health and skin, as well as researching why we do it.

**School:** Coláiste Muire Crosshaven

**County:** Cork

**Teacher:** Ms Bridget Lehane

**Student(s):** Alexandra Phelan Collins

1203

**Title:** "Investigating possible vegetable oil soil toxicity using nematodes as environmental bioindicators"

**Overview:** Investigating the effects of vegetable oil on the behaviour of entomopathogenic nematodes (EPN) in an artificial ecosystem. Specifically, EPNs' ability to infect insects and reproduce.

**School:** Colaiste Treasa

**County:** Cork

**Teacher:** Ms Joanne Corkery

**Student(s):** Jack Quirke

1204

**Title:** Are there benefits to training in bare feet?

**Overview:** my project aims to cover the advantages of training in bare feet, specifically in rugby.

**School:** Marist College

**County:** Westmeath

**Teacher:** Ms Martina Carey

**Student(s):** Seán Doyle

1205

**Title:** How untested water from private wells can put 1 million people at risk of E. coli poisoning.

**Overview:** Our project aims to inform people about the health risk of not testing drinking water from private wells and taking samples of drinking water from different wells and testing them for E. coli poisoning.

**School:** Coláiste Na Toirbhirte

**County:** Cork

**Teacher:** Ms Emily Aherne

**Student(s):** Emily Corcoran

1206

**Title:** Experimental Cancer Trials- Do the benefits outweigh the potential harm they could be causing?

**Overview:** This project is about experimental trials. Types of trials, what they are and everything about them. This project was made to inform people about trials.

**School:** Bush Post Primary School

**County:** Louth

**Teacher:** Mr Gary Galvin

**Student(s):** Julianna Jakubas

1207

**Title:** is the increase in temperature and humidity over the summer months effecting the hatch rate of small poultry farms

**Overview:** to investigate if the increase in temperature and humidity over the summer months effecting the hatch rate of small poultry farms in rural Ireland

**School:** Killorglin Community College

**County:** Kerry

**Teacher:** Ms Ilona Ni Dhubhda

**Student(s):** Lily-Sue Evers

1208

**Title:** An investigation into the ability of different pasture swards to sequester carbon

**Overview:** To investigate the ability of different pasture sward types to generate biomass which will sequester carbon and ultimately combat global warming.

**School:** Colaiste Treasa

# Biological & Ecological Sciences

**Perrigo®**  
Quality. Affordable Self-Care Products™

**County:** Cork  
**Teacher:** Ms Bríd-Anne O'Donoghue  
**Student(s):** Sarah Humphreys

**1209**

**Title:** eifeacht miocroorgánach ar fás plandaí  
**Overview:** le haghaidh mo turgnamh, taim ag deanamh taighde ar na miocroorgánach i leasachán nadurtha, agus an eifeacht atá acu ar fás plandaí.  
**School:** Coláiste Pobal Osraí  
**County:** Kilkenny  
**Teacher:** Ms Julia Coffey  
**Student(s):** Maggie Delaney

**1210**

**Title:** The Last Straw! The impact of microplastics on our inland lakes.  
**Overview:** This project highlights the increasing global threat of micro plastics. It involves a micro-plastic evaluation and characterization of micro plastics found in Irelands inland lakes.  
**School:** Our Lady's Bower  
**County:** Westmeath  
**Teacher:** Mrs Ellen Maguire  
**Student(s):** Hannah Duffy

**1211**

**Title:** The effects on lower joints from playing soccer on an astro turf surface  
**Overview:** My project aims to see what effects if any, playing sport on an astro turf surface has on the lower joints (knee and ankle)  
**School:** The Abbey School  
**County:** Tipperary  
**Teacher:** Ms. Eavan Ryan  
**Student(s):** Darragh O'Brien

**1212**

**Title:** Does bacteria last as long on metal?  
**Overview:** I want to find out about how bacteria transfers from surface to surface. I want to figure out which surfaces can contaminate food the most.  
**School:** Coláiste Choilm  
**County:** Cork  
**Teacher:** Mr Paudie Scanlon  
**Student(s):** Orla Delaney

**1213**

**Title:** Sustainable Food Production  
**Overview:** The benefits of using aquaponics to grow plants that cannot be grown in Ireland in a more sustainable way  
**School:** St Kieran's College  
**County:** Kilkenny  
**Teacher:** Mr David Hennessy  
**Student(s):** Pauric Kirwan

**1214**

**Title:** Goats milk vs Cows milk: why can some people consume goats milk but not cows milk?  
**Overview:** I am going to compare the compositional differences of both milks to analyse why goats milk agrees with some people when cows milk doesn't.  
**School:** St Andrew's College  
**County:** Dublin

**Teacher:** Ms Emma Buckley  
**Student(s):** Zara Griffin

**1215**

**Title:** Comparing synthetic wound dressings to natural honey-based dressings  
**Overview:** My project aims to compare the effectiveness of natural medication for wounds when compared to synthetic medication, and to highlight associated popular perceptions of these.  
**School:** Laurel Hill Secondary School FCJ  
**County:** Limerick  
**Teacher:** Dr Mary Frawley  
**Student(s):** Emma McAndrew

**1216**

**Title:** Investigating the effectiveness of wearing a face mask and social distancing during a pandemic  
**Overview:** I this experiment is going to prove why we need to wear face masks an social distance  
**School:** St Brigid's Vocational School  
**County:** Galway  
**Teacher:** Ms Sarah Clarke  
**Student(s):** Cathal Duane

**1217**

**Title:** The environmental impact of reusing grey water for agricultural purposes and the effect it has on plant growth  
**Overview:** My project aims to show if grey water can be more beneficial for plant growth than mains water and how it will affect the environment.  
**School:** Mohill Community College  
**County:** Leitrim  
**Teacher:** Ms Eileen Nertney  
**Student(s):** Caolán Ó'Riordáin

**1218**

**Title:** The yearly cost of owning a pet dog  
**Overview:** This project aims to find a yearly breakdown of the price of owning a pet dog  
**School:** Bishopstown Community School  
**County:** Cork  
**Teacher:** Ms Michelle O'Brien  
**Student(s):** Rian O Luasa

**1219**

**Title:** An investigation to determine if porous fruit absorbs pesticides and chemicals  
**Overview:** Do pesticides and chemicals end up in our fruit? Does the age and origin of the fruit affect the absorptivity.  
**School:** Bailieborough Community School  
**County:** Cavan  
**Teacher:** Ms. Natalie Kinghan  
**Student(s):** Conor Doherty

**1220**

**Title:** An investigation into the use of oat milk as an alternative in baby formula products  
**Overview:** This project highlights the environmental and health benefits of using oat milk in baby formula products as opposed to cow's milk.  
**School:** Hazelwood College

**County:** Limerick

**Teacher:** Ms Michelle Herbert

**Student(s):** Hannah Cremin

## 1221

**Title:** Calendar farming: Does it even work?

**Overview:** My project aims on researching if farmers should be able to spread slurry during the closed period. This is currently illegal under the Nitrates Directive (2018).

**School:** Meánscoil na mBráithre Criostaí

**County:** Kilkenny

**Teacher:** Mr David O' Heney

**Student(s):** Tom Gorey

## 1222

**Title:** Does reaction time slow with age? If so, when?

**Overview:** The aim of my study is to investigate whether reaction time slows with age. If so, at what age does it start to decrease?

**School:** St Patrick's College

**County:** Tyrone

**Teacher:** Miss Sinéad O'Neill

**Student(s):** Jenica Aparicio

## 1223

**Title:** Nanosilver: What does it do to our Marine Life?

**Overview:** I decided to investigate what chemicals we put in our daily products and if the left overs of it will effect our marine life.

**School:** St. Joseph's Secondary School

**County:** Clare

**Teacher:** Ms Mairead O'Brien

**Student(s):** Ciara Sheppard

## 1224

**Title:** COMPARE THE INHIBITION POTENCY OF VARIOUS PLANT BASED ANTI-MICROBIAL AGENTS

**Overview:** My project investigates the efficacy of different plant based anti-microbial agents. These agents are biodegradable thereby reducing water and land pollution.

**School:** SEK Dublin International School

**County:** Wicklow

**Teacher:** Mr Emilio Garcia

**Student(s):** Adam Pandey

## 1225

**Title:** Do video games improve performance in sports?

**Overview:** I will be investigating whether or not video games have an effect on athletes' reaction times.

**School:** Le Chéile Secondary School

**County:** Dublin

**Teacher:** Mr Sean Creedon

**Student(s):** Sophie McQuillan Clarke

## 1226

**Title:** A statistical investigation into the environmental impact of Covid-19.

**Overview:** In this project, I intend to investigate and study the effects Covid-19 has had on the environment and how to alleviate the stress it creates.

**School:** Leixlip Community School

**County:** Kildare

**Teacher:** Ms Michelle O'Keeffe

**Student(s):** Anna Evans

## 1227

**Title:** Beach closure exposure

**Overview:** I research why it is unsafe for myself and locals to swim in Fountainstown's water during advisory notices and why it links to weather forecast.

**School:** Coláiste Muire Crosshaven

**County:** Cork

**Teacher:** Ms Bridget Lehane

**Student(s):** Ava Long

## 1229

**Title:** Acoustic Ecology-Listening To Our World Change

**Overview:** A look into Acoustic Ecology, a field of science that may prove essential to modern ecology and conservation efforts.

**School:** Ardgillan Community College

**County:** Dublin

**Teacher:** Ms Laura Sheahan

**Student(s):** Cillian McCormack

## 1230

**Title:** Nutrient recycling efficiency using bio-based organic fertilisers.

**Overview:** This bio-based fertiliser trial with Spring wheat tests fertilisers, in comparison to chemical fertilisers, measuring crop yield and soil health benefits, demonstrating nutrient recycling efficiency.

**School:** St Marys College

**County:** Wicklow

**Teacher:** Ms Joanne English

**Student(s):** Elizabeth Bourke

## 1231

**Title:** Lobsteristic

**Overview:** Lobster frequency data in relation to length

**School:** Coláiste Muire Crosshaven

**County:** Cork

**Teacher:** Ms Bridget Lehane

**Student(s):** Rhea Itty

## 1232

**Title:** No Rush!

**Overview:** This is a research-based project assessing the impact of coastal erosion on my hometown of Rush, Co. Dublin.

**School:** St Joseph's Secondary School, Rush

**County:** Dublin

**Teacher:** Mr Chris O'Connell

**Student(s):** Luke Maher

## SENIOR INDIVIDUAL

## 1300

**Title:** Changing Climate, Changing Genes: Epigenetics to help crops deal with climate change.

**Overview:** Investigation of ways plants adapt through epigenetics to abiotic stresses, and can these responses be triggered by human intervention.

**School:** Templeogue College

**County:** Dublin

**Teacher:** Ms Linda Ward

**Student(s):** Luke Fox-Whelan

# Biological & Ecological Sciences

**Perrigo®**  
Quality. Affordable Self-Care Products™

1301

**Title:** Rising from the ashes: A survey of plants in my local bogs which have been identified as having medicinal properties

**Overview:** A survey of selected bogs in my local area to identify the presence and quantity of plants which have been identified as having medicinal properties.

**School:** Lanesboro Community College

**County:** Longford

**Teacher:** Ms Mary O'Brien

**Student(s):** Orla Lyons

1302

**Title:** A comparative investigation of the efficacy of proprietary and home made hand sanitisers

**Overview:** In this time of COVID-19 and the crucial need to sanitise hands, I am investigating a range of proprietary and homemade sanitisers for their efficacy.

**School:** St Mary's College

**County:** Londonderry

**Teacher:** Mrs Ann Blanking

**Student(s):** Caitlin Mc Fadden

1303

**Title:** Effects of Intensive farming on soil health.

**Overview:** To test the soil health of an intensive farmed land to an organic farmed land. Compare and measure the amount of organic matter and worms.

**School:** Castlecomer Community School

**County:** Kilkenny

**Teacher:** Ms Nora Henderson

**Student(s):** Muireann Ryan

1304

**Title:** How does the land use adjacent to each stream sampling site affect macroinvertebrate biodiversity?

**Overview:** The project aim is to calculate stream macroinvertebrate biodiversity indices to indicate the effect of type of adjacent land use on relative stream health.

**School:** St Andrew's College

**County:** Dublin

**Teacher:** Ms Emma Buckley

**Student(s):** Emilie Higgins

1305

**Title:** The Effects of Temperature on a Hydrogel Based Drug-Delivery System

**Overview:** This project will determine how temperature affects the efficiency of a hydrogel based drug-delivery system by measuring the release of a drug substitute using spectrophotometry.

**School:** St Andrew's College

**County:** Dublin

**Teacher:** Ms Emma Buckley

**Student(s):** Anna Smyth

1306

**Title:** Cén Mais Feamainn a Bheadh de Dhith Chun Mais Áirithe Plaisteach a Dhéanamh agus Cén feamainn áitiúil is fearr le húsáid?

**Overview:** Ag fiafraí an bhfuil sé inbhuanaíthe chun feamainn a úsáid seachas plaisteach agus an mais feamainn a bheadh de dhith chun mais plaisteach a ionadú.

**School:** Coláiste Ailigh

**County:** Donegal

**Teacher:** Mr Shane Ó Breacáin

**Student(s):** Muireann Ní Mhathúna

1307

**Title:** Investigating the link between Cardiovascular Disease and an individuals' weight.

**Overview:** My project is set out to conclude if there is a significant difference between weight of individuals with Cardiovascular Disease and without Cardiovascular Disease.

**School:** South Eastern Regional College - Bangor Campus

**County:** Down

**Teacher:** Mr Jonathan Cash

**Student(s):** Sara Hamilton

## JUNIOR GROUP

1400

**Title:** How Cerebral Palsy Affects Young Children

**Overview:** In this project we wanted to learn more about Cerebral Palsy and how it affects young children.

**School:** Colaiste An Phiarsaigh

**County:** Cork

**Teacher:** Mr Caoimhín Ó Buachalla

**Student(s):** Barra O'Floinn, Donncha O Tuama, Cara Nic Cormaic

1401

**Title:** maskteria

**Overview:** We investigate how much bacteria is on a facemask worn at school for one day

**School:** Loreto Secondary School

**County:** Tipperary

**Teacher:** Ms Emma Griffin

**Student(s):** Amna Anees, Razan Ali, Jessica Pyke

1402

**Title:** Comparáid idir an méid iarann atá á fáil ag feoilséantóir i gcomparáid le uiliteoir

**Overview:** Táimid chun tomhais an méid iarann atá i aiste bia feoilséantóir i gcomparáid le uiliteoir.

**School:** Gaelcholáiste Luimnigh

**County:** Limerick

**Teacher:** Dr Pól Ó Drisceoil

**Student(s):** Kate Hanafin, Aoife NicCraith

1403

**Title:** 'Maskne. What are your masks keeping out and what are they keeping in?

**Overview:** We will investigate if hygienic procedures are being followed when wearing masks, along with culturing, quantifying and identifying the bacteria most commonly found on masks.

**School:** Colaiste Dun an Rí

**County:** Cavan

**Teacher:** Ms Linda Kelly

**Student(s):** Sarah Ginnitty, Laoise Smith

1404

**Title:** Superfoods and their Effects on Diabetes

**Overview:** To identify superfoods suitable for use in diabetic diets due to their high vitamin C and fibre content and low Brix values.

**School:** Moate Community School  
**County:** Westmeath  
**Teacher:** Ms Mairead Cusack  
**Student(s):** Reuben Guinan, Kian Brady

## 1405

**Title:** Prevention of hand cramps in students  
**Overview:** Our project aims to investigate the effects hand exercises have on students abilities to write for longer periods of time without developing hand cramps  
**School:** Loreto Secondary School  
**County:** Tipperary  
**Teacher:** Ms Emma Griffin  
**Student(s):** Isabelle Ryan, Áine Phelan, Roisin McGrath

## 1406

**Title:** Is there toxins present in our drinking water?  
**Overview:** The aim of our study is to highlight the importance of removing toxins from drinking water.  
**School:** St. Brogan's College  
**County:** Cork  
**Teacher:** Ms Roisin Kingston  
**Student(s):** Michelle Hayes, Leanne Murray

## 1407

**Title:** Cad é an difríocht idir sláinte agus folláine madra treoraí in aghaidh madra tí  
**Overview:** Beidheamar ag fáilt amach an bhfuil saol maith ag madra treoraí nó an déanann sé dochar do sláinte an madra  
**School:** Gaelcholáiste Charraig Uí Leighin  
**County:** Cork  
**Teacher:** Mr. Rónán Ó Muirí  
**Student(s):** Liath Mullins, Aoife Ní Aicidín, Oisín Mac Piarais

## 1408

**Title:** An investigation into the efficiency of different fabric on facemasks with relation to preventing the spread of cough and sneeze droplets during COVID-19.  
**Overview:** To study the ability of a face mask to prevent spread of sprayed water which we will use as a comparison to nose/cough spray  
**School:** Enfield Community College  
**County:** Meath  
**Teacher:** Ms. Rebecca Kenneally  
**Student(s):** Lily O' Reilly, Yasmin Callaghan, Taylor Quinn

## 1409

**Title:** An Investigation on the Impact of Diet on the Prevalence of Laminitis among Connemara Ponies  
**Overview:** To determine the impact of diet on the prevalence of laminitis among Connemara ponies and develop a re-seed mix to reduce its occurrence.  
**School:** Moate Community School  
**County:** Westmeath  
**Teacher:** Ms Mairead Cusack  
**Student(s):** Lauren Finan, Shana Brady, Aine Broderick

## 1410

**Title:** Are protein bars and snacks worth it?  
**Overview:** Our objective is to find out if protein bars live up to our expectations and if homemade protein bars are more beneficial for our health.

**School:** Colaiste Dun an Ri  
**County:** Cavan  
**Teacher:** Ms Siobhan Hamill  
**Student(s):** Rebekah Ritchie, Fayth Daly

## 1411

**Title:** The Future Is Bright: Turning Organic Waste Into Biofuel  
**Overview:** We are looking to produce a combustible pellet to replace traditional wood burning pellets using organic compost from household waste, ensuring protection of our environment.  
**School:** Moate Community School  
**County:** Westmeath  
**Teacher:** Ms Mairead Cusack  
**Student(s):** Annie Duffy, Leah Hallissy, Ava Hallissy

## 1412

**Title:** To Dry or not to Dry  
**Overview:** As we live beside the Atlantic ocean we wish to investigate if dry seaweed or wet seaweed will yield better plant growth.  
**School:** St. Joseph's Secondary School  
**County:** Clare  
**Teacher:** Ms Catherine Clair  
**Student(s):** Eabha Healy, Caityln Fay

## 1413

**Title:** Rockpool Quest  
**Overview:** We go to school along the Atlantic ocean. We are going to investigate the species found in the rockpools at Spanish Point and Lahinch.  
**School:** St. Joseph's Secondary School  
**County:** Clare  
**Teacher:** Ms Catherine Clair  
**Student(s):** Lia Molony, Siofra Cullen

## 1414

**Title:** A Homemade Air Freshener Using Recycled Paper  
**Overview:** In our project we aim to make a recycled, biodegradable and recyclable air freshener using homemade paper, and research the forestry problems in Ireland  
**School:** Loreto Community School  
**County:** Donegal  
**Teacher:** Mrs Roisin Coyle  
**Student(s):** Loren Connolly, Hannah Gallagher, Áine Connolly

## 1415

**Title:** Human reaction to Different types of Music  
**Overview:** We plan to conduct a project that shows how the human heart beats while the person is listening to different types of music.  
**School:** St Mary's Secondary School  
**County:** Dublin  
**Teacher:** Ms Eilish Coleman  
**Student(s):** Erica Chettiar, Anna Binu Anthinattu, Hannah Moroney

## 1416

**Title:** Bird Lives Matter  
**Overview:** We plan on looking at the bird population in our local areas and making bird houses to help increase the population.  
**School:** Coláiste Chríost Rí  
**County:** Cork  
**Teacher:** Miss Aoife O Donovan

# Biological & Ecological Sciences

**Perrigo®**  
Quality. Affordable Self-Care Products™

**Student(s):** Diarmuid O' Donovan, Keiron Postrano, Rafidullah Sikder

## INTERMEDIATE GROUP

**1500**

**Title:** The impact covid 19 has had on the injury rate among female GAA players

**Overview:** We wanted to analyse the injury rate in womens GAA due to covid restrictions, short preseason and the return to play during the summer

**School:** St. Joseph's Secondary School

**County:** Meath

**Teacher:** Ms Fiona Leavy

**Student(s):** Alannah Brady, Olivia Callan

**1501**

**Title:** An féidir Cress a fás ag baint úsáid as deochanna difriúla?

**Overview:** Táim muid déanamh an tuirgneamh, "An fásaídh cress níos fearr ag úsáid deochanna le fizz no deoch gan fizz"

**School:** Gaelcholáiste Charraig Uí Leighin

**County:** Cork

**Teacher:** Miss Marianne Ní Thuama

**Student(s):** Darragh Collins, Liam Jordan, Seán Mulcahy

**1502**

**Title:** Cad é an éifeacht atá ag airgead ar ár sláinte?

**Overview:** Táimid chun plátaí agar a úsáid chun imscrúdú a dhéanamh ar na miocrorgánaigh ar boinn/nótaí airgid/lámha roimh agus tar éis airgid a lámhsáil.

**School:** Colaiste An Phiarasigh

**County:** Cork

**Teacher:** Mr Caoimhín Ó Buachalla

**Student(s):** Abi Ní Thornúill, Aoibhinn Nic Conchoille

**1503**

**Title:** Can food affect your heart rate (short term)?

**Overview:** We found out if different foods affect your heart rate short term right after, 5 minutes after, 15 minutes after and an hour after

**School:** Colaiste An Phiarasigh

**County:** Cork

**Teacher:** Mr Caoimhín Ó Buachalla

**Student(s):** Josh Gráinséar, Maitiú Ó Riordáin

**1504**

**Title:** smoking vs vaping

**Overview:** The project is based on an experiment on the effects of smoking and vaping.it is then we compare our results.

**School:** Bush Post Primary School

**County:** Louth

**Teacher:** Ms Emily Kerr

**Student(s):** Dean Brady, Gavin McArdle, Darragh Hughes

**1505**

**Title:** The effects of colour on memory and mood

**Overview:** For or project we plan to investigate the effects of colour on the brain and how it effects memory and mood

**School:** St Mary's Secondary School

**County:** Cork

**Teacher:** Ms Jennifer Butler

**Student(s):** Lisa Kingston, Alison Ryan

**1506**

**Title:** are compostable and biodegradable ration bags the future of Irish farms?

**Overview:** we are investigating the different qualities of biodegradable and compostable ration bags in comparison to plastic ration bag and see how long they take to decompose.

**School:** St Mary's Secondary School

**County:** Cork

**Teacher:** Ms Jennifer Butler

**Student(s):** Abigail Kelleher, Sinead Creedon

**1507**

**Title:** A comparative analysis of the effectiveness of cleaning products based on their recommended retail price (RRP).

**Overview:** we wish to investigate whether there is any difference in the ability to kill bacteria and fungi between cheap, mid ranged and expensive antibacterial disinfectants.

**School:** St Joseph's College

**County:** Dublin

**Teacher:** Ms Helena Lynn

**Student(s):** Leah Dunne, Hannah Gibbs

**1508**

**Title:** Investigating the Indoor 'Silent Killers' during the Pandemic!

**Overview:** We are investigating the levels of Volatile Organic Compounds and Particulate Matter in homes during and after lock-down and how to get rid of it.

**School:** St Marys College

**County:** Wicklow

**Teacher:** Ms Joanne English

**Student(s):** Leilani Phillips, Senuri Wickramaratne

**1509**

**Title:** Bypass construction, farm disruption?

**Overview:** We wish to find out the effects that the construction of the new N22 Cork to Kerry bypass is having on local farms and farmers.

**School:** St Mary's Secondary School

**County:** Cork

**Teacher:** Ms Shannen Foley

**Student(s):** Aoife Downey, Siobhán O'Leary

**1510**

**Title:** An bhfuil sport fairine níos fear an sport an indibhid cun luis frithlua a feabhsú

**Overview:** Táimid chun féachaint an bhfuil tionchar ag imirt spóirt ar do chuid luas frithlua. Agus an bhfuil sport fairine níos fear na sport indibhid.

**School:** Coláiste Pobal Osraí

**County:** Kilkenny

**Teacher:** Ms Julia Coffey

**Student(s):** Zak Kennedy, Cormac Kennedy Power

**1511**

**Title:** Effects that different diets have on a venus fly trap

**Overview:** We will be testing the different impacts that different diets can have on a venus fly trap

**School:** Portlaoise College

**County:** Laois

**Teacher:** Mr Chris Gleeson

**Student(s):** Josh Boylan, Marta Kozakiewicz, Natalia Orlik

1512

**Title:** "Behind the mask"

**Overview:** We aim to test for and analyse the prevalence of common microbial contaminants on a variety of materials that are frequently used in mask production.

**School:** Coláiste Naomh Mhuire

**County:** Kildare

**Teacher:** Ms Naoise Gallagher

**Student(s):** Ella Gilman, Ali Lenihan

1513

**Title:** Wool - Savior of Our Sea

**Overview:** To develop a wool blanket which allows the timely and thorough removal of oil slicks following oil spills.

**School:** Moate Community School

**County:** Westmeath

**Teacher:** Ms Mairead Cusack

**Student(s):** Abby Mullins, Chloe Murphy, Megan Carroll

1514

**Title:** To produce and evaluate the effectiveness of an organic fertilizer using household food waste

**Overview:** Our aim is to make an organic fertilizer from household waste and then test it to determine its effectiveness in comparison to chemical fertilizers

**School:** C.B.S. Thurles

**County:** Tipperary

**Teacher:** Mr Patrick Dunne

**Student(s):** Sean Costello, Adam Jones

1515

**Title:** Bio-degradable Mycelium Food Containers.

**Overview:** This project aims to create durable, bio-degradable and insulating food containers and cutlery from mycelium to replace existing one-use plastic products.

**School:** Clonakilty Community College

**County:** Cork

**Teacher:** Mr Patrick O Keeffe

**Student(s):** Christopher O'Donovan, Mikolay Oramus

1516

**Title:** Which brand of toothpaste is the most effective at removing plaque?

**Overview:** Our project is based on tooth-decay, commonly referred to as cavities. It's aim is to find which brand of toothpaste is best at removing plaque.

**School:** Loreto Secondary School

**County:** Tipperary

**Teacher:** Ms Ciara Tyrrell

**Student(s):** Jane Bergin, Muireann Duffy, Céline Durand

1517

**Title:** What is the reproduction rate of bacteria on school uniforms?

**Overview:** The reproduction rate of bacteria on school uniforms will be examined over the span of 96 hours to determine if school uniforms should be washed daily

**School:** Coláiste Choilm

**County:** Cork

**Teacher:** Ms Grainne Costigan

**Student(s):** Maciej Rojek, Cathal O Donoghue, Daniel Quinn

1518

**Title:** Stop milk spoilage; start seeing changes

**Overview:** To design and produce a milk carton that reduces spoilage and indicates to the consumer when milk has gone off thereby reducing milk wastage.

**School:** Moate Community School

**County:** Westmeath

**Teacher:** Ms Mairead Cusack

**Student(s):** Áine Maxwell, Joyce Conway, Laura Conlon

1519

**Title:** Investigating the antimicrobial activity of native Irish tree barks.

**Overview:** We aim to investigate if the barks of native Irish trees have antimicrobial properties on bacterial cultures.

**School:** Abbey Vocational School

**County:** Donegal

**Teacher:** Ms Donna Furey

**Student(s):** Joseph Woods, Eadaoin Morphy

1520

**Title:** Do microwaves affect the levels of nutrients in food?

**Overview:** We want to find out if microwaves affect the levels of vitamins, proteins, fats and carbohydrates in food.

**School:** Castlecomer Community School

**County:** Kilkenny

**Teacher:** Miss Fiona Morrissey

**Student(s):** Lewis Oates, Taras Biletsky, Eoghan McSweeney

1521

**Title:** The Bird Feeder Infection Problem

**Overview:** To reduce the transmission of diseases at bird feeders by inhibiting pathogen growth in food and designing a feeder to limit pathogen growth and congregation.

**School:** Moate Community School

**County:** Westmeath

**Teacher:** Ms Mairead Cusack

**Student(s):** Labhaoise Foley, Emer Killian, Kaytlin Flynn

1522

**Title:** Does food affect your heart rate?

**Overview:** We are going to give students food and test to see if their heart rate changes after they eat different foods. We are using fit bit devices.

**School:** Loreto Secondary School

**County:** Kilkenny

**Teacher:** Mr Brendan Williams

**Student(s):** Eva Prendergast, Lauren Brennan, Ailise Mahony

1523

**Title:** Bacteria is in disguise, don't let the levels rise

**Overview:** testing school desks for bacteria levels weekly to compare to the number of COVID cases.

**School:** Coláiste Choilm

**County:** Cork

**Teacher:** Mr Paudie Scanlon

**Student(s):** Ava Cahill, Aoibhe Murphy, Tomas O'Brien

1524

**Title:** An investigation into localised bacterial contamination (and hence possible Coronavirus) using an FSD UV Glowbag kit and its limitations

# Biological & Ecological Sciences

**Perrigo®**  
Quality. Affordable Self-Care Products™

**Overview:** We want to investigate the transmission of bacteria/ virus from objects and people, as well as test the growth of bacteria/ virus on agar dishes.

**School:** Scoil Mhuire gan Smál

**County:** Roscommon

**Teacher:** Mr Padraig Harlow

**Student(s):** Amy Casey, Éabha Kenny

## 1525

**Title:** The effect of fertiliser on the growth of grass

**Overview:** The effect that the use of fertiliser has on the growth rate of grass and how it compares to without fertiliser

**School:** St Kieran's College

**County:** Kilkenny

**Teacher:** Mr David Hennessy

**Student(s):** Dylan Teehan, Mark Mc Geeney, Cathal Keegan

## 1526

**Title:** Is Ireland's eradication programme for bovine TB effective?

**Overview:** We aim to investigate our bovine TB eradication programme in Ireland and if we can find ways to improve it

**School:** Millstreet Community School

**County:** Cork

**Teacher:** Mr Franci Lyons

**Student(s):** Ellie Mc Sweeney, Katie O'Sullivan

## 1527

**Title:** Which drink is the most effective in cellular hydration?

**Overview:** The purpose of this experiment is to see which hydration drink is most beneficial in hydrating the cells of our body using visking tubing.

**School:** St. Anne's Secondary School

**County:** Tipperary

**Teacher:** Ms Lorraine O Dwyer

**Student(s):** Emily Bourke, Niamh Hayes, Keelin O'Connor

## 1528

**Title:** Do the chemicals in hand sanitizer affect your skin?

**Overview:** An insight into this project is Do the chemicals in hand sanitizer effect yours skin?

**School:** Tarbert Comprehensive School

**County:** Kerry

**Teacher:** Ms Joanne Mulvihill

**Student(s):** Paul Murphy, Isabelle Fitzsimons, Dara Heaphy

## 1529

**Title:** A Statistical

**Overview:** We aim to raise awareness among the general public about the products sold by local vendors that contain MCPA and investigate our local water supply.

**School:** St Bricin's Vocational School

**County:** Cavan

**Teacher:** Ms Anne-Marie Fay

**Student(s):** Dyllan O'Brien, Niamh Fay, Maria Alb

## 1530

**Title:** To Brand or Not to Brand - Are branded anti-bacterial wipes more effective than supermarket brands?

**Overview:** Our project aims to compare the effectiveness of Dettol and supermarket own brand anti-bacterial wipes and find the most effective wipe for killing bacteria.

**School:** Coláiste Naomh Mhuire

**County:** Kildare

**Teacher:** Mrs Rebecca Cawley

**Student(s):** Béibhinn Gormley, Sarah Byrne

## 1531

**Title:** The best household preservative for cut flowers.

**Overview:** We will investigate which household items maintain the freshness of cut flowers longest.

**School:** Abbey Vocational School

**County:** Donegal

**Teacher:** Ms Donna Furey

**Student(s):** Jane Faulkner, Amy McGroary, Jayne Glenn

## 1532

**Title:** Can we save our planet and our money, one Giant sequoia at a time

**Overview:** Comparing the Co2 levels taken in and oxygen given out by Sequoia trees. Examining acidity levels in the native and non native trees in question.

**School:** Millstreet Community School

**County:** Cork

**Teacher:** Ms Jennifer O'Donoghue

**Student(s):** Sarah Morris Murray, Katie Linehan, Cara Brophy

## 1533

**Title:** The biological effects of wearing a mask on a student's day to day life.

**Overview:** The aim of our project/investigation is to research and test the biological effects of wearing a mask on students' day to day life.

**School:** Colaiste Dun an Ri

**County:** Cavan

**Teacher:** Mr Robert Lorenz

**Student(s):** Aaron Kennedy, Max Kelly

## 1534

**Title:** Is Bracken Fern a problem in Ireland?

**Overview:** Is bracken fern a problem in Ireland that needs to be controlled. Are species endangered and is there an environmentally friendly method of managing it.

**School:** St. Anne's Secondary School

**County:** Tipperary

**Teacher:** Ms Isabel Hogan

**Student(s):** Ellie Crowe, Taylor Mc Carthy

## 1535

**Title:** Are Wetlands the best Flood Prevention Scheme?

**Overview:** will plan to try and investigate to see if wetlands should be kept not only for biodiversity but also for flood prevention.

**School:** St. Anne's Secondary School

**County:** Tipperary

**Teacher:** Ms Lorraine O Dwyer

**Student(s):** Aisling Breen, Katie Irving, Leah Gallagher

## 1536

**Title:** Carbon sequestration in soils

**Overview:** Does reseeded soils lose all their carbon? Do soils that have not been reseeded for some time sequester more carbon.

**School:** Millstreet Community School

**County:** Cork

**Teacher:** Ms Eileen Lyons

**Student(s):** Chloe Bailey, Brianna Gallahue Murphy, Sarah O'Keeffe

**1537**

**Title:** An investigation into the health benefits of listening to music tuned to 432hz versus 440hz.

**Overview:** In our project, we wish to investigate if music tuned to 432hz is more beneficial for our health and feelings than listening to 440hz music.

**School:** St. Louis Secondary School

**County:** Monaghan

**Teacher:** Mr Niall Mooney

**Student(s):** Niamh Clerkin, Briana MacCinna

**1538**

**Title:** Does carbon concentration affect stomatal density?

**Overview:** Our project aims to examine whether carbon concentration affects the stomata count of leaves.

**School:** Coláiste Na Toirbhirte

**County:** Cork

**Teacher:** Ms Emily Aherne

**Student(s):** Aisling O Connor, Katie Hannon

**1539**

**Title:** Plant-Based Milk vs Animal Milk. Which is the Way of the Future?

**Overview:** Investigating the nutritional, environmental and economic impact of an increased consumption of plant-based milk

**School:** Eureka Secondary School

**County:** Meath

**Teacher:** Ms Mary Byrne

**Student(s):** Cáit Melady, Grace Hoey, Aisling Davis

**1540**

**Title:** Are Youths Burned Out From Being Involved In Too Much Sport

**Overview:** Are youths feeling burned out from being involved in an excessive amount of sport.

**School:** Castlecomer Community School

**County:** Kilkenny

**Teacher:** Ms Nora Henderson

**Student(s):** Amy Ring, Hollie Brennan, Aimee Menton

**1541**

**Title:** A study to establish the most effective cool down protocol for horses post intense exercise, using the parameters of heart rate and respiratory rate.

**Overview:** Our project aims to measure the rate of recovery of horses utilising heart rate measurement, following various cooldown routines after intense exercise.

**School:** Castlecomer Community School

**County:** Kilkenny

**Teacher:** Ms Nora Henderson

**Student(s):** Aoibhinn Ruane, Robyn Morrissey, Jayde Wilson

**1542**

**Title:** Do certain masks slow the spread of the coronavirus

**Overview:** Our project aims to make people more aware of what masks to wear to slow the spread of the coronavirus by comparing different masks.

**School:** Colaiste Nano Nagle

**County:** Limerick

**Teacher:** Ms Samantha Prior

**Student(s):** Aoife Kavanagh, Ciara Brosnan

**1543**

**Title:** An investigation into the antibacterial properties of Irish wood for food preparation

**Overview:** Our project aims to examine and find which Irish wood has the best antibacterial properties, why, and what applications does this have.

**School:** St Andrew's College

**County:** Dublin

**Teacher:** Ms Emma Buckley

**Student(s):** Ben Holman, Gavin Holahan

**1544**

**Title:** How Coniferous Forests affect Water Quality in the River Suck, Co. Roscommon.

**Overview:** How Coniferous Forests affect Water Quality in the River Suck, Co. Roscommon

**School:** C.B.S. Roscommon

**County:** Roscommon

**Teacher:** Ms Breege Grennan

**Student(s):** Eoin Mc Loughlin, Jack O Gara, Michael Reilly

**1545**

**Title:** An investigation to determine if shelter affects nutrient quantity

**Overview:** We are investigating if the areas near hedges and under trees contain the same amount of nutrients as the rest of a field.

**School:** Bailieborough Community School

**County:** Cavan

**Teacher:** Ms. Natalie Kinghan

**Student(s):** Aran O'Hanlon, Tadhg Barry, Mark Monaghan

**1546**

**Title:** Do people who play an instrument contract physical illnesses less often than those who don't

**Overview:** This project is an investigation into how playing an instrument can effect/boost the immune system.

**School:** Carrick-On-Shannon Community School

**County:** Leitrim

**Teacher:** Ms Sinéad Creegan

**Student(s):** Roy Branagan, Joseph Magrath

**1547**

**Title:** An investigation into the possible link between protective headgear and skin conditions in camogie players

**Overview:** We will culture bacteria/fungi from 2 points on a hurling helmet and investigate the link with skin conditions eg. acne

**School:** Loreto Secondary School

**County:** Kilkenny

**Teacher:** Mr Brendan Williams

**Student(s):** Luci Brennan, Caoimhe Carroll, Aimée Kearney

**1548**

**Title:** The Effectiveness of Covid-19 Restrictions in a School Environment

**Overview:** Our project aims to observe the transmission of germs in schools with the new Covid-19 restrictions.

**School:** Gonzaga College

**County:** Dublin

**Teacher:** Mr Stephen McGroggan

# Biological & Ecological Sciences

**Perrigo®**  
Quality. Affordable Self-Care Products™

**Student(s):** Oisín Murray, Finn O'Neill

**1549**

**Title:** The effects of different types of face masks on "Maskne"

**Overview:** Do different type of masks effect the skin on the faces of teenage boys, can the different types cause more or less severe "breakouts".

**School:** C.B.S. Roscommon

**County:** Roscommon

**Teacher:** Ms Breege Grennan

**Student(s):** Conor Golden, Rodhan Dowd

**1550**

**Title:** An investigation into if nano silver has an affect on the growth of Pisum Savitum

**Overview:** We are investigating if a substance called nano silver has a harmful effect on the Pisum Savitum.

**School:** Ardgillan Community College

**County:** Dublin

**Teacher:** Ms Laura Sheahan

**Student(s):** Ali Khan, Bazil Khan

**1551**

**Title:** An investigation into the plastic content of teabags

**Overview:** Our project aims to investigate the plastic content in different types and brands of tea bags to see which is the most sustainable and eco-friendly

**School:** St Mary's High School

**County:** Cork

**Teacher:** Ms Niamh Jones

**Student(s):** Anna Brenner, Grace Rooney, Suzanne Dignam

**1553**

**Title:** Injuries in adolescents - a biomechanical study

**Overview:** We intend to research biomechanics in adolescents. we plan to carry out tests and surveys regarding various sports, injuries and how it effects their biomechanics.

**School:** Athlone Community College

**County:** Westmeath

**Teacher:** Mr Niall Carty

**Student(s):** Ellen McCabe , Roisin Murphy, Laura Madden

**1554**

**Title:** Are You Ready To Tumble? Protecting oceans from the microplastics in our laundry

**Overview:** We aim to develop and test a bag to help catch microfibres released during wash cycles.

**School:** Sandymount Park Educate Together Secondary School

**County:** Dublin

**Teacher:** Mr Conor Maxwell

**Student(s):** Greta Whipple, Sarah Boissier

**1555**

**Title:** How does fertilizer affect wildlife and the envoinrment

**Overview:** We will compare fertilized soil to unfertilized soil. We will also throw a quadrant and see the difference in wildlife in the two fields.

**School:** Meánscoil na mBráithre Criostaí

**County:** Kilkenny

**Teacher:** Mr David O' Heney

**Student(s):** Jack Watson, Bobby Schneider

**1556**

**Title:** Does caffeine effect reaction time in sports?

**Overview:** To test does caffeine really make you more alert or is it a mental thing. We will use many different tests and sources of caffeine.

**School:** Scoil Mhuire Kanturk

**County:** Cork

**Teacher:** Mr Aidan Noone

**Student(s):** Bryan Healy, James Buckley, Diarmuid O'Connor

**1557**

**Title:** To Find What Protease In Food Breaks Down Meat the Fastest

**Overview:** We're going to test different types of protease found in foods to see which is most effective for breaking down protein.

**School:** Loreto Secondary School

**County:** Tipperary

**Teacher:** Ms Ciara Tyrrell

**Student(s):** Lily Lindy, Matilda Toomey, Tracy Lee Dela Cuesta

**1558**

**Title:** Environmentally friendly way of drying off cows

**Overview:** Examine if natural remedies are more effective than antibiotics

**School:** St Joseph's Secondary School

**County:** Westmeath

**Teacher:** Mr Darragh Glynn

**Student(s):** Colin Burke, Niall Whelehan, Darragh Hall

**1559**

**Title:** Too Fit, Too Healthy, Too Sudden

**Overview:** We will investigate the barriers for post primary student athlete to accessing annual cardiac screening.

**School:** Athlone Community College

**County:** Westmeath

**Teacher:** Mr Gavin Beirne

**Student(s):** Ria Lennon, Johanna Hughes

**1560**

**Title:** Is music therepy an effective treatment for alzheimers

**Overview:** Our project is to test how music effects an alzheimers patients mood and if it lowers agitation

**School:** St. Louis Secondary School

**County:** Monaghan

**Teacher:** Mr Niall Mooney

**Student(s):** Louise McElvaney, Katie Rose McKenna

**1561**

**Title:** An investigation into the link between abitoic factors and the insect population decline; how it will negatively affect biodiversity and our daily lives in Douglas in the future.

**Overview:** We will investigate factors affecting a decline in insects, looking at air equality, temperature and rainfall, with the help of EPA and Biodiversity Ireland statistics.

**School:** Regina Mundi College

**County:** Cork

**Teacher:** Mr Ger O'Donovan

**Student(s):** Ciara Maye, Ella Rose Hayden

1562

**Title:** A comparative study to analyze lactobacillus versions on the growth of salad seeds.

**Overview:** We will investigate if the addition of probiotics to salad leaves will affect the rate of growth of the salad seeds.

**School:** St Aloysius College Carrigrohilly

**County:** Cork

**Teacher:** Ms Angelina Carew

**Student(s):** Abigail Cotter, Sinéad Crotty

1563

**Title:** A Comparative Analysis Of The Different Rock Types That Make Up "Pebbles" On Beaches in Louth

**Overview:** An comparative investigation into the distribution of different rock types that appear on our local beaches against a background of geological surveys.

**School:** St Vincent's Secondary School

**County:** Louth

**Teacher:** Mr John White

**Student(s):** Eithne Kelly, Isabella Callanan

1564

**Title:** Fruit Fly Repellent

**Overview:** We are looking for a food-safe way to repel fruit flies. We will be experimenting with different formulae and the reaction flies have to them.

**School:** Mercy College

**County:** Sligo

**Teacher:** Ms Karen Rowe

**Student(s):** Róisín Eglinton, Aoibhín Holmes

1565

**Title:** Could vertical farming be used as a more efficient farming method than conventional arable farming in Ireland?

**Overview:** We aim to find out if vertical farming could be a quicker and more cost effective method of farming than conventional arable farming in Ireland

**School:** Loreto Secondary School, Balbriggan

**County:** Dublin

**Teacher:** Ms Chloe White

**Student(s):** Niamh McManus, Jess Joy

1566

**Title:** Which antacid remedies are most effective in the treatment of heartburn, and why?

**Overview:** Our project aims to discover more about the different remedies used to treat heartburn and learn what makes one more effective than the other.

**School:** Maria Immaculata Community College

**County:** Cork

**Teacher:** Ms Cliona Ni Dhonnabhain

**Student(s):** Ellen Lucey, Alannah Wrynn

1567

**Title:** An Investigation of the Antimicrobial Properties of West Cork Lichen on Pathogenic Bacteria

**Overview:** Does an extract made from West Cork Lichen species have any effect on the growth rate of a culture of disease-causing bacteria?

**School:** Mount St Michael

**County:** Cork

**Teacher:** Ms Alison O'Neill

**Student(s):** Conor Ringrose, Luka Unger, Joseph Craig

1568

**Title:** can seaweed be used as a environmental and eco friendly slug repellent

**Overview:** We intend to investigate if seaweed could act as an environmentally and economically friendly slug repellent.

**School:** St Joseph's Secondary School, Rush

**County:** Dublin

**Teacher:** Mr Daryl Dunne

**Student(s):** Shane Murray, Andrew Carroll, Christian Cameron

1569

**Title:** A review of the interventions used to reduce the spread of Fusarium wilt disease.

**Overview:** Assessing the interventions that have been put in place by farmers to help reduce the spread of Fusarium wilt in farms.

**School:** St Joseph's Secondary School, Rush

**County:** Dublin

**Teacher:** Mr Daryl Dunne

**Student(s):** Lorcan Devine, Ben Farren, Nathan Lubanzadio

1570

**Title:** Eye see it: A study into the effect eye colour has on Reactive motor skills and hand eye coordination

**Overview:** How does eye colour effect you reactive motor skills and your hand eye coordination. Looking into how dark eyed people have better reactive motor skills.

**School:** St Joseph's Secondary School, Rush

**County:** Dublin

**Teacher:** Mr Daryl Dunne

**Student(s):** Evan Weldon, Laurence Essien, Michal Narog

1571

**Title:** Seaweed: 'Breakfast of Champignons'. An Investigation into the Environmental, Nutritional and Economic Benefits of Seaweed as a Natural Nutritional Supplement for Vegetables.

**Overview:** This project will establish the dominant seaweeds washed up on the beaches locally and provide scientific evidence for their use as a nutrient source.

**School:** St Joseph's Secondary School, Rush

**County:** Dublin

**Teacher:** Mr Chris O'Connell

**Student(s):** Darragh Halpin, Ryan Lynch, Andrew Leonard

1572

**Title:** Park-Life: Raising the Ecological Profile of our Town Park

**Overview:** Our project involves the use of environmental sampling and monitoring techniques to study a local natural habitat to raise the ecological profile of the area.

**School:** St Joseph's Secondary School, Rush

**County:** Dublin

**Teacher:** Mr Chris O'Connell

**Student(s):** Dylan McDonough, Sean Cantwell

## SENIOR GROUP

**1600**

**Title:** What's killing you? A statistical analysis of the associations between age, gender, place of residence and cause of death in the Irish population.

**Overview:** We are doing a statistical analysis of CSO data relating to causes of death, across age, gender and province of residence in the Irish population.

**School:** Scoil Mhuire

**County:** Donegal

**Teacher:** Ms Laura Corbett

**Student(s):** Rory Coleman, Katelyn Doherty

**1601**

**Title:** Whats the best straw bedding for housing cattle indoors over winter.

**Overview:** We are comparing barley and wheat straw and seeing which is the more suitable choice for bedding calves.

**School:** St. Joseph's Secondary School

**County:** Meath

**Teacher:** Ms Fiona Leavy

**Student(s):** Claire Finnegan, Louise Crinion

**1602**

**Title:** Does colour effect the amount of feed a bird will eat?

**Overview:** We will leave a certain amount of bird feed outside every week, each week dying the bird feed a different colour.

**School:** St Bricin's Vocational School

**County:** Cavan

**Teacher:** Ms Anne-Marie Fay

**Student(s):** Robyn Gibson, Chloe Rowen, Emilia Mix

**1603**

**Title:** Do horses respond to human emotion?

**Overview:** A systematic investigation into the effect of anxiety levels of riders on the heart rate of horses.

**School:** Loreto Community School

**County:** Donegal

**Teacher:** Mrs Roisin Coyle

**Student(s):** Aoife Giles, Megan Hegarty, Tori Gallagher

**1604**

**Title:** Artificial eco-system

**Overview:** We are making a terrarium and recording data from it over over a selected period of time

**School:** Ardgillan Community College

**County:** Dublin

**Teacher:** Ms Laura Sheahan

**Student(s):** James Lambert, Jake Lynam

**1605**

**Title:** Eco-Friendly Bale Netting

**Overview:** Our project aim is to create a biodegradable and edible alternative to plastic bale net.

**School:** St Joseph's Community College

**County:** Clare

**Teacher:** Ms Laura Egan

**Student(s):** Fergal Keane, Ciarán Bonfil, Fionn Doherty

## JUNIOR INDIVIDUAL

2100

**Title:** Social Media Manipulation

**Overview:** In this investigation I plan to see the battle between the truth and fake news and seeing how social media is manipulating us every day.

**School:** Templeogue College

**County:** Dublin

**Teacher:** Ms Linda Ward

**Student(s):** Daragh Quinn

2101

**Title:** Falling for the stars- a study into mainstream horoscopes affect one's personality

**Overview:** My project is all about how the stereotypes of the zodiac signs can affect one's personality and how one behave in society.

**School:** Coláiste Muire Crosshaven

**County:** Cork

**Teacher:** Mr Brian Kavanagh

**Student(s):** Karen Cotter

2102

**Title:** An Analytical Study of the Psychological Impact of the Coronavirus Pandemic

**Overview:** My project aims to determine the psychological impact of the coronavirus pandemic on individuals who visit the GP surgery regularly.

**School:** Mercy Secondary School

**County:** Kerry

**Teacher:** Miss Eimear Nolan

**Student(s):** Rachel Feeley

2103

**Title:** Blended Learning: Using online learning techniques to support 2nd Level Education

**Overview:** An investigation into the social and educational effects of blended learning and how including online learning techniques can support 2nd level education.

**School:** Mungret Community College

**County:** Limerick

**Teacher:** mr John McCarthy

**Student(s):** Aisling Hardiman

2104

**Title:** CAN-TEENS Make Better Food Choices?

**Overview:** My project aims to encourage adolescent students to make healthier food choices when consuming food from their school canteen using a 'traffic-light' system.

**School:** St. Brogan's College

**County:** Cork

**Teacher:** Miss Karen Corbett

**Student(s):** Caoimhe Walsh

2105

**Title:** The Statistic Analysis of Adolescent Perceptions and Attitudes towards people with Down Syndrome

**Overview:** This study will investigate the perceptions and attitudes of 12-18 year old mainstream students towards people with Down syndrome.

**School:** Colaiste Treasa

**County:** Cork

**Teacher:** Ms Joanne Corkery

**Student(s):** Eva Aspel

2106

**Title:** COVID-19: A statistical investigation of the impact of the COVID-19 social restrictions during the lockdown on the well-being of 10 to 18 year olds

**Overview:** My project aims to investigate the impact that COVID-19 social restrictions have had on the well-being of 10 to 18 year olds during the lockdown.

**School:** St Conleth's College

**County:** Dublin

**Teacher:** Mr Seamus Callaghan

**Student(s):** Jamie MacNicholas

2107

**Title:** Where's my voice? A student's analysis on the effects of face coverings in a school environment.

**Overview:** Analysing students' opinions, from 1st-4th years, on the effects (overall wellbeing and student voice) of face coverings in a school environment.

**School:** Coláiste Naomh Mhuire

**County:** Kildare

**Teacher:** Ms Naoise Gallagher

**Student(s):** Amelia Read

2108

**Title:** "Does eating cheese before bed really keep you awake at night? - Using hypothesis testing and tests of significance to really get to the bottom of this old wife's tale"

**Overview:** Using hypothesis testing and tests of significance to investigate if eating cheese before bed really does keep you awake or not!

**School:** Pobalscoil Neasain

**County:** Dublin

**Teacher:** Ms Gemma Buicke

**Student(s):** Rosie May Penn Chester

2109

**Title:** "What's in a name?" Nuclear vs. Fission

**Overview:** An investigation into the effects of changing the phrase nuclear power to fission power and seeing its effect on people's perception of fission power.

**School:** Coláiste Cholmáin

**County:** Cork

**Teacher:** Ms Claudia O Donoghue

**Student(s):** Fionn Nolan

2110

**Title:** The impact of Infodemic on possible Covid 19 vaccine hesitancy

**Overview:** This project is about the Infodemic in secondary schools, and how this relates to Covid-19 vaccine hesitancy.

**School:** C.B.S. Secondary School

**County:** Kerry

**Teacher:** Ms Eilin Enright

**Student(s):** Preston O'Keeffe

2111

**Title:** A Statistical study of the use of CPR and AEDs

**Overview:** My project aims to understand how the Irish public is

# Social & Behavioural Sciences

RTE

lacking in awareness and confidence around CPR and the use of AEDs.

**School:** Kinsale Community School

**County:** Cork

**Teacher:** Mr Shaun Holly

**Student(s):** Christina Hurley

## 2112

**Title:** Kid's Menus - What Are The Options?

**Overview:** This project will look at the most common options in kid's menus, which are the most popular and the reasons they are chosen.

**School:** Muckross Park College

**County:** Dublin

**Teacher:** Mr. Stephen O'Keeffe

**Student(s):** Emma Guiry

## 2113

**Title:** An assessment of the Effects of lockdown and Isolation on physical and mental wellbeing of teenagers.

**Overview:** We want to assess of the Effects of lockdown and Isolation on physical and mental wellbeing of teenagers.

**School:** Coláiste Ailigh

**County:** Donegal

**Teacher:** Mr Keith Cowan

**Student(s):** Ruaidhrí Gallachóir

## INTERMEDIATE INDIVIDUAL

## 2200

**Title:** Who's minds the medics? A mixed methods investigation into the well being of Irish health care staff

**Overview:** This project is an investigation into the well being, work place stress, job satisfaction and rates of burnout in health care professionals in Ireland.

**School:** Colaiste Treasa

**County:** Cork

**Student(s):** Cathal Carmody

## 2207

**Title:** Stay at home vs. Working mothers: how are their children raised?

**Overview:** My project aims to find the differences in children's values, gender stereotypes, behaviours and attitude towards education depending on their parents working status.

**School:** St Mary's Secondary School

**County:** Cork

**Teacher:** Ms Shannen Foley

**Student(s):** Brigin Kelleher

## 2208

**Title:** The Social & Psychological Impact of Face Masks/Face Coverings on Society

**Overview:** To investigate whether the wearing of Face Masks has impacted our society's social behaviours; and how new social techniques have evolved as a result.

**School:** De La Salle College Cork

**County:** Cork

**Teacher:** Ms Aisling Kelleher

**Student(s):** Finn Ó Brádaigh

## 2209

**Title:** Disproving the Theory of Overpopulation

**Overview:** To look into the theory of overpopulation and show that with lowering birth rates there will be a decrease in population by

## 2100.

**School:** Coláiste Eoin

**County:** Dublin

**Teacher:** Mr Des Gaffney

**Student(s):** Robert Rybczynski

## 2211

**Title:** Could social media be making you socially distant? An investigation into how our use of phones has caused us to become less social.

**Overview:** This project will discuss how leaving your phone at home and not using social media at all could have a positive impact on all areas of your health as well as your relationships with others.

**School:** Coláiste Mhuire Co-Ed

**County:** Tipperary

**Teacher:** Miss Katie Carr

**Student(s):** Suzanne Ryan

## 2212

**Title:** Is Social Media Destroying Political Democracy

**Overview:** I want to understand if Social Media is affecting democracies globally, if Social Media can choose who achieves political power. Does true democracy still exist.

**School:** St. Brendan's Community School

**County:** Offaly

**Teacher:** Mrs Kelly-Anne Milne

**Student(s):** Daniel Walshe

## 2213

**Title:** Teaching from home during lockdown: A teacher's perspective

**Overview:** I investigate how second-level teachers in Ireland viewed and responded to teaching from home during the COVID-19 pandemic.

**School:** Grange Community College

**County:** Dublin

**Teacher:** Ms Fiona Ryan

**Student(s):** Roula El-Sherbiny

## 2214

**Title:** An analysis of the existing supports and resources in place for disabled individuals participating in the workplace in Ireland, and a proposal for a new scheme to improve them

**Overview:** An analysis of the resources currently available to disabled people entering and participating in the workplace, and a proposal for a scheme to improve them.

**School:** Midleton College

**County:** Cork

**Teacher:** Ms. Niamh O'Mahony

**Student(s):** Amy Walsh

## 2215

**Title:** An investigation into how face coverings have an effect within Post-Primary schools.

**Overview:** Since we have to wear face coverings for the majority of the day we decided to delve into this topic and see if the frequency and sound level changes depending on the type of face mask used.

**School:** Midleton College

**County:** Cork

**Teacher:** Ms. Niamh O'Mahony

**Student(s):** Mia Cosgrave

## 2216

**Title:** Students' exposure and understanding of alt-right dog whistles; does political orientation correlate with online saturation of said symbols

**Overview:** An exploration of students' level of exposure and knowledge of alt-right ideologies and symbols, and whether it affects their political orientation.

**School:** Midleton College

**County:** Cork

**Teacher:** Ms. Niamh O'Mahony

**Student(s):** Éabha Treacy

## 2217

**Title:** The Conditioning of the next generation to gamble through the use of video games

**Overview:** An in depth analysis of whether or not video games condition young people to gamble and if so what methods are used for said conditioning.

**School:** Coláiste Choilm

**County:** Cork

**Teacher:** Mr Paudie Scanlon

**Student(s):** Ben Murphy

## 2218

**Title:** Studying is Hard, But Who had it Harder?

**Overview:** I plan to conduct an experiment exploring how well these three studying techniques work at school versus in a home setting.

**School:** Gonzaga College

**County:** Dublin

**Teacher:** Mr Stephen McGroggan

**Student(s):** Seán Radcliffe

## 2219

**Title:** A statistical analysis of student's school experiences with intellectual disabilities vs non-intellectual disabilities.

**Overview:** my project is about how people with intellectual disabilities school experiences differ from people that don't have a intellectual disabilities.

**School:** Blackwater Community School

**County:** Waterford

**Teacher:** Mrs Brigid Barrett

**Student(s):** Grace Arrigan

## 2220

**Title:** Tell me what to think

**Overview:** The project aims to find whether young people's opinions are heavily influenced by figures on social media and/or by popularity.

**School:** Rosemont School

**County:** Dublin

**Teacher:** Ms Maeve Carolan

**Student(s):** Sabastine Pennington

## 2221

**Title:** An investigation into how ingrained the lack of status for female athletes is in comparison to male athletes and to what extent is this a

# Social & Behavioural Sciences

RTE

cognitive bias.

**Overview:** I want to investigate how deep inequality in sport goes.

Does it happen at a cognitive level, or are we aware of it?

**School:** Coláiste Muire Crosshaven

**County:** Cork

**Teacher:** Ms Martina McMahon

**Student(s):** Niamh Nash

## 2222

**Title:** Analyzing the difference between Car Insurance rates Between Ireland and other developed countries and why this occurs

**Overview:** This project aims to quantify and find the reason behind the differences in car insurance rates between Ireland, the UK, and the USA

**School:** Bishopstown Community School

**County:** Cork

**Teacher:** Ms Michelle O'Brien

**Student(s):** Marcus Bryan

## 2223

**Title:** The Impact of Robotic Assistance on Farms has on Mental Health and Animal Welfare

**Overview:** My project aims to investigate how robotic machines impact life on a farm and also how it impacts animal welfare.

**School:** The Abbey School

**County:** Tipperary

**Teacher:** Ms. Eavan Ryan

**Student(s):** Cormac Donovan

## 2225

**Title:** The Effect of Binaural Beats On Our Memory

**Overview:** I believe that binaural beats (40hz) induces gamma waves in the brain ( frequency following response ) which could aid memory.

**School:** Heywood Community School

**County:** Laois

**Teacher:** Ms Sharon Magner

**Student(s):** Cillian Moran

## 2226

**Title:** Cognitive Deterioration – effects, causes and possible means of combat

**Overview:** I'll survey people about how much they know about cognitive deterioration and it's effects to increase awareness about it and help combat it.

**School:** St Brigids Vocational School

**County:** Galway

**Teacher:** Ms Sarah Clarke

**Student(s):** Robert Treacy

## 2227

**Title:** A Statistical Investigation into the Flaws of the Sexuality Education Curriculum in Ireland.

**Overview:** The aim of this project is to investigate the flaws of the sexuality education curriculum in Ireland via survey and compile online resources for teachers.

**School:** Midleton College

**County:** Cork

**Teacher:** Ms. Niamh O'Mahony

**Student(s):** Ava Murphy

## 2228

**Title:** 'It's the small things- An Investigation into the division of Emotional Labour in the home and suggestions on how gender imbalances can be rectified'.

**Overview:** My project aims to investigate how Emotional Labour is divided in the home and make suggestions on how any gender imbalances can be rectified.

**School:** Scoil Mhuire gan Smál

**County:** Roscommon

**Teacher:** Mr James McLoughlin

**Student(s):** Katie Harlow

## 2229

**Title:** A statistical analysis on the level of knowledge and attitude to meningococcal sepsis and meningococcal vaccine (ACWY) in Irish adolescents

**Overview:** An investigation of students in secondary schools in Ireland, to evaluate their level of knowledge on meningococcal sepsis and to raise awareness of meningococcal disease.

**School:** C.B.S. Secondary School

**County:** Kerry

**Teacher:** Ms Maire Fitzgerald

**Student(s):** Joel Varghese

## 2230

**Title:** Meritocracy in schools; eliminating luck in the equation of success

**Overview:** I'll be seeking to expose the formula of success; what role meritocracy has: in order to surge learning curves and success rates in Ireland.

**School:** Colaiste Nano Nagle

**County:** Limerick

**Teacher:** Ms Kelly Walsh

**Student(s):** Kaja Bozi

## 2231

**Title:** The Effectiveness Of Healthy Nutritious Foods Being Served In Second Level Schools To Create Healthy Habits A Quantitative Analysis

**Overview:** I want to research about how the temptation of unhealthy foods in our canteen is effecting our students health.

**School:** Athlone Community College

**County:** Westmeath

**Teacher:** Mr Gavin Beirne

**Student(s):** Niamh Dunning

## 2232

**Title:** The disproportionate nature of the gender gap in politics

**Overview:** My project aims to explore why there is a statistically undeniable gender gap in politics and how we can encourage more females to get involved.

**School:** Laurel Hill Secondary School FCJ

**County:** Limerick

**Teacher:** Ms Karen Kinnerk

**Student(s):** Keelin Murphy

## 2233

**Title:** A statistical analysis of the influence of canvassing on voters voting decisions in the 2020 general election

**Overview:** The objective of the project is to find out if canvassing influences voters voting decision with in-depth analysis of the 18-24

year old group.

**School:** Rockwell College

**County:** Tipperary

**Teacher:** Ms Helen Murray

**Student(s):** Kevin Clancy

## 2234

**Title:** 'I Hear Everything' - An investigation into the lack of knowledge and inclusion of Sensory Processing Disorder in society

**Overview:** I aim to examine why some people do not fully comprehend Sensory Processing Disorder and what factors affect this.

**School:** Athlone Community College

**County:** Westmeath

**Teacher:** Mr Gavin Beirne

**Student(s):** Sarah Fitzpatrick

## 2235

**Title:** gamers' wins vs gamers' losses

**Overview:** Gaming has become a very popular hobby/past time for people recently. This project will look at what are the unconscious benefits.

**School:** Athlone Community College

**County:** Westmeath

**Teacher:** Ms Laura Donnellan

**Student(s):** Jose Kochumuttam

## 2236

**Title:** Are they too young?

**Overview:** An investigation on how our younger generation has evolved with the help of technology and social media quite negatively (drugs alcohol, graphic content, etc)

**School:** Le Chéile Secondary School

**County:** Dublin

**Teacher:** Dr. Ciara Finnegan

**Student(s):** Sharon Okanume

## 2237

**Title:** Covidiocy' - an emerging phenomenon

**Overview:** This project explores attitudes, psychological and psychosociological factors associated with non-compliance, amongst Irish adolescents, with behavioural recommendations during the Coronavirus Pandemic.

**School:** Castletroy College

**County:** Limerick

**Teacher:** Ms Ellen Murnane

**Student(s):** Orna Collins

## 2240

**Title:** How Do Different Styles of Music Affect Our Heart and Our Emotions

**Overview:** Music affects everyone differently. This intrigued me so I wanted to see how people's heart rate and emotions are affected by different styles of music.

**School:** St Aloysius School

**County:** Cork

**Teacher:** Ms Katie O'Donovan

**Student(s):** Saoirse Geaney

## 2241

**Title:** "The Impact of Social Media on the Voters of the Future in Ireland"

**Overview:** A study of the influences, behaviours and attitudes of young people making voting choices, is Ireland on trend to follow the US & the UK?

**School:** Laurel Hill Secondary School FCJ

**County:** Limerick

**Teacher:** Ms Karen Kinnerk

**Student(s):** Aoife Barrett

## 2242

**Title:** The development of racial prejudice in children: a statistical analysis on the influence of society and home life on a child's thoughts and attitudes towards racism

**Overview:** My project aims to investigate which factors in society and in family life influence racial prejudice and discrimination in children, and how to prevent it

**School:** Castletroy College

**County:** Limerick

**Teacher:** Ms Ellen Murnane

**Student(s):** Aronnya Khan Zakaria

## 2243

**Title:** Students Without Stress

**Overview:** My project aims to find out if a period of time to relax and de-stress before exams can improve results.

**School:** Colaiste Pobail Setanta

**County:** Dublin

**Teacher:** Ms Sharon Daley

**Student(s):** Ciara Murray

## 2244

**Title:** A Theory About Conspiracy Theories

**Overview:** In this project we aim to find out more about conspiracy theories and fake news. We will be looking at propaganda and the media

**School:** Youthreach Navan

**County:** Meath

**Teacher:** Ms Sharon Maher

**Student(s):** Max Chmieliauskas

## 2246

**Title:** How do different generations interpret climate change and its effects?

**Overview:** My aims in this project are to find out what people believe the effects of global warming to be.

**School:** Christian Brothers Secondary School Cork

**County:** Cork

**Teacher:** Ms Marjorie Ryan

**Student(s):** Adam Hennessy

## 2247

**Title:** A qualitative and quantitative investigation into the factors that influence the use of non-steroidal anti-inflammatory drugs (NSAID's) amongst GAA players.

**Overview:** An qualitative and quantitative investigation into the factors that influence the use/misuse of non-steroidal anti-inflammatory drugs's amongst GAA club players.

**School:** Lanesboro Community College

**County:** Longford

**Teacher:** Mr Michael Lyons

**Student(s):** Conor Lyons

# Social & Behavioural Sciences

RTE

2248

**Title:** Are Kinesthetic Learners Given Enough Support in and out of the Classroom?

**Overview:** The aim of this project is to identify different learning types and how each of them is supported in class and during home study

**School:** Coláiste Lorcáin

**County:** Kildare

**Teacher:** Mrs Fiona Searing

**Student(s):** Gabriel Pollard-Curran

2249

**Title:** Do virtual escape rooms help students to learn about laboratory experiments?

**Overview:** In this experiment, I will find out if virtual escape rooms help students to learn about laboratory experiments.

**School:** Loreto Secondary School, Balbriggan

**County:** Dublin

**Teacher:** Mr Brian Higgins

**Student(s):** Claire Johnson

2250

**Title:** An analysis of fire service statistics since 2005

**Overview:** To investigate the fire services statistics published by the Department of Housing, Planning and Local government in order to predict future fire deaths and instances

**School:** Summerhill College

**County:** Sligo

**Teacher:** Mr Fintan Whelan

**Student(s):** John Mackey

2251

**Title:** Can secondary school students learn word translations whilst sleeping and if so, which sleep stage will maximize this?

**Overview:** Using Fitbits and audio recordings, I'll discover whether secondary school students can learn word translations whilst sleeping, and which sleep stage is best for this?

**School:** Loreto College

**County:** Dublin

**Teacher:** Ms Carol Byrne

**Student(s):** Kate Fensom

2252

**Title:** The development of a learning through play activity to combat racial bias in children.

**Overview:** My projects aim is to combat racial bias in children by developing an activity that can be adapted in creches, preschools and primary schools.

**School:** Mercy Secondary School

**County:** Kerry

**Teacher:** Miss Eimear Nolan

**Student(s):** Katie Prendiville

## SENIOR INDIVIDUAL

2300

**Title:** Real-time analysis of the effect of lockdown on post primary students in a DEIS school.

**Overview:** A real time analysis over 11 weeks of the effect of lockdown on the stress levels and relationships of DEIS post primary students.

**School:** Vocational College Bunclody

**County:** Wexford

**Teacher:** Ms Maire Finn

**Student(s):** Leah Coleman

2301

**Title:** Emotions Felt By Teenage Boys During Covid-19 Lockdown. An Irish Perspective

**Overview:** I intend to capture emotions felt by teenage boys during the Covid-19 lockdown by conducting a piece of qualitative research.

**School:** St. Joseph's C.B.S

**County:** Tipperary

**Teacher:** Mr Eoghain O'Keeffe

**Student(s):** Dylan Geoghegan

2302

**Overview:** To investigate how the regulations of motivation affects exercise levels and how we can use SDT to better motivate the nation.

**School:** Heywood Community School

**County:** Laois

**Teacher:** Mr Aodhagan O Suilleabhain

**Student(s):** Evan Hogg

2304

**Title:** Current Social Media Conversations on Human Germline Genome Editing: A Twitter based Analysis

**Overview:** To understand what topics are being discussed and what information is being shared by social media users about CRISPR-Cas9 technology and human germline genome editing.

**School:** The Institute Of Education - Dublin

**County:** Dublin

**Teacher:** Ms Catriona Hendry

**Student(s):** Tara Berry

2305

**Title:** Glossophobia : Finding Your Audience

**Overview:** An investigation into glossophobia (public speaking anxiety) with focus on its causes, as well as the affect online school and masks have had on glossophobes.

**School:** Ursuline College

**County:** Sligo

**Teacher:** Mr Anthony Carolan

**Student(s):** Aoibheann Kearins

2306

**Title:** Fiosrúchán ar na Praiticiúlachtaí, agus Anailís Costa is Tairbhe ar an Maoiniú ón Rialtas don Suiteáil Painéal Gréine i nGach Teach in Éirinn

**Overview:** Fiosrúchán ar na praiticiúlachtaí do phainéil ghréine a bheith curtha ag an rialtas i ngach teach sa tír, agus an costas is tairbhe a ríomh.

**School:** Scoil Chaitriona

**County:** Dublin

**Teacher:** Ms Muireann Ní Chonchúir

**Student(s):** Michael Kennedy

## 2307

**Title:** The Scientific Study of Dreams

**Overview:** Investigate a study on dreams, what causes them, how they are affected/influenced, why they happen and has COVID-19 influenced what we are dreaming about.

**School:** St Ciaran's High School

**County:** Tyrone

**Teacher:** Mrs Pauline Murphy

**Student(s):** Anastazja Milczarek

## 2309

**Title:** Cén ghlúin is mó a bhaineann an paindéim Covid-19 leo?/ Which generation is most concerned about the Covid-19 Pandemic?

**Overview:** A comparison between generations' actions and attitudes in relation to the Covid-19 Pandemic.

**School:** Coláiste Ailigh

**County:** Donegal

**Teacher:** Mr Shane Ó Breacáin

**Student(s):** Pól Mac Giolla Easpaig

## 2311

**Title:** Why is there such a taboo in Ireland surrounding menstruation?

**Overview:** There is such a stigma about periods in Ireland. I want to see a teen girls perspective on this and how they feel

**School:** St Mary's Secondary School

**County:** Dublin

**Teacher:** Ms Eilish Coleman

**Student(s):** Emma Murphy

## JUNIOR GROUP

## 2400

**Title:** W.A.S.T.E (Worthless activities that steal time and energy)

**Overview:** To raise awareness of the importance of disposing waste correctly and to eliminate the misconceptions around single use coffee cups.

**School:** St. Brogan's College

**County:** Cork

**Teacher:** Ms Laura O'Regan

**Student(s):** Clodagh O Sullivan, Meabh O Mahony, Caoimhe Foley

## 2401

**Title:** Keep calm & carry on breastfeeding

**Overview:** An exploration into the knowledge and attitudes of post primary students towards breastfeeding.

**School:** St. Brogan's College

**County:** Cork

**Teacher:** Ms Laura O'Regan

**Student(s):** Lucy Teape, Kate Lehane

## 2402

**Title:** E.Y.E (Enhance Your Education)

**Overview:** To test students abilities to see patterns and to identify if this correlates with their talents, interests and educational achievement.

**School:** St. Brogan's College

**County:** Cork

**Teacher:** Ms Laura O'Regan

**Student(s):** Tomás Markey, Saoirse O'Neill

## 2403

**Title:** Mobile phone usage and the impact of push notifications

**Overview:** Our project is finding out how much we use our phones on a daily basis and the effect of notifications.

**School:** Colaiste An Phiarsaigh

**County:** Cork

**Teacher:** Mr Caoimhín Ó Buachalla

**Student(s):** Caoimhín Ó Murchú, Shane Hourigan, Darragh McSweeney

## 2404

**Title:** A statistical investigation into Nomophobia and Smartphone addiction and developing a solution to reduce these issues from occurring amongst pre-teenagers

**Overview:** With the help of research/surveys, we will create a plan for pre-teenagers to follow to prevent the development of phone issues later in life.

**School:** Coláiste Choilm

**County:** Cork

**Teacher:** Ms Grainne Costigan

**Student(s):** Vanessa Alatis, Mileta Grenouilleau, Kamile Grenouilleau

## 2405

**Title:** Calories VS Chemicals

**Overview:** To investigate if food choices should be influenced by chemical composition or calorie content.

**School:** St. Brogan's College

**County:** Cork

**Teacher:** Ms Laura O'Regan

**Student(s):** Kate O'Leary, Leah Lordan

## 2406

**Title:** A study of the factors that affect the type of dreams we experience.

**Overview:** Our project aims to investigate how factors such as age, gender and lifestyle affect the types of dreams we experience.

**School:** Colaiste Dun an Ri

**County:** Cavan

**Teacher:** Ms Siobhan Hamill

**Student(s):** Beata Ukoeninn, Adrija Gumbreviciute

## 2407

**Title:** An Investigation into the relationship between Irish lottery participants and their socio-demographic backgrounds.

**Overview:** We will investigate the relationship between people's cultural backgrounds, financial status, education etc and their decision to participate in the lottery. We determine if the lottery is a gateway to gambling on a larger scale for young people.

**School:** Colaiste Dun an Ri

**County:** Cavan

**Teacher:** Ms Linda Kelly

**Student(s):** Hannah O'Reilly, Aideen Rooney, Dinara O'Reilly

## 2408

**Title:** How Covid-19 has had an impact on global warming.

**Overview:** We hope to examine the impact of Covid-19 on Global Warming. Worldwide lockdown has made a positive impact on slowing down the effects of global warming.

**School:** St. Brogan's College

**County:** Cork

# Social & Behavioural Sciences

RTE

**Teacher:** Ms Laura O'Regan  
**Student(s):** Doireann Walsh, Caoimhe Ryan, Tadhg O'Donovan

2409

**Title:** Budgies and their habitats

**Overview:** Comparing the stereotypical budgie cage to what a budgie's proper habitat should look like and studying how the budgie should react in their cage.

**School:** Scoil Mhuire gan Smál Blarney

**County:** Cork

**Teacher:** Ms Marguerite O'Donoghue

**Student(s):** Sophie O'Flynn, Claire Hyland

2410

**Title:** Tionchar tuismitheora ar rannpháirtíocht sa spórt i measc déagóirí bainneanna, agus na fachtóirí a imríonn tionchar ar rannpháirtíocht na gcailíní sa spórt.

**Overview:** Thugamar faoi deara go n-éiríonn a lán cailíní as spórt nuair a thosaíonn siad sa mheánscoil. Ba mhaith linn na cúiseanna a fhiosrú.

**School:** Gaelcholáiste an Phiarsaigh

**County:** Dublin

**Teacher:** Ms Emma De Búrca

**Student(s):** Aoibheann Ní Fhachtna, Sadbh Ní Bhroin, Laoise Ní Íoruaidh

2411

**Title:** "The Magic Feather": One weird trick to boost athletic performance

**Overview:** Examining the Placebo effect of a magic wrist band on the sports performance of a number of first year students.

**School:** Tallaght Community School

**County:** Dublin

**Teacher:** Ms Kate O'Gorman

**Student(s):** Lauren Coughlan, Leah Leddy, Ayomiposi Oshundaro

2412

**Title:** Is COVID-19 a catalyst for sustainability

**Overview:** To investigate whether COVID-19 has had a positive effect on the environment or if it has made environmental factors like pollution or climate change worse.

**School:** Choláiste Cholmcille

**County:** Donegal

**Teacher:** Mr Fenton McHugh

**Student(s):** Alessandro Cian, Joseph Harrison

2413

**Title:** An Statistical Analysis of the Covid-19 on the Irish Diet

**Overview:** Our project aims to establish the effect of the Covid-19 lockdown on the Irish diet and develop a strategy to promote healthy shopping habits.

**School:** Moate Community School

**County:** Westmeath

**Teacher:** Ms Mairead Cusack

**Student(s):** Sarah McCormack, Skyla Looney, Niamh Kelly

2414

**Title:** women in farming

**Overview:** To investigate why women aren't traditionally as

encouraged into farming/agriculture as men.

**School:** Boherbue Comprehensive School

**County:** Cork

**Teacher:** Mrs Orla Dineen

**Student(s):** Molly O'Sullivan, Cara Courtney

2415

**Title:** The Dark Side of Blue Light

**Overview:** The aim of our investigation is to research teenagers knowledge and understanding of blue light emissions and carry out an awareness campaign on this issue.

**School:** Castleblayney College

**County:** Monaghan

**Teacher:** Mrs Celine Keith

**Student(s):** Danika Brennan, Katelyn McGuire, Katie Burns

2416

**Title:** Café De Protein

**Overview:** our project is based on how much protein we need compared to how much we actually get. We have prepared an fun, informative interactive activity

**School:** Loreto Secondary School

**County:** Tipperary

**Teacher:** Ms Emma Griffin

**Student(s):** Elise Walsh, Heather Doyle

2417

**Title:** Investigating gender balance on student councils

**Overview:** Our objective is to investigate the gender balance on student councils in Ireland and how this leads to gender balance on public representation traits.

**School:** Gaelcholáiste Luimnigh

**County:** Limerick

**Teacher:** Mr Michael Mc Carthy

**Student(s):** Jane Madden, Olly Tierney, Aoibhe Gardiner

2418

**Title:** CARA; an approach to put a stop to bullying

**Overview:** Cara is a website that helps teenagers get advice on how to tackle bullying, if they don't have anyone to talk to.

**School:** Belmayne Educate Together Secondary School

**County:** Dublin

**Teacher:** Ms Emma Burrowes

**Student(s):** Susan Walsh, Zuzanna Żółtowska

2419

**Title:** How Did Lockdown Effect Different Demographics?

**Overview:** A study of how COVID-19 restrictions impacted different demographics of teenagers, how this can be used to design campaigns to encourage adherence to current restrictions.

**School:** Clonturk Community College- Educate together

**County:** Dublin

**Teacher:** Mr Patrick Connor

**Student(s):** Aisling Bonner, Ciara Lawler

2420

**Title:** Fadhbanna Sóisialta ag Déagóirí I Méanscoileanna

**Overview:** Tá muid ag iarraidh a fháil amach na deachtrachtaí atá ag deagóirí, conas a dhéileálann siad leis agus eolas atá acu faoi cuidiú.

**School:** Coláiste Ailigh

**County:** Donegal

**Teacher:** Máistreás Siobhán Laighneach

**Student(s):** Rachel Ní Bhógáin Nic Ailín, Ríann Ní Shirideáin, Kellie Ní Dhorráidhin

## 2422

**Title:** An investigation into the impacts of wearing face masks on the lives and learning experiences of young people

**Overview:** Our project aims to find out what young people experience as a result of wearing face masks and how it affects them as individuals.

**School:** St. Clare's Comprehensive School

**County:** Leitrim

**Teacher:** Miss Edel McPhelim

**Student(s):** Luchia Smyth, Bláithín Feeley, Sophie Brady

## 2423

**Title:** An investigation into how people aged 13 to 17 get their news, their awareness of fake news and their ability to identify a news source as trustworthy.

**Overview:** We want to find out how and where teenagers consume news and if they are able to tell if it is real or fake.

**School:** Patrician Academy

**County:** Cork

**Teacher:** Ms Ann-Marie Walsh

**Student(s):** Hugh Ahern, Conor McCarthy

## 2424

**Title:** A statistical analysis of Irish people's attitudes towards nuclear energy as a solution to achieving our carbon emission targets

**Overview:** As global concern about climate change increases, our project aims to find out about Irish people's attitudes towards nuclear power as an alternative energy source

**School:** Patrician Academy

**County:** Cork

**Teacher:** Ms Ann-Marie Walsh

**Student(s):** William Ahern, Eoin Dineen

## 2425

**Title:** How the lack of finishing primary school has affected 1st year students

**Overview:** This project will investigate the negative effects of not completing sixth class has had on first year students.

**School:** Coláiste Lorcáin

**County:** Kildare

**Teacher:** Ms Amy Murphy

**Student(s):** Sarah Reynolds, Aoife Kavanagh

## 2427

**Title:** An analysis of the intake of iron and the awareness of the importance of iron among teenage girls in the prevention of iron deficiency anaemia.

**Overview:** To assess teenage girls' knowledge of iron, their intake of iron and their awareness of the importance of iron in preventing iron deficiency anaemia.

**School:** Colaiste Dun an Rí

**County:** Cavan

**Teacher:** Ms Siobhan Hamill

**Student(s):** Meghan Hurt, Anna Chushack

## 2428

**Title:** Exercising In A Lockdown - How The Digital Age Can Assist Teenagers To Exercise During A Pandemic Lockdown

**Overview:** A study into teenagers' exercise during Lockdown and how the digital age has helped us during these times, and can do so in future lockdowns.

**School:** Summerhill College

**County:** Sligo

**Teacher:** Mrs. Caroline Mc Goldrick

**Student(s):** Samuel Regan, Patrick Murphy

## 2429

**Title:** Ready steady learn!

**Overview:** Our project is about how physical exercise before class affects our learning.

**School:** Dominican College

**County:** Wicklow

**Teacher:** Ms Catherine Kelly

**Student(s):** Karla McEvoy, Keelin Campbell Rawson, Grace Doherty

## 2430

**Title:** Can relative pitch affect a person's ability to reproduce and pronounce languages?

**Overview:** To investigate if relative pitch affect a person's ability to reproduce and pronounce languages.

**School:** Loreto Secondary School, Balbriggan

**County:** Dublin

**Teacher:** Ms Chloe White

**Student(s):** Jessica Chen, Alana O'Conner

## INTERMEDIATE GROUP

## 2500

**Title:** HighFive

**Overview:** We are using the Leap Motion Controller to track progress of motor function in the hand with osteoarthritis and Python to play back data.

**School:** Scoil Mhuire

**County:** Meath

**Teacher:** Ms Belynda Weldon O Gorman

**Student(s):** Étaín McCarthy, Jessica Varley, Aoife Swan

## 2502

**Title:** A Comparative Study to Investigate Experiences of Discrimination Among Ethnic Minority Students

**Overview:** Our project investigates the experiences of racism in ethnic minority adolescents in post-primary schools, and evaluates the differences between schools in urban and rural areas.

**School:** Colaiste Treasa

**County:** Cork

**Teacher:** Mr James O'Connell

**Student(s):** Gráinne Rahilly, Conor O Sullivan, Stella Baldassini

## 2503

**Title:** One language or two: what's better for you?

**Overview:** Our project aims to research the advantages of bilingualism in students aged 12 to 19. We wish to identify the perks of being a bilingual student, as opposed to a student who is monolingual

# Social & Behavioural Sciences

RTE

**School:** Millstreet Community School  
**County:** Cork

**County:** Cork  
**Teacher:** Ms Grainne Costigan  
**Student(s):** Ben Bourke, Eoghan Moriarty

2511

**Title:** Investigating the link between reading for pleasure and pursuing a higher education and career.  
**Overview:** In this project, we hope to examine the connection between reading for delight in your free time and seeking an advanced education and vocation.  
**School:** St Joseph's College  
**County:** Dublin  
**Teacher:** Ms Helena Lynn  
**Student(s):** Irene Malaykal, Erin Tomney, Aoife Pakenham-Barry

2512

**Title:** Movie Moral  
**Overview:** How film changes and alters your views and choices.  
**School:** Portlaoise College  
**County:** Laois  
**Teacher:** Mr Chris Gleeson  
**Student(s):** Noor Fatima, Aleksandra Polak, Ben Campbell

2513

**Title:** Do you ever think how much a "thumbs up" costs?  
**Overview:** Will reducing our social media engagement, the number of emails we send, relocating data storage centres to rural Ireland reduce carbon emissions in Ireland?  
**School:** Millstreet Community School  
**County:** Cork  
**Teacher:** Ms Jennifer O'Donoghue  
**Student(s):** Molly Morley, Amy Hickey, Katie Morley

2514

**Title:** A statistical analysis of teenage girls' knowledge of female disorders and diseases ie.endometriosis, PCOS, and breast and cervical cancer  
**Overview:** Our project is about the knowledge of womens' health amongst teenage girls. We want to investigate the lack of common knowledge surrounding certain conditions.  
**School:** St Mary's Secondary School  
**County:** Cork

**Teacher:** Ms Shannen Foley  
**Student(s):** Faye Cunningham, Rowen Moore

## 2515

**Title:** How music affects your heart rate during sleep  
**Overview:** for our bt project we are going to be investigating how music affects our heart rate during sleep, comparing different age groups and genres  
**School:** St Mary's Secondary School  
**County:** Cork  
**Teacher:** Ms Shannen Foley  
**Student(s):** Ruby O'Shea, Ava Ronan

## 2516

**Title:** Sexism In Sport  
**Overview:** To find out what age tge bias that boys are better than girls at sports appears in children.  
**School:** Portlaoise College  
**County:** Laois  
**Teacher:** Mr Conor Whelehan  
**Student(s):** Sean McComish Day, Faith Sacre Quigley

## 2517

**Title:** what are the causes and effects of para-social relationships in todays society (do you know your favrouite celebrity)?  
**Overview:** Our project aims to supply information on the psychological causes and effects of para-social relationships on today's population.  
**School:** St Joseph's Secondary School  
**County:** Mayo  
**Teacher:** Ms Margaret Tighe  
**Student(s):** Marcel Adamski, Mateusz Brucki, Wiktor Turalski

## 2518

**Title:** An bhfuil vapáil ma cloch céim le haghaidh caithaimh tabaic, agus an bhfuil fhios ag deagóirí faoi na dáinsèir.  
**Overview:** Tá meid ag iarai faigh amach faoi an ceangailt idir vapáil agus ag caitheamh tabaic, agus an bhfuil fios ag deagóirí na dáinsèir leis.  
**School:** Coláiste Pobal Osraí  
**County:** Kilkenny  
**Teacher:** Ms Julia Coffey  
**Student(s):** Adam Drennan, Noah Meany, Danny Heddon

## 2519

**Title:** Does the racial inequalities in our society cause resentment in young adolescent Irish teens?  
**Overview:** To investigate how racial discrimination affects the young adolescent Irish teens of ages 12-18+ by conducting a number of surveys from numerous schools in Ireland.  
**School:** St Angela's  
**County:** Waterford  
**Teacher:** Mr Séamus Hearne  
**Student(s):** Jessica Power, Natalie Ung

## 2520

**Title:** The Anti-Vaxxer Virus  
**Overview:** In-depth investigation into the inductions of vaccines to society, pinpointing where, when, why and how they went wrong to aid induction of a COVID-19 vaccine.  
**School:** Ursuline College

**County:** Sligo  
**Teacher:** Mr Anthony Carolan  
**Student(s):** Orla Devlin, Ciara Toolan, Aoibhin Mahar

## 2522

**Title:** Why is Goat Off the Menu? A Statistical Analysis of Attitudes to Consuming Goat Meat  
**Overview:** Why is goat meat unpopular in Ireland? An investigation into why farmers don't produce goat and why people don't eat this healthy nutritious meat?  
**School:** Clonakilty Community College  
**County:** Cork  
**Teacher:** Mr Patrick O Keeffe  
**Student(s):** Oscar Kingston, Samuel Mikulka

## 2523

**Title:** "Assessing the impact of Second-Level education on key aspects of adolescents' life and development"  
**Overview:** Our project aims to statistically and scientifically assess the impact of academic stress/pressure in 12-19 Year Olds under three main headings. Social, Mental and Physical.  
**School:** The Abbey School  
**County:** Tipperary  
**Teacher:** Ms. Eavan Ryan  
**Student(s):** Shane O'Connor, Liam Carew

## 2524

**Title:** Do phones affect the quality and duration of your sleep  
**Overview:** We want to find out if using your phone before sleep affects the quality of your sleep  
**School:** Castlecomer Community School  
**County:** Kilkenny  
**Teacher:** Miss Fiona Morrissey  
**Student(s):** David Byrne, Jack Dowd, Luke Hamilton

## 2525

**Title:** A Dog's Purpose: A study of and novel solution to loneliness  
**Overview:** Our project investigates social isolation and the benefits of pets on mental health; developing an app based solutionn to connect lonely people with dogs.  
**School:** Dominican College  
**County:** Dublin  
**Teacher:** Miss Gemma Kirwan  
**Student(s):** Emily O'Brien, Elizabeth Quigley

## 2526

**Title:** Can the stars tell you who you are?  
**Overview:** Peculiar question, isn't it? Looking up & understanding something as complex as your personality or even your secrets. Can it be answered, let's find out...  
**School:** Borrisokane Community College  
**County:** Tipperary  
**Teacher:** Ms Rachel Ahern  
**Student(s):** Sinethemba Masina, Anga Singqandu, Buhlebethu Afriye

## 2527

**Title:** The teenage fixation on supplemented protein due to social media  
**Overview:** We are doing an awareness project into the teenage fixation on supplemented protein and how social media is influencing this

2534

**Title:** "Is rural Ireland a good environment for Creatives to flourish  
**Overview:** We will investigate how rural communities perceive creative expression and original thinking. We want to know if a rural community empowers or stifles creative expression.  
**School:** Carrick-On-Shannon Community School  
**County:** Leitrim  
**Teacher:** Ms Sinéad Creegan  
**Student(s):** Daniel Azaharie, Kaelan Hanifa, Elí Holmes

2535

**Title:** An buntáiste é mata a dhéanamh trí gaeilge.  
**Overview:** Tá muid ag iarraidh fáil amach má bíonn níos mó tuiscant ar mata má bhfuil sé déanta trí gaeilge ó aois óg.  
**School:** Coláiste Pobal Osraí  
**County:** Kilkenny  
**Teacher:** Ms Julia Coffey  
**Student(s):** Ríona Crowley, Lia Ní Chonraí

2536

**Title:** How participation in extracurricular activities grades  
**Overview:** Our project aims to find out how students participation in extracurricular activities affects their academic performance.  
**School:** Tarbert Comprehensive School  
**County:** Kerry  
**Teacher:** Ms Joanne Mulvihill  
**Student(s):** Cait Carmody, Megan Lynch

2537

**Title:** Quarantots; Behavioural changes in primary school children due to quarantine  
**Overview:** An observational study on teacher's perceptions of behavioural changes in primary school children from senior infants to second class due to the COVID-19 quarantine.  
**School:** Boherbue Comprehensive School  
**County:** Cork  
**Teacher:** Mrs Orla Dineen  
**Student(s):** Ella Willis, Katelyn Brosnan

2538

**Title:** A statistical analysis to explore family roles within the context of gender, age and well-being during covid-19  
**Overview:** Our project aims to find out if gender stereotyping roles were evident during lockdown and enable the design of more effective interventions to address concerns.  
**School:** Athlone Community College  
**County:** Westmeath  
**Teacher:** Miss Irene O'Sullivan  
**Student(s):** Tara Hamilton, Áine Egan

2539

**Title:** An investigation into the effects of eating before sleep

**Overview:** To investigate whether eating food before sleep can affect quality of sleep

**School:** St Kieran's College

**County:** Kilkenny

**Teacher:** Mr David Hennessy

**Student(s):** Michael Cullen, James McEvoy, Patrick Foley

## 2540

**Title:** An Investigation into the Existence of a Correlation between Student and Parent Attitude to Maths, and the Impact on their resilience.

**Overview:** We will conduct a three stage investigation into correlation between parental attitude to maths and that of their child, and how this impacts resilience.

**School:** St. Anne's Secondary School

**County:** Tipperary

**Teacher:** Ms Jacqueline Hayes

**Student(s):** Jessica Brennan, Kate Power

## 2542

**Title:** Voting for Change: A comparative analysis of the Irish PR-STV voting system to determine if it contributes to political instability, gender imbalances and absence of democracy

**Overview:** Our project intends to investigate whether the PR-STV system adversely effects political stability+gender balance within the Irish Government in comparison to other democratic systems.

**School:** Ardscoil Ris

**County:** Limerick

**Teacher:** Mr Jack Corrigan

**Student(s):** Stuart Griffin, Charlie Goldsmith, Jacob Aylmer

## 2543

**Title:** A statistical analysis exploring the public's attitude towards the 'Resilience and recovery plan 2020-2021'.

**Overview:** The purpose of our study is to analyse the views/opinions of the public based on the newly announced COVID-19 guidelines set out in September.

**School:** St. Louis Secondary School

**County:** Monaghan

**Teacher:** Mr Niall Mooney

**Student(s):** Donna Sherlock, Neidin Wall, Orla Sherry

## 2544

**Title:** A Statistical Investigation into Pitch Perception Ability and its Correlation to Musical Confidence and Personality Type

**Overview:** Measuring confidence in singing as a factor of ability to discern between increasingly similar notes in order to encourage participation in choirs or other groups.

**School:** Coláiste Choilm

**County:** Cork

**Teacher:** Mr Paudie Scanlon

**Student(s):** Senan Meehan, Luke O'Sullivan

## 2545

**Title:** Mob Mentality And Who Is More Susceptible.

**Overview:** We were inspired by a story our history teacher told us , involving the murder of Kitty Genovese. We were very interested in how all 38 bystanders did not react to the scene creating an inclined interest in the "bystander effect". We would like to research more into the effect of mob mentality and see the qualities of it, such as which genders and personalities are more susceptible using the Myers

Briggs personality test and some simple social experiments. We were thinking of have someone perform strange actions while standing around with our class and see how they react. I have also seen a study on her mentality in sheep.

**School:** Castlecomer Community School

**County:** Kilkenny

**Teacher:** Ms Nora Henderson

**Student(s):** Petrina Roche, Holly Shirley

## 2546

**Title:** Are the Covid-19 restrictions affecting your learning in class?

**Overview:** We will be investigating at how the covid-19 restrictions might affect the students learning in class.

**School:** Coláiste Bhaile Chláir

**County:** Galway

**Teacher:** Ms Eleanor Nolan

**Student(s):** Emma Jackson, Michael Kavanagh

## 2547

**Title:** An investigation into the decrease in cinema attendees due to the over-reliance and availability of streaming services.

**Overview:** Our project aims to find if cinemas are on the decline and if streaming services will take over in the next few years.

**School:** St Brigids Vocational School

**County:** Galway

**Teacher:** Ms Sarah Clarke

**Student(s):** Filip Graf, Fionn Mullins

## 2548

**Title:** An Investigation Into Whether The Glamorization of Mental Disorders Online and In The Media Has Led to Misinformation and Self Diagnosis Among Teenagers

**Overview:** Our project aims to find if younger people glamorise the idea of mental illnesses and why self diagnosing mental disorders is common with younger generations.

**School:** Heywood Community School

**County:** Laois

**Teacher:** Miss Fiona Barry

**Student(s):** Sarah Haide, Sinead Uys, Aoife Carey

## 2549

**Title:** Investigating the Physical and Mental Trauma Experienced by Sexual Assault Victims

**Overview:** For our project , we are investigating the multiple effects that sexual assault has on teenagers - both physical and verbal.

**School:** Laurel Hill Secondary School FCJ

**County:** Limerick

**Teacher:** Ms Karen Kinnerk

**Student(s):** Bláithín Musgrave, Leah McNamara,

## 2550

**Title:** The link between eating disorders, self-esteem and anxiety

**Overview:** Our project investigates the different types of eating disorders and their links with self-esteem issues and anxiety within teenagers and adults.

**School:** Laurel Hill Secondary School FCJ

**County:** Limerick

**Teacher:** Dr Mary Frawley

**Student(s):** Ella Mason, Abbie Ryan

# Social & Behavioural Sciences

RTE

2551

**Title:** Vertical Farming -The Future of Healthy Schools

**Overview:** Our project aims to determine whether it would be feasible and beneficial to practise vertical farming to help make our school a healthier place.

**Title:** Introducing "Memories"

**Overview:** We aim to highlight Alzheimer's and Dementia- We hope to inform people and introduce an app making life easier, for carers, family, & the suffering.

**School:** Coláiste Mhuire

**County:** Galway

**Teacher:** Mr Conor Delaney

**Student(s):** Oisín Nolan, Ben Coyle

2562

**Title:** A Machiavellian comparison between primary and secondary school students.

**Overview:** We wish to compare the Machiavellian tendencies in both primary and post primary students.

**School:** St Vincent's Secondary School

**County:** Louth

**Teacher:** Mr John White  
**Student(s):** Ciara Gorham, Molly Murphy

2563

**Title:** Body Image Blues in Sport

**Overview:** We plan on investigating how body image impacts people playing sport and if lock-down during Covid-19 had a positive or negative impact on this issue.

**School:** Scoil Mhuire Kanturk

**County:** Cork

**Teacher:** Mr Aidan Noone

**Student(s):** Ciara Green Linehan, Gemma Healy

2564

**Title:** Does mindfulness positively effect exam students?

**Overview:** Investigating whether mindfulness has a positive effect on exam students, specifically third years. Our project falls under the Social and Behavioural category.

**School:** Loreto Secondary School

**County:** Kilkenny

**Teacher:** Ms Laura Heffernan

**Student(s):** Ella Delahunty, Lauren East, Abbie Coughlan

2565

**Title:** The effect of technology on social interactions

**Overview:** in our project we aim to see the negative impact technology has on social interactions between people by monitoring our families technology use at meals.

**School:** Ardscoil Phadraig

**County:** Longford

**Teacher:** Ms Alice Magan

**Student(s):** Aoife Reilly, Katelyn Farrell

2566

**Title:** Physical Activity and Productivity

**Overview:** We are doing our project on the affects of physical activity on productivity. We hope to raise awareness on the importance of physical activity.

**School:** Ardscoil Phadraig

**County:** Longford

**Teacher:** Ms Alice Magan

**Student(s):** Cora Murphy, Funmi Talabi, Elle Lynn

2567

**Title:** Understanding the positive effects of Lockdown

**Overview:** People have a negative mindset towards lockdown, we will closely examine lives during lockdown to show that there are multiple positive outcomes.

**School:** Presentation College

**County:** Carlow

**Teacher:** Miss Claire Brennan

**Student(s):** Megan Hosey, Jade Ellis, Clare Miller

2568

**Title:** 'A statistical investigation into the prominence of dysmorphic body image issues amongst second level students and the contrast between each gender.'

**Overview:** Our project aims to investigate the prominence of body image issues amongst second-level students, both sexes, and how said issues have potentially enlarged over Covid-19.

**School:** St. Louis Secondary School

**County:** Monaghan

**Teacher:** Mr Niall Mooney

**Student(s):** Orla Finlay, Eve McNally

2569

**Title:** SOCIAL MEDIA: a shattered body image; Is social media and 'diet culture' influencing a new wave of disordered eating

**Overview:** Our project aims to investigate and spark a conversation about social media's definite role in the development and normalization of eating disorders among teens.

**School:** Athlone Community College

**County:** Westmeath

**Teacher:** Ms Fiona Kelly

**Student(s):** Marsha Neilan, Leah Harney, Katie Murray

2570

**Title:** The Effects of ASMR on Stress Levels and Loneliness in Teenage Girls.

**Overview:** Using surveys, measuring heart rate and body temperature to see if ASMR has an effect on stress levels and loneliness in teenage girls aged 12-18

**School:** Loreto Secondary School, Balbriggan

**County:** Dublin

**Teacher:** Mr Brian Higgins

**Student(s):** Isabella Watts, Hiba Shahzad

2571

**Title:** Is virtual the new reality? An investigation into opinions on virtual events

**Overview:** This project looks at the opinions that students have about participating in, their experiences of and the effectiveness of virtual events.

**School:** St. Mary's College

**County:** Galway

**Teacher:** Mr Anthony Carey

**Student(s):** Dan Carey, Cathal O'Grady-Corcoran, Tom Browne

2572

**Title:** the psychology effects of prison and why the prison system needs to be changed to stop recidivism

**Overview:** Our project is on how prison effects your mental health and how we need to bring in special programs to stop people re offending

**School:** Ardgillan Community College

**County:** Dublin

**Teacher:** Ms Laura Sheahan

**Student(s):** Sarah Keane, Robert Jones

2573

**Title:** an gcuireann maisc isteach ar chumarsáid i measc déagóirí?

**Overview:** Tá súil againn inár dtionscadal fáil amach faoi na bealaí éagsúla a théann púicíní i bhfeidhm ar chumarsáid agus idirghníomhaíochtaí sóisialta déagóirí.

**School:** Coláiste Iosagáin

**County:** Dublin

**Teacher:** Mr Maitiú Ó Longaigh

**Student(s):** Kim Geraghty, Nessa Ní Éidhneáin, Maudy Ní Chonaill

# Social & Behavioural Sciences

RTE

2574

**Title:** Does device usage affect short term memory?

**Overview:** To find out if device usage affects short term memory, what age group is most affected and spread awareness on the subject.

**School:** Loreto Secondary School

**County:** Kilkenny

**Teacher:** Ms Maureen Hand

**Student(s):** Alexia Albertin, Hannah Kehoe

2575

**Title:** Mixed VS single Sex PE Lessons

**Overview:** Our project aims to find which class environment students perform better in either mixed or single sex PE lessons.

**School:** Woodbrook College

**County:** Wicklow

**Teacher:** Ms Siobhan Synnott

**Student(s):** Michelle Dolores, Abhirami Santhosh Kumar, Ruby Roche

2576

**Title:** The Mind Of A Schizophrenic

**Overview:** In this project we will be discussing and exploring the effect of schizophrenia on the mind.

**School:** Athlone Community College

**County:** Westmeath

**Teacher:** Mr Gavin Beirne

**Student(s):** Gurpreet Kaur, Cathy Kelly, Kaitlyn Kelly

2577

**Title:** An investigation on mask etiquette amongst girls and how it is influenced by social factors.

**Overview:** Our aim is to analyse the differences in mask wearing etiquette between teenage girls of different ages and the social factors that affect them.

**School:** Loreto Secondary School, Balbriggan

**County:** Dublin

**Teacher:** Ms Chloe White

**Student(s):** Jane Oakley, Eliza Monaghan

2578

**Title:** Alcohol and Mental Health

**Overview:** The aim of our project is to find out the affects alcohol has on someone's mental health

**School:** Scoil Mhuire Kanturk

**County:** Cork

**Teacher:** Mr Aidan Noone

**Student(s):** Rory O'Brien, Aaron O'Sullivan, Kyle Keohane

2579

**Title:** Does where you live affect your IQ?

**Overview:** The purpose of this investigation is to determine the factors within an area which supports higher education and ultimately a higher IQ level.

**School:** Bandon Grammar School

**County:** Cork

**Teacher:** Ms Shóna Hayes

**Student(s):** Ciara Lynch, Olivia Crowley, Leah Parker

2580

**Title:** Would exposure to a virtual interactive story have an effect on how people perceive immunisation?

**Overview:** To investigate the effect of VIS in comparison to videos or written text in an attempt to raise awareness about the importance of immunization.

**School:** Loreto Secondary School, Balbriggan

**County:** Dublin

**Teacher:** Mr Brian Higgins

**Student(s):** Adriana Ciot, Lily Anderson, Preethigaa Kumaresan

2581

**Title:** A systematic investigation into the affects that genres and characteristics of musical styles have on the habits and techniques of drivers. Does music control our steering wheels?

**Overview:** What affect does listening to different music genres or pieces with specific music characteristics have on our driving techniques and response times?

**School:** St Mary's Secondary School

**County:** Dublin

**Teacher:** Ms Bronwyn Mulvey

**Student(s):** Catherine O'Brien Cox, Lana Nolan, Paige Vance

2582

**Title:** Are people with a strong general belief in conspiracy theories, less likely to have confidence in the safety and efficacy of vaccinations?

**Overview:** Our project is aimed at investigating the relationship between people's beliefs in conspiracy theories and their confidence in vaccinations.

**School:** Loreto Secondary School, Balbriggan

**County:** Dublin

**Teacher:** Mr Brian Higgins

**Student(s):** Nikolet Serbezova, Sophie O'Leary, Natalie Arachchige

2583

**Title:** The Impact Of Covid-19 On The Lives Of People In Our School Community

**Overview:** The aim of this study is to ascertain how Covid 19 and lockdown has impacted the lives of the people in our school community.

**School:** Castlerea Community School

**County:** Roscommon

**Teacher:** Ms Yvonne Hanbury

**Student(s):** Maegan McGourty, Leah Fitzpatrick

2584

**Title:** The overtraining of teenage boys

**Overview:** : Our project aims to educate people on the consequences of overtraining teenage boys and help prevent it

**School:** Gonzaga College

**County:** Dublin

**Teacher:** Mr Stephen McGroggan

**Student(s):** Eoin Sadlier, Ben Delaney

## 2585

**Title:** An bhfuil muid Éire mar thír andúilmhear le feoil

**Overview:** Déanann tionscadail s'againn iniúche ar an dúil atá ag muintir na hÉireann san fheoil agus an dochair atá a dhéanamh don timpeallacht da mhar.

**School:** Coláiste Ailigh

**County:** Donegal

**Teacher:** Mr Shane Ó Breacáin

**Student(s):** Iseult Ní Mhathúna, Fionnán Ó Muireadhaigh,

## 2586

**Title:** Inspiring future scientists

**Overview:** We want to get children interested in a career of science and see if the parents find it easier to help teach them during quarantine.

**School:** Dunshaughlin Community College

**County:** Meath

**Teacher:** Dr Claire Tuttlebee

**Student(s):** Andrew Brady, Andrei Birsan, Naoise Clarke

## 2587

**Title:** How is your Child Feeling: A Study of the Mental Wellbeing of Pre-School Children.

**Overview:** A study investigating the feelings, emotions, and mental wellbeing of pre-school children over 5 weeks monitoring their behaviour and carrying out different activities.

**School:** Athlone Community College

**County:** Westmeath

**Teacher:** Mr Gavin Beirne

**Student(s):** Róisín Kenny, Shauna Loftus, Aishling Mannion

## 2588

**Title:** Should Sign Language be mandatory in schools?

**Overview:** Our project is based around the awareness of sign language, we chose this topic due to the lack of discussion of sign language in schools.

**School:** St Mary's Secondary School

**County:** Cork

**Teacher:** Ms Shannen Foley

**Student(s):** Nicola Dromey, Mia Normoyle, Ciara Manning

## 2589

**Title:** Living alongside Covid-19, which generation is coping best?

**Overview:** We are conducting a study on living alongside Covid-19. We hope to assess each generation of society's ability to cope with this new reality.

**School:** Skibbereen Community School

**County:** Cork

**Teacher:** Ms Mags Breen

**Student(s):** Anna Collins, Niamh Connolly, Gráinne Connolly

## 2590

**Title:** A Theory About Conspiracy Theories

**Overview:** In this project we aim to find out more about conspiracy theories and fake news. We will be looking at propaganda and the media

**School:** Youthreach Navan

**County:** Meath

**Teacher:** Ms Sharon Maher

**Student(s):** Max Chmieliauskas, Julian Maranzizzi, Raul Moldovan

## 2591

**Title:** Are we being deceived by thinking dairy milk alternatives are healthier than dairy milk.

**Overview:** In our project we will be investigating why dairy milk alternatives have become very popular in today's society.

**School:** Carrick-On-Shannon Community School

**County:** Leitrim

**Teacher:** Ms Sinéad Creegan

**Student(s):** Hannah Rodrigues, Fleur Burns, Nicole Gallagher

## SENIOR GROUP

## 2600

**Title:** Tips to refrain from going insane (To research and test the physiological impact of stress relievers in a post stress environment)

**Overview:** We will place students under stress and examine their stress levels. Then, using selected stress relievers we will test to see which is most effective.

**School:** Coláiste Choilm

**County:** Cork

**Teacher:** Mr Paudie Scanlon

**Student(s):** Niamh McDonagh, Aine Creedon, Sinead Herlihy

## 2601

**Title:** Does Covid-19 behave differently in a range of distinct socioeconomic areas around Ireland?

**Overview:** Investigation whether Covid-19 has a higher case/death ratio per capita in different socioeconomic areas in Ireland.

**School:** Castlecomer Community School

**County:** Kilkenny

**Teacher:** Mr James Power

**Student(s):** Reuben Colman, Adam Byrnes, Mikey Evison

## 2602

**Title:** The knock on effect

**Overview:** A 800 person survey to analyse the correlations that exist between head trauma and the onset of psychological disorders.

**School:** Cashel Community School

**County:** Tipperary

**Teacher:** Mr TJ Quinn

**Student(s):** Ava Abbott, Megan Kirby

## 2603

**Title:** Use of the Health Belief Model to investigate elements informing young peoples attitudes towards Covid-19 and subsequent impact on response to restrictions and vaccine uptake.

**Overview:** An investigation into young peoples attitudes towards Covid-19 and subsequent impact on response to restrictions and vaccine uptake levels.

**School:** Colaiste Treasa

**County:** Cork

**Teacher:** Ms Joanne Corkery

**Student(s):** Isobel Hynes, Ava Hynes

## 2604

**Title:** Investigating the impact of a single teaching input on maths anxiety in primary school pupils

**Overview:** This project aims to measure the impact on levels of maths anxiety of teaching children to value mistakes in maths.

**School:** Home School

# Social & Behavioural Sciences

RTE

**County:** Dublin

**Teacher:** Ms Geraldine Grant

**Student(s):** Chloe O'Callaghan, Kyira O'Callaghan, Holly Reddin

## 2606

**Title:** TikTok AfterShock

**Overview:** Our project aims to assess if specific use of "TikTok" has had a negative impact on teenagers' body image during the lockdown period.

**School:** Jesus & Mary Secondary School

**County:** Galway

**Teacher:** Mr Kenneth Kennedy

**Student(s):** Clíodhna McDonald, Emma Dillon, Sarah Casserly

## 2607

**Title:** Smart learning for smart people

**Overview:** We want to prove the usefulness of smartphones as a teaching and learning tool during lockdown. In particular at marginalised and third world students.

**School:** Youthreach Navan

**County:** Meath

**Teacher:** Ms Sharon Maher

**Student(s):** Callum Gallagher, Oliver Greene, Amber Brytus

## 2608

**Title:** Ending Discrimination

**Overview:** Our project aims to show that having a sense of belonging, knowing your origins and having an understanding of history can help end discrimination

**School:** Youthreach Navan

**County:** Meath

**Teacher:** Ms Sharon Maher

**Student(s):** Eileen Marazzini, Alex Dixon, Lauren Englishby

## 2609

**Title:** contact tracing through QR codes

**Overview:** the project we are doing aims to create a faster alternative to tracing lost items using QR codes in schools

**School:** Loreto Secondary School

**County:** Tipperary

**Teacher:** Ms Emma Griffin

**Student(s):** Caoimhe O'Brien, Lauren Hurley

# Chemical, physical & mathematical sciences

## JUNIOR INDIVIDUAL

3100

**Title:** A Chemical alternative to Google Maps

**Overview:** Using Marangoni Effect to solve town planning and determine the shortest route between two points whilst navigating obstacles aided by chemistry as opposed to algorithms.

**School:** Desmond College

**County:** Limerick

**Teacher:** Mr Donal Enright

**Student(s):** Cathal Ryan

3101

**Title:** Ag Bréagnú Aischiúocht Reitr sa Scriosán Candamach Rogha Mhoillithe

**Overview:** Táim ag chuir argóint ar aghaidh i gcoinne an teorice aischiúocht reitr, agus taispeánt nach bhuil mistéir faoin scriosán candamach rogha mhoillithe gan aischiúocht reitr.

**School:** Gaelcholáiste Charraig Uí Leighin

**County:** Cork

**Teacher:** Mr. Rónán Ó Muirí

**Student(s):** Dylan Ó Muirí

3102

**Title:** One small carbon free step for man one giant eco friendly leap for mankind

**Overview:** I wish to work to decrease my carbon foot print in ways that concern school and travel to school.

**School:** Coláiste Muire Crosshaven

**County:** Cork

**Teacher:** Mr Brian Kavanagh

**Student(s):** Liam O'Leary

3103

**Title:** are casein based plastics a viable, sustainable and eco friendly alternative to oil based plastics?

**Overview:** an investigation to determine whether plastics made from milk protein (casein) would be a suitable alternative to traditional oil based ones.

**School:** Kinsale Community School

**County:** Cork

**Teacher:** Mr Shaun Holly

**Student(s):** Aengus Price

3104

**Title:** Why are the rocks red in Australia?

**Overview:** This project seeks to establish why rocks and soil are red in Australia, using a modified chemical technique to demonstrate various ionic forms of iron.

**School:** Gonzaga College

**County:** Dublin

**Teacher:** Mr Stephen McGroggan

**Student(s):** Harry O'Leary

3105

**Title:** How Would Using Non-Euclidean Paper Transform Traditional Origami Models?

**Overview:** Based on non-Euclidean geometry, I will: \* fold origami models to create novel designs from non-Euclidean paper, \* create non-Euclidean shapes using Euclidean/flat paper.

**School:** St Andrew's College

**County:** Dublin

**Teacher:** Ms Emma Buckley

**Student(s):** Aloïs Pissonneau

3106

**Title:** How to determine the ideal length of a skipping rope for skipping

**Overview:** Three lengths of rope will be used. These are determined by the individuals leg length. 11/2 leg length, 2 leg length, 3 leg length

**School:** St Joseph Of Cluny

**County:** Dublin

**Teacher:** Ms. Naomi Torpey

**Student(s):** Keela Murphy

3107

**Title:** An investigation into the differences in height of adjoining clints in Limestone pavement in the Burren

**Overview:** I am looking in detail at the difference in height of adjoining clints and seeing if prevailing wind may contribute to their formation.

**School:** Mary Immaculate Secondary School Lisdoonvarna

**County:** Clare

**Teacher:** Mr John Sims

**Student(s):** Oisín Jackson

3108

**Title:** How Does the Temperature of a Tennis Ball Affect its Bounce?

**Overview:** I will be heating tennis balls and cooling them, dropping them and seeing which bounces the highest.

**School:** Sandford Park School Ltd

**County:** Dublin

**Teacher:** Ms Katherine Gray

**Student(s):** Hugo Faulkner

## INTERMEDIATE INDIVIDUAL

3200

**Title:** Cards, the maths behind it

**Overview:** I am going to find out the maths and probability behind winning a game of cards(gofish) and which cards you should look for when playing.

**School:** St. Joseph's Secondary School

**County:** Meath

**Teacher:** Ms Fiona Leavy

**Student(s):** Alice Harford

3201

**Title:** Sensor Data in a Time of Coronavirus: using environmental factors to generate a warning system for indoor spaces when safe capacity is exceeded.

**Overview:** An investigation that explores the possibility of using CO2 levels to determine when an indoor space is approaching or exceeding safe capacity during coronavirus.

**School:** Scoil Mhuire Community School

**County:** Kildare

**Teacher:** Ms Aoife Jenkins

**Student(s):** Priya Evans

3202

**Title:** Will Several Different Levels of Exercise Effect Your Reaction Time

# Chemical, physical & mathematical sciences

**Overview:** I will test to see if different, high and low level intensity exercises will effect my reaction time for the better or for the worse.

**School:** Marist College

**County:** Westmeath

**Teacher:** Ms Georgina Clear

**Student(s):** Andrew Ruane

## 3203

**Title:** An investigation into the differences in contaminant levels in water from old and new pipe work systems in comparison to the levels at its original source

**Overview:** Investigating the differences in water contaminant levels at source and at consumption of an old and new dwelling. while identifying possible causes i.e ageing pipes/environment

**School:** Scoil Mhuire Community School

**County:** Kildare

**Teacher:** Ms Aoife Jenkins

**Student(s):** Lavinia Waldron

## 3204

**Title:** Nettles - the sustainable solution to fast fashion

**Overview:** Nettle wool and nettle fibre can be used as a biodegradable alternative to polyester in todays fast fashion.

**School:** St Kevin's Community College

**County:** Wicklow

**Teacher:** Ms Ciara Flanagan

**Student(s):** Orlaith Ni Ghallchobhair

## 3205

**Title:** Is Sheldon Right?: An Analytical Deconstruction of Different Forms of String Theory and Their Applications As Part of A Unified Theory.

**Overview:** My project is a mathematical study of different forms of string using existing experimental evidence.

**School:** St Andrew's College

**County:** Dublin

**Teacher:** Ms Emma Buckley

**Student(s):** Matthew O'Regan

## 3206

**Title:** How Do Quantum Phenomena Give Rise to the Reality We Know?

**Overview:** Theoretical Physics: To investigate how quantum properties such as superposition and the wave function correlate with classical mechanics; attempting to merge the two different realities.

**School:** St Kieran's College

**County:** Kilkenny

**Teacher:** Mr David Hennessy

**Student(s):** Conor Fitzmaurice

## 3207

**Title:** The Shooting Technique of Steph Curry

**Overview:** I wish to analyse Steph Curry's shooting technique in order to replicate it and investigate do these elements improve ones shhoting technique.

**School:** St Aloysius School

**County:** Cork

**Teacher:** Ms Katie O'Donovan

**Student(s):** Sinead O Leary

## 3208

**Title:** Investigation into the relationship between the temperature of a liquid and the sound it makes

**Overview:** Spectral plots of audio recordings, of liquids, at different temperatures, being poured into containers, will be examined to investigate a relationship between frequency and temperature.

**School:** Our Lady Of Mercy Secondary School

**County:** Waterford

**Teacher:** Ms Maria Grant

**Student(s):** Mia Dunphy

## 3209

**Title:** what material insulates hot water the best?

**Overview:** The goal of my project is to research into the insulating properties of various materials and carry out experiments to back up my reasoning.

**School:** Leixlip Community School

**County:** Kildare

**Teacher:** Ms Catherine Holohan

**Student(s):** Meghan Castaneda

## SENIOR INDIVIDUAL

## 3300

**Title:** Using Machine Learning to Improve Numerical Weather Prediction

**Overview:** An open-source piece of software that leverages machine learning to improve numerical weather prediction.

**School:** Pobalscoil Inbhear Scéine

**County:** Kerry

**Teacher:** Ms Sarah Abbott

**Student(s):** Conor Casey

## 3301

**Title:** A Comparative Study of the Thermal Properties and Effectiveness of Various Tea Cosies

**Overview:** Are tea cosies worth the effort? Which tea cosies keep tea hottest for longest? Are they effective? Will they save energy in the long run?

**School:** St Aloysius School

**County:** Cork

**Teacher:** Ms Katie O'Donovan

**Student(s):** Sarah Lane

## 3302

**Title:** Investigating the Effectiveness of Face Masks

**Overview:** This project investigates the effectiveness of face masks that are being used as PPE by the general public and designing and testing more effective alternatives.

**School:** St Mary's College

**County:** Londonderry

**Teacher:** Mrs Ann Blanking

**Student(s):** Maeve Stillman

## 3303

**Title:** How The Sound Changes When Filling Up a Bottle

**Overview:** Use physical methods to analyze changes in sound(mainly the frequency) when filling bottles with water and how the parameters in the system effects the change.

**School:** St Andrew's College

**County:** Dublin  
**Teacher:** Ms Emma Buckley  
**Student(s):** Haoyang Jiang

3304

**Title:** Investigating the amount of plastic in face masks, gloves and hand sanitiser bottles used for protection against COVID-19

**Overview:** Disposable face masks, gloves and sanitiser bottles when not disposed of properly enter the environment and cause problems. Their plastic content is investigated.

**School:** St Mary's College

**County:** Londonderry

**Teacher:** Mrs Ann Blanking

**Student(s):** Hollie Harkin

3305

**Title:** Comparing the vulnerability of beads formed by entrapping yeast cells by cross-linking sodium alginate and different masses of gelatine, with CaCl<sub>2</sub> to chelation by EDTA

**Overview:** I aim to compare the vulnerability of calcium alginate beads used to entrap yeast cells, made using different masses of gelatine, to chelation by EDTA.

**School:** St Andrew's College

**County:** Dublin

**Teacher:** Ms Emma Buckley

**Student(s):** Noemie Leeder

3306

**Title:** A Mathematical investigation of regular and semiregular tessellating patterns

**Overview:** A mathematical investigation of symmetry transformations that produce tessellating patterns.

**School:** Our Ladys College

**County:** Louth

**Teacher:** Miss Frances O'Regan

**Student(s):** Peidi Li

3307

**Title:** An Experiment to Investigate the Effects of Different Temperatures on Magnets in an Eddy Current

**Overview:** A magnet of varying temperatures will be dropped through a tube of copper, the time it takes for the magnet to fall through the tube.

**School:** Jesus & Mary Secondary School

**County:** Sligo

**Teacher:** Ms Fiona McLoughlin

**Student(s):** Stephen Connolly

3308

**Title:** Reducing CO<sub>2</sub> levels in the atmosphere using renewable energy

**Overview:** The aim of my project is to reduce CO<sub>2</sub> levels in the atmosphere by chemical means using renewable energy.

**School:** Meánscoil na mBráithre Criostaí

**County:** Kilkenny

**Teacher:** Mr David O' Heney

**Student(s):** Eoin Bourke

3309

**Title:** Cad é an dóigh is fearr chun feag a dhéanamh do na phíobáí uilleann?

**Overview:** An bhfuil sé (1) níos fearr & (2) níos saoire an feag a

dhéanamh amach as plaisteach, sprús nó arundo donax?

**School:** Coláiste Ailigh

**County:** Donegal

**Teacher:** Mr Shane Ó Breacáin

**Student(s):** Cuan Ó Bróithe

3310

**Title:** An bhfuil tú abalta an méid siúcra sa fuil fuine ag baint úsáid as a seile in áit fuil?

**Overview:** An dtugann speictriméadracht seile eolas cruinn go leir chun áit fuil a ghlacadh mar fhoinsé anailíse?

**School:** Coláiste Ailigh

**County:** Donegal

**Teacher:** Mr Shane Ó Breacáin

**Student(s):** Evin Ó'Domhnaill

## JUNIOR GROUP

3400

**Title:** Testing the physics of sliotars

**Overview:** In our project we're testing out different brands of sliotars

**School:** Colaiste An Phiarsaigh

**County:** Cork

**Teacher:** Mr Caoimhín Ó Buachalla

**Student(s):** Ronan De Barra, Aoife Mullins, David Murphy

3401

**Title:** Shining A Light On School Coronavirus Cleaning Protocols

**Overview:** We are investigating how effective cleaning protocols are in our school using glow germ and UV light, in order to design a cleaning information pack.

**School:** Coláiste Chiaráin

**County:** Limerick

**Teacher:** Ms Edel Farrell

**Student(s):** Seán O'Sullivan, Taha Njie

3402

**Title:** The effect of light Frequency on background radiation in a cloud chamber

**Overview:** Does the Frequency of light have any effect on the movement of particles in a cloud chamber?

**School:** Coláiste Phádraig

**County:** Dublin

**Teacher:** Ms Jacqueline Farrell

**Student(s):** Joel Emmanuel, Rohit Tummala

3403

**Title:** Measuring the speed of the wind: Why does the wind blow?

**Overview:** We explore/explain how the wind blows and how it changes from soft-strong winds. Then, we measure the speed of the wind using an anemometer.

**School:** Our Ladys School

**County:** Dublin

**Teacher:** Mr Martin Farrelly

**Student(s):** Amy McNamee, Clíodhna Foley

3404

**Title:** Ironing out the Water Quality Issues on Irish Pig Farms

**Overview:** Investigating the phytoremediation of water sources containing elevated iron levels using native water plants.

**School:** Moate Community School

# Chemical, physical & mathematical sciences

**County:** Westmeath  
**Teacher:** Ms Mairead Cusack  
**Student(s):** Mia Shellam, Aine Macken

**3405**

**Title:** Need For Speed  
**Overview:** testing if you run faster with different drinks [water, monster and lucozade]  
**School:** Pobalscoil Inbhear Scéine  
**County:** Kerry  
**Teacher:** Ms Sarah Abbott  
**Student(s):** Barry Fitzsimons, Jack O'Sullivan, Ollie Shea

**3406**

**Title:** Speedy Compostables  
**Overview:** We have investigated if compostable bags compost better with the addition of vinegar or baking soda to the organic matter.  
**School:** St. Joseph's Secondary School  
**County:** Clare  
**Teacher:** Ms Catherine Clair  
**Student(s):** Zoe Howell, Lucy McDonnell

**3407**

**Title:** Let's Make a Deal! a statistical analysis of the Monty Hall Dilemma  
**Overview:** We want to investigate the veridical paradox that is the Monty Hall Dilemma and test the maths in a real life game scenario.  
**School:** Scoil Mhuire Strokestown  
**County:** Roscommon  
**Teacher:** Ms Mairead Glynn  
**Student(s):** Aoife Burke, Adam Murphy, Emma Creighton

**3408**

**Title:** A chemical analysis of the alcohol content in hand sanitisers using chromatography  
**Overview:** We are testing the efficiency of different hand sanitizers by comparing their Rf values from paper chromatography.  
**School:** Loreto Community School  
**County:** Donegal  
**Teacher:** Mrs Roisin Coyle  
**Student(s):** Keeley Boyle, Aoibheann Boyle

**3409**

**Title:** A Mathematical model to help improve rowing technique  
**Overview:** We are going to compare the mathematical differences between a beginner and an intermediate rower  
**School:** Bandon Grammar School  
**County:** Cork  
**Teacher:** Mr Stephen McLaughlin  
**Student(s):** Tadhg O' Conchúir, Thomas Doran

## INTERMEDIATE GROUP

**3500**

**Title:** "Using magnets to help prevent heart attacks"  
**Overview:** To investigate if magnets can have a positive effect on blood, in particular, to reduce viscosity, thus reducing the potential risk of heart problems.  
**School:** Desmond College  
**County:** Limerick  
**Teacher:** Mr Donal Enright

**Student(s):** Ethan Kirwan, Jack Kelly

**3501**

**Title:** Using SIR Modelling To Predict The Spread Of COVID-19  
**Overview:** Using Susceptible, Infectious and Recovered (SIR) Models to predict the spread of COVID-19 with and without Safety Measures e.g masks and social distancing.  
**School:** Marist College  
**County:** Westmeath  
**Teacher:** ms Julie Coyle  
**Student(s):** Conor McCarthy, Edward Cleary, Conor Gill

**3502**

**Title:** Which candle burns longer homemade or store bought  
**Overview:** We are going to make a candles, and test which ones are worth your money and time.  
**School:** Colaiste An Phiarsaigh  
**County:** Cork  
**Teacher:** Mr Caoimhín Ó Buachalla  
**Student(s):** Rachel Ní Uaine, Isabella Foong

**3503**

**Title:** The Development of Fake Tan On Our Skin  
**Overview:** For this science project we are finding out in a group how fake tans and different moisturises benefit the application of tan on the skin.  
**School:** Loreto Secondary School  
**County:** Tipperary  
**Teacher:** Ms Ciara Tyrrell  
**Student(s):** Clodaigh O'Sullivan, Laura Bates, Lauryn O'Flynn

**3504**

**Title:** Does the temperature of where a battery is stored affect the electric current?  
**Overview:** Many people argue about where to store batteries so it does affect the electric current, so we want to find out what is the most efficient temperature to store batteries.  
**School:** St Mary's Secondary School  
**County:** Cork  
**Teacher:** Ms Shannen Foley  
**Student(s):** Amanda Marcinkevica, Charmaine Ngwenya, Elina Wanitschke

**3505**

**Title:** Quick Shot  
**Overview:** An Investigation into Potential and Kinetic Energy in Archery  
**School:** Our Lady's Secondary School  
**County:** Monaghan  
**Teacher:** Mr Kevin Nolan  
**Student(s):** Pauric Mc Bride, Oisín O'Neill

**3506**

**Title:** The Perfect Sideline?  
**Overview:** We wish to investigate the factors which influence the execution of a successful sideline cut in hurling/camogie. Eg player's height, hurl weight, distance from sliotar.  
**School:** Loreto Secondary School  
**County:** Kilkenny  
**Teacher:** Mr Brendan Williams  
**Student(s):** Hannah Coyle Twomey, Cáit Healy

## 3507

**Title:** Bamboo vs ash hurleys

**Overview:** we are locating at the difference between ash and a more sustainable alternative hurl made from by conducting numerous tests

**School:** Cistercian College

**County:** Tipperary

**Teacher:** Mr Jim McManus

**Student(s):** Charlie Naughton, Billy Kelly, Adrian Dunne

## 3508

**Title:** An investigation into the physical skill level of Fifa-18 players to show if one can excel in soccer using the R-statistical package.

**Overview:** We plan to build a model to investigate the factors affecting the physical skill level of FIFA-players. We will build the model using the R-Statistical package.

**School:** Scoil Mhuire gan Smál

**County:** Roscommon

**Teacher:** Mr James McLoughlin

**Student(s):** Ailbhe Donnellan, Chloe Donoghue

## 3509

**Title:** A Spatial Analysis of Light Pollution and its effects in Tipperary town and the Rural Environment.

**Overview:** Light Pollution and its effects in Tipperary Town and the Rural Environment, looking at the effects of Lunar Orbits, Seasons, Cloud Cover and Weather Conditions.

**School:** St. Anne's Secondary School

**County:** Tipperary

**Teacher:** Mr Patrick Kivlehan

**Student(s):** Ria O Grady, Sarah Ryan, Caitlin Byrnes

## 3510

**Title:** An Investigation into the Forces which affect the Safe Motion of Automotive Vehicles on Bends and Roundabouts on Irish National Roads.

**Overview:** We are measuring Coefficients of friction, Superelevation and radius of bends, to investigate the balancing forces which act to keep a vehicle safely on the road.

**School:** St. Anne's Secondary School

**County:** Tipperary

**Teacher:** Mr Patrick Kivlehan

**Student(s):** Oliwia Czesnikowicz, Grace Fitzgerald, MuiNay Gleeson

## 3511

**Title:** Does Health Literacy (HL) Influence Physical Literacy (PL)

**Overview:** Our project aims to examine HL and PL, survey students on both and use their responses to investigate if there is a correlation between them.

**School:** St. Anne's Secondary School

**County:** Tipperary

**Teacher:** Ms Martina Walsh

**Student(s):** Aileen O'Farrell, Helena Cotter

## 3512

**Title:** An Investigation into the effectiveness of Copper Door Handles in Hospitals, Schools and Care Homes as an Infection Control Measure.

**Overview:** To Perform microbial analysis on intrinsically active Anti-microbial copper surfaces and on non-copper surfaces such as Aluminium and Steel, using internationally recognised industrial

standards.

**School:** St. Anne's Secondary School

**County:** Tipperary

**Teacher:** Mr Patrick Kivlehan

**Student(s):** Ava O'Sullivan, Aine Carew, Ellie Cremins

## 3513

**Title:** The effects hand sanitizer has on different materials

**Overview:** Testing the effects that hand sanitizer has got on different materials.

**School:** St Bricin's Vocational School

**County:** Cavan

**Teacher:** Ms Anne-Marie Fay

**Student(s):** Sean Hegarty, Callum O'Brien, Diego Fabelo Marrero

## 3514

**Title:** The Effectiveness of Safety Procedures Against Covid-19

**Overview:** To examine the safety procedures carried out to help stop the spread of COVID-19 virus (corona virus).

**School:** Our Ladys School

**County:** Dublin

**Teacher:** Mr Martin Farrelly

**Student(s):** Hannah Molloy, Lucy Somers

## 3515

**Title:** Basketball play on 2 different surfaces

**Overview:** We are going to test basketball play on 2 different surfaces (indoors and outdoors) to see which gives the best advantage.

**School:** Coláiste Bhaile Chláir

**County:** Galway

**Teacher:** Ms Eleanor Nolan

**Student(s):** Joy Erugo, Michael Fahy, Elisha Bohan

## 3516

**Title:** Are our cleaning habits affecting our household surfaces.

**Overview:** An investigation to determine if the persistent use of cleaning products such as bleach and vinegar affect household surfaces such as wood and laminate.

**School:** Bailieborough Community School

**County:** Cavan

**Teacher:** Ms. Natalie Kinghan

**Student(s):** Daniel Foran, Luke Delaney, Nikolay Hlyavyn

## 3517

**Title:** Which face covering is more effective

**Overview:** We're going to try and see which face covering is better

**School:** Cistercian College

**County:** Tipperary

**Teacher:** Ms Jennifer Denny

**Student(s):** Evan Fitzpatrick, Kian Fallon, Michael Metcalfe

## 3518

**Title:** Which tennis racket is most efficient?

**Overview:** We used different tennis rackets to test Speed, Distance and durability

**School:** Cistercian College

**County:** Tipperary

**Teacher:** Ms Jennifer Denny

**Student(s):** Michael O'Sullivan, Diego Milla, Ignacio Gonzalez

# Chemical, physical & mathematical sciences

3519

**Title:** That's a Moiré!

**Overview:** An investigation into Moiré patterns and their potential uses.

**School:** Presentation Secondary School

**County:** Tipperary

**Teacher:** Ms Dearbhla Neville

**Student(s):** Julie Butler, Niamh O'Sullivan

3520

**Title:** Smart protective sporting gear

**Overview:** Create agile, and light, protective gear for athletes, that only reacts when met by impact, by creating dilatant polymers and impregnating fabrics with them.

**School:** Nord Anglia International School Dublin

**County:** Dublin

**Teacher:** Dr. Florian Maisonneuve

**Student(s):** Chiara Lisa Carra, Elysia O'Leary

3521

**Title:** What's the Most Efficient Way to Finish a Lollipop?

**Overview:** Our project aims to find the most efficient way to lick a lollipop, by testing factors such as heat, pH, and amylase concentration.

**School:** Rockbrook Park School

**County:** Dublin

**Teacher:** Mr Cody Preston

**Student(s):** Earl John Villanueva, Joseph Jacob

3522

**Title:** An investigation into the effects of combined heated air currents of different temperature on the flight dynamics on a badminton shuttlecock

**Overview:** Is the flight dynamics of badminton shuttlecocks effected by air temperature? What effects does this have on the speed and distance traveled by shuttlecocks?

**School:** St Vincent's Secondary School

**County:** Louth

**Teacher:** Mr John White

**Student(s):** Alannah Voigt, Sarah Carey

3523

**Title:** An investigation into how the wearing of face coverings by teachers in classroom settings affects the sound levels at different positions in different classroom settings

**Overview:** An investigation into the acoustic analysis of how sound levels (decibels) are affected by a teacher wearing a face covering in a classroom setting.

**School:** St Vincent's Secondary School

**County:** Louth

**Teacher:** Mr John White

**Student(s):** Kayla Darby, Aoife Mc Quillan

3524

**Title:** The Physics Behind Synchronised Swimming

**Overview:** We are going to be investigation how newton's law of motion can affect synchronised swimming and the motions swimmers use.

**School:** St Aloysius School

**County:** Cork

**Teacher:** Ms Katie O'Donovan

**Student(s):** Eve Knowles, Sara Khorchani, Leah Cotter

3526

**Title:** The implication of modern materials affecting force and how it contributes to gameplay

**Overview:** Comparing different materials of hockey sticks such as wood and carbon fibre and the resulting force applied to the hockey ball.

**School:** Our Ladys School

**County:** Dublin

**Teacher:** Mr Martin Farrelly

**Student(s):** Caoilin Dunne, Beatrice Rath

3527

**Title:** Investigating Salt Water Batteries

**Overview:** Our project aims to investigate the amount of electrical energy that can be harnessed by using salt water.

**School:** St Kieran's College

**County:** Kilkenny

**Teacher:** Mr David Hennessy

**Student(s):** Kevin O'Connor, Adam Noonan, Oisín Mealy

3528

**Title:** Solar Powered Chemistry – Study Chemical Reaction Rates in Ultraviolet Beads

**Overview:** We will research about how effective different brands of protective equipment actually protect us from UV Rays. We also look at the benefits of wearing a 'UV Bead Bracelet' which amazingly could stop the development of skin cancer at an early stage.

**School:** St. Joseph's Secondary School

**County:** Clare

**Teacher:** Ms Mairead O'Brien

**Student(s):** Róisín Sheedy, Saoirse Donnellan

3529

**Title:** Optimal healing time with correct use of crutches

**Overview:** Our investigation aims to improve use of crutches by implementing pressure sensors to achieve optimal healing time.

**School:** Coláiste Chríost Rí

**County:** Cork

**Teacher:** Miss Aoife O'Donovan

**Student(s):** Rahul Nath, Patrick Aloc, Iftikhaar Haque

3530

**Title:** An Investigation into the Feasibility of the 2020 Olympic Games

**Overview:** Our project aims to create an organisational model that would allow the 2020 Olympic Games to take place

**School:** Coláiste An Spioraid Naoimh

**County:** Cork

**Teacher:** Ms Aileen O'Mahony

**Student(s):** Oscar O'Corráin, Timmy O'Riordan, Tim Callanan

3531

**Title:** The effect of nutrition on the performance of young athletes.

**Overview:** Our project aims to discover and understand specific effects of nutrition on young athletes' performance and psychological behavior.

**School:** Holy Rosary College

**County:** Galway

**Teacher:** Ms. Catherine Kelly

**Student(s):** Amy Higgins, Adrianna Lee, Lucy Van Oosterhout

## 3532

**Title:** An Cóimheas Órga: an bhfuil sé le fáil i measc scoilire

**Overview:** Fiosraíonn an tionscnaimh seo an Cóimheas Órga, an bhfuil sé le fáil i measc scolaire, go h-áirithe maidir le scolairí an cheach bhliain maidir le airde s'acu

**School:** Pobalscoil Ghaoth Dobhair

**County:** Donegal

**Teacher:** Ms Susan Ní Loinsigh

**Student(s):** Niamh Ní Mheachair, Labhaoise Ní Fhríl

## SENIOR GROUP

## 3601

**Title:** Red Planet Residence: Designing a Habitable Subterranean Environment on Mars Capable of Sustaining Human Life

**Overview:** To design a model of a subterranean habitat on Mars in which humans can survive under regulated conditions

**School:** Mount Anville Secondary School

**County:** Dublin

**Teacher:** Ms Susan O'Hara

**Student(s):** Katie Shaw, Ciara McCormick, Dervla O'Flynn

## 3602

**Title:** Analytical Solutions of Compartmental Epidemic Models and Their Application to Parameter Estimation

**Overview:** New analytical solutions of compartmental epidemic models allow us to devise methods of obtaining reliable estimates of the parameters of these models from observed data.

**School:** Synge Street CBS

**County:** Dublin

**Teacher:** Ms Kate Walsh

**Student(s):** Yaduvir Harhangi, Marton Goz

## 3603

**Title:** Investigating if there a link between lack of Vitamin D and the severity of COVID-19 in BAME

**Overview:** Skin colour, diet, culture and time spent in the Sun of various ethnic groups are researched for possible links to a lack of vitamin D and COVID-19.

**School:** St Mary's College

**County:** Londonderry

**Teacher:** Mrs Ann Blanking

**Student(s):** Jennifer Doherty, Aimee Hegarty

## 3604

**Title:** Examining the bio-availability of medicinal drugs and vitamins from transdermal patches

**Overview:** We plan to calculate the log-p value of various medicinal drugs and vitamins and determine whether they are suitable for transdermal delivery or not.

**School:** Ursuline College

**County:** Sligo

**Teacher:** Mr Anthony Carolan

**Student(s):** Cianna Ruddy, Zoe Melvin

## 3605

**Title:** Green Chemistry! How Green is Leaving Certificate Chemistry.

**Overview:** We will examine the mandatory experiments on the Leaving Certificate Chemistry course through the lens of Green Chemistry.

**School:** Scoil Mhuire Strokestown

**County:** Roscommon

**Teacher:** Ms Mairead Glynn

**Student(s):** Emily Gleeson, Kate Clarke

## 3606

**Title:** What effects does hand sanitizer have on microorganisms

**Overview:** Our investigation is to see the different effects on hand sanitizer on microorganisms

**School:** Le Chéile Secondary School

**County:** Dublin

**Teacher:** Dr. Ciara Finnegan

**Student(s):** Michael Orimolade, Daniel Roban, Ryan Walsh

## 3607

**Title:** An féidir séiseanna cheol a chumadh go matamaiticiúil

**Overview:** Tá hipitéis againn gur féidir ceol a chumadh ag úsáid cóimheasanna matamaiticiúla agus uimhreacha minicíochta na nótaí ceol chun séiseanna ceolmhara a chumadh.

**School:** Coláiste na Coiribe

**County:** Galway

**Teacher:** Mr Maidhc Ó hÉanaigh

**Student(s):** Aoibheann Howe, Rachel Harris

# Technology

## JUNIOR INDIVIDUAL

### 4100

**Title:** D.O.R.A.S. "Door Operation Rural Alert System"

**Overview:** An innovative self-powered front door that provides increased peace of mind for the elderly and those living in isolated areas with built in security features.

**School:** Desmond College

**County:** Limerick

**Teacher:** Mr Donal Enright

**Student(s):** Jade Massey

### 4101

**Title:** Treatment on Ecchymosis using Ultrasound

**Overview:** Ecchymosis is hematoma of tissue, this project aims to explore the possibility of using a wearable ultrasound device to heal bruises and aches efficiently.

**School:** Desmond College

**County:** Limerick

**Teacher:** Mr Donal Enright

**Student(s):** Laura Brennan

### 4102

**Title:** Inslíú, Inslíú, Inslíú

**Overview:** Are carbon taxes and grants effective at encouraging people to use insulation or is it just government "greenwashing"?

**School:** Gaelcholáiste Charraig Uí Leighin

**County:** Cork

**Teacher:** Mr. Rónán Ó Muirí

**Student(s):** Gráinne Ní Chróinín

### 4103

**Title:** A reusable biodegradable solution for coffee on the go.

**Overview:** My project aims to make a biodegradable, reusable plastic coffee cup lid that can be self applied to limit the spread of corona virus.

**School:** Abbey Vocational School

**County:** Donegal

**Teacher:** Ms Donna Furey

**Student(s):** Grace Masterson

### 4104

**Title:** Designing a better Operating System

**Overview:** It is about designing a better OS.

**School:** St. Kilian's German School

**County:** Dublin

**Teacher:** Ms Frauke Bosse

**Student(s):** Piotr Stelmaszek

### 4105

**Title:** How accurate is your weather app?

**Overview:** My goal is to determine how accurate weather apps are. I'll build a weather station using a mini-computer and check its data against their forecasts.

**School:** Glenstal Abbey School

**County:** Limerick

**Teacher:** Mr Cathal Reid

**Student(s):** Hugo Phelan

### 4106

**Title:** The Cosy Compacter

**Overview:** A product to reduce the quantity of bin-collections needed for recyclable waste. Thus positively impacting the environment by reducing the CO2 emissions produced during bin-collection.

**School:** St Joseph's GS

**County:** Tyrone

**Teacher:** Mr Shane Donnelly

**Student(s):** Niamh Loughran

### 4107

**Title:** Home Spectral Analysis

**Overview:** My project consists of a high performing digital spectrometer designed, calibrated and constructed at home.

**School:** Presentation College Headford

**County:** Galway

**Teacher:** Mr. John Toner

**Student(s):** Jonathan Flanagan

### 4108

**Title:** The Healthy Study App

**Overview:** I will create and test an app to help students who find it difficult to focus on their study and complete their homework.

**School:** St Andrew's College

**County:** Dublin

**Teacher:** Ms Emma Buckley

**Student(s):** Daniel Molyneux

### 4109

**Title:** DASHTags

**Overview:** Dash Tags is a complete, up to date, accurate record of a pet's health and well-being, right down to the simple things like food preferences.

**School:** Loreto Secondary School Fermoy

**County:** Cork

**Teacher:** mrs Aine Bushell

**Student(s):** Doireann Noonan

### 4110

**Title:** Too Hot -Stop!: An integrated temperature scanner and stop go system

**Overview:** The aim of my project is to design a stop go system with an integrated temperature scanner for use in community pharmacy setting.

**School:** Lanesboro Community College

**County:** Longford

**Teacher:** Ms Mary O'Brien

**Student(s):** Ronan Lyons

### 4111

**Title:** A Twist in the Turbine

**Overview:** Designing and testing a rotating fabric wind redirecter paired with a funnel and diffuser with the end goal of creating a small scale, mega cheap, reliable wind turbine in the context of domestic use or for developing countries aiming to cut down noise and size while reducing damage to wildlife such as flying animals.

**School:** Sandymount Park Educate Together Secondary School

**County:** Dublin

**Teacher:** Mr Conor Maxwell

**Student(s):** Elliot Kranz

4112

**Title:** Wind Turbine Assisted Electric Scooter

**Overview:** I am creating and building a wind turbine assisted electric scooter. This will increase the efficiency of an electric scooter in an eco friendly way.

**School:** Nord Anglia International School Dublin

**County:** Dublin

**Teacher:** Ms Raemie Begley

**Student(s):** John Gorman

4113

**Title:** Using NFC (Near Field Communication) technology to reduce learning time lost taking school register

**Overview:** My project aims to reduce the learning time lost taking the register at the beginning of school classes by using NFC technology to identify students

**School:** Kinsale Community School

**County:** Cork

**Teacher:** Mr Shaun Holly

**Student(s):** PJ Crowe

## INTERMEDIATE INDIVIDUAL

4200

**Title:** Electronic Taste Simulation

**Overview:** Utilising electronics to fool the tongue into experiencing tastes that aren't there, thus reducing the desire for salt in our diets and improving our health.

**School:** Desmond College

**County:** Limerick

**Teacher:** Mr Donal Enright

**Student(s):** Aine Murphy

4201

**Title:** Hospital Holly and Henry - a mobile tri folding interactive solution to eradicate children's fears of medical procedures!

**Overview:** Hospital Holly and Henry is a coded interactive mobile solution aiming to eradicate children's anxieties surrounding medical procedures and empower them to be hospital heroes!

**School:** Mount St Michael

**County:** Mayo

**Teacher:** Ms Stephanie Hogan

**Student(s):** Aoibheann Mangan

4202

**Title:** Anti-backing loading gate

**Overview:** My project is a gate for loading Cattle into a transport trailer. The key to this gate is it cannot go backwards, only if released

**School:** John The Baptist Community School

**County:** Limerick

**Teacher:** Ms Brid O'Dwyer

**Student(s):** Michael Clifford

4203

**Title:** Increasing the battery range of a drone using solar energy.

**Overview:** My project is about increasing battery range of a drone using PV solar panels. I am using solar energy and converting it to electrical energy.

**School:** Coláiste Choilm

**County:** Cork

**Teacher:** Ms Grainne Costigan

**Student(s):** John O' Riordan

4204

**Title:** Safe Haven - a technology solution for social distancing measures in public places

**Overview:** To test the mock-up of a public place equipped with various technologies needed to make it compliant to measures like social distancing, temperature screening etc.

**School:** SEK Dublin International School

**County:** Wicklow

**Teacher:** Mr Emilio Garcia

**Student(s):** Smaran Pandey

4205

**Title:** Building NOAA Weather Satellite Ground-Station

**Overview:** My project is to make NOAA Weather Satellite Ground-Station, joining with NOAA Ground-Station networks helping each one to predict more reliable weather forecast.

**School:** St Eunan's College

**County:** Donegal

**Teacher:** mr michael harkin

**Student(s):** Hari Pranavam

4206

**Title:** Robot Radio: AI in the music industry

**Overview:** My project is an investigation into the question 'Is AI a positive or negative development in the music industry, and how?'

**School:** Laurel Hill Secondary School FCJ

**County:** Limerick

**Teacher:** Ms Karen Kinnerk

**Student(s):** Claudia Lynch

4207

**Title:** CareerCoaster - The Ultimate Career Guide for Secondary School Students

**Overview:** This project is developing an Android application that gives secondary school students a clear insight into career choices after school.

**School:** St Mary's Secondary School

**County:** Dublin

**Teacher:** Ms Bronwyn Mulvey

**Student(s):** Mony Aramalla

4208

**Title:** Hello;Pole

**Overview:** A portable software utility to provide Auditory aid to the visually impaired using Computer Vision

**School:** St Michaels College

**County:** Dublin

**Teacher:** Ms Roisin Weldon

**Student(s):** Benjamin Banerjee

4209

**Title:** Autonomous Drone to Deliver COVID 19 Self-Administered Tests to Patients' Homes

**Overview:** An application that allows patients to self-administer COVID19 tests at their homes delivered to and from the hospital by drone autonomously in a climatically-controlled environment

**School:** St. Aidan's C.B.S.

**County:** Dublin

# Technology

**Teacher:** Ms Cathy Peoples  
**Student(s):** Andrei Florian

## 4210

**Title:** Preventing machine accidents with warning systems.  
**Overview:** My project aims to prevent accidents in workplaces from spinning machines. I will create a device that alerts people when its dangerous to be near.  
**School:** Beara Community School  
**County:** Cork  
**Teacher:** Mr Dara Crowley  
**Student(s):** Cathal O'Sullivan

## 4211

**Title:** On the Detection of COVID-19 with Chest X-rays Using Deep Learning Models  
**Overview:** A novel method of COVID-19 detection is presented, using EfficientNet deep learning models on chest x-ray images, scoring over 96% accuracy on unseen images  
**School:** St Andrew's College  
**County:** Dublin  
**Teacher:** Ms Emma Buckley  
**Student(s):** Weichen Huang

## 4212

**Title:** wind turbine  
**Overview:** a small electric wind turbine  
**School:** Blackwater Community School  
**County:** Waterford  
**Teacher:** Mr Paul Joyce  
**Student(s):** Cameron Bell

## 4213

**Title:** Fitn€\$\$: An App to provide Financial Incentives for Inactive Kids.  
**Overview:** Fitn€\$\$ is a phone app that allows parents to track their child's daily step count and reward them for being active, encouraging physical activity.  
**School:** Athlone Community College  
**County:** Westmeath  
**Teacher:** Ms Emma Finneran  
**Student(s):** Tristan Greene

## 4214

**Title:** Interstitial Investigations  
**Overview:** My project is about comparing cgm/fgm readings (from interstitial fluid) to blood sugar readings. I will also compare cgm/fgm features to benefit Type 1 Diabetics.  
**School:** Presentation College Headford  
**County:** Galway  
**Teacher:** Mr. John Toner  
**Student(s):** Anna Cooper

## 4215

**Title:** Fibrostick Pro: New Fibromyalgia Detection System  
**Overview:** Fibrostick Pro is a product which I have designed alongside a pain scoring system to help diagnosis fibromyalgia in patients.  
**School:** Kingswood Community College  
**County:** Dublin  
**Teacher:** Ms Ciara Cook  
**Student(s):** Amy Carruth

## 4216

**Title:** Telepath  
**Overview:** Telepath is an application that alerts users of other larger/smaller vehicles on the road at dangerous rural bends.  
**School:** St Patrick's Classical School  
**County:** Meath  
**Teacher:** Ms Sinead O'Sullivan  
**Student(s):** Jake Casserly

## 4217

**Title:** A Higher Level Programming Language For Quantum Computers  
**Overview:** The goal of this project is to create a higher-level compiled programming-language for quantum computers that can be read and written with ease and succinctness.  
**School:** Stratford College  
**County:** Dublin  
**Teacher:** Ms Helen O'Kelly  
**Student(s):** Ayush Tambde

## 4218

**Title:** Improved Face Mask Design and Materials for a COVID-19 World  
**Overview:** Improving the design and properties of a homemade face mask considering zonal areas for optimised airflow and resistance to pathogen penetration  
**School:** Coleraine Grammar  
**County:** Londonderry  
**Teacher:** Mrs Trina Reid  
**Student(s):** Saashi Ghaie

## 4219

**Title:** Prototype of an Electroactive Polymer Muscle Suit  
**Overview:** This project seeks to create a sleeve of wearable muscle, aimed towards applications in muscular rehabilitation, as well as strength and stamina enhancement.  
**School:** Glenstal Abbey School  
**County:** Limerick  
**Teacher:** Mr Cathal Reid  
**Student(s):** Fionn O'Donnell

## 4220

**Title:** The Ultimate Guide To What Food I Can Give My Pet From My Kitchen  
**Overview:** I have coded an app that scans human food barcodes to let you know whether your pet can eat it.  
**School:** Cross And Passion College  
**County:** Kildare  
**Teacher:** Ms Aisling Doyle  
**Student(s):** Aideen Stein

## 4222

**Title:** Use of medical technology into a vehicle steering wheel to help improve road safety.  
**Overview:** My project aims to improve road safety by alerting the vehicle driver to tiredness or high stress due to changes in their heart rate.  
**School:** Middleton College  
**County:** Cork  
**Teacher:** Ms. Niamh O'Mahony  
**Student(s):** Molly Lowney

4223

**Title:** An investigation into the factors effecting Hydrogen yield in Electrolysis

**Overview:** Using a home made electrolysis apparatus I wish to compare different electrolyte and electrode combinations to test which will most effectively produce Hydrogen gas

**School:** St. Mary's College

**County:** Galway

**Teacher:** Mr Anthony Carey

**Student(s):** Liam Murphy

4224

**Title:** A Solution to Excessive Water Usage from Brushing Teeth

**Overview:** To address the problem of water wastage I am taking on the challenge of developing a tooth brushing system that significantly reduces the water used.

**School:** St. Mary's Secondary School

**County:** Mayo

**Teacher:** Ms Shauna Kearney

**Student(s):** Leah Hannon

4225

**Title:** "My Nana & Telehealth".

**Overview:** For my project I will be using Telehealth to find out it benefits elderly people in our society living on their own with homecare.

**School:** Gaelcholáiste Luimnigh

**County:** Limerick

**Teacher:** Ms Maria Kennelly

**Student(s):** Cadhla Ni Chaoimh

## SENIOR INDIVIDUAL

4300

**Title:** An Analytical training aid system designed to improve performance in golf

**Overview:** Designing a unique training aid system to collect analytical data from a players grip on a golf club to increase performance and reduce potential injury.

**School:** Presentation Secondary School

**County:** Tipperary

**Teacher:** Ms Serena Moloney

**Student(s):** Edel Daly

4301

**Title:** Was Granny right ? Can Copper based Electrochemistry offer a Safe Plant Specific Herbicidal Solution, to Control Invasive Plant

**Overview:** To test if Copper Nails, with or without a source of electricity can kill a plant.

**School:** Ard Scoil Na Mara

**County:** Waterford

**Teacher:** Miss Claire Adamson

**Student(s):** Aran Walsh

4302

**Title:** The Wide Awake

**Overview:** An alarm which complements a fire alarm in the home to aid waking children and aiding swift evacuation in the case of a fire.

**School:** Castlepollard Community College

**County:** Westmeath

**Teacher:** Mr Stephen Melody

**Student(s):** Patrick D'Arcy

4303

**Title:** Automated Pill Dispenser - increasing independence, efficiency and reducing dosage errors. ( Dáileoir Pill Uathoibrithe - neamhspleáchas agus éifeachtúlacht a méadú.

**Overview:** Using Arduino, I have created an automated pill dispenser to help carers with the management and dispensing of medication.

**School:** Gaelcholáiste Luimnigh

**County:** Limerick

**Teacher:** Ms Ciara Ní Dhrisceoil

**Student(s):** Sarah Moloney

4304

**Title:** Maintaining an "UltraWide" Distance

**Overview:** The Use of UltraWide Band Technology to Maintain Social Distancing In A School Environment While Also Maintaining Student and Teacher Safety

**School:** Loreto Secondary School

**County:** Tipperary

**Teacher:** Ms Emma Griffin

**Student(s):** Ceelin Conway

4305

**Title:** Using Image analysis to find people lost at sea

**Overview:** in this project i will use image analysis techniques to find a person lost at sea using standard drone footage

**School:** Salesian Secondary College, Pallaskenry

**County:** Limerick

**Teacher:** Mr John O'Flynn

**Student(s):** Abby Luna Garvey

4306

**Title:** Behind the Mask of Social Media: Using Natural Language Processing to highlight any increase in negative sentiment in social media activities during the Lockdown

**Overview:** Exploring and analysing the social media content and activities of teenagers, specifically relating to the time during the 20 20 Coronavirus lockdown period.

**School:** Jesus & Mary Secondary School

**County:** Mayo

**Teacher:** Ms Niamh Breheny

**Student(s):** Gordon McHale

4307

**Title:** CommunicAID: A mobile application to assist in the virtualisation of the medical sector and streamlining of patient specialist relations

**Overview:** CommunicAID aims to provide patients with messaging services between themselves and specialists, a medical event diary, medication reminders and forums for suffers of similar illnesses.

**School:** Colaiste Mhuire

**County:** Westmeath

**Teacher:** Ms Eva Acton

**Student(s):** Ruairi Fagan

4308

**Title:** Towards detecting state-of-the-art deepfakes

**Overview:** Using artificial intelligence to detect state-of-the-art deepfakes. A comprehensive analysis of detection methodologies and

# Technology

improvements in the field.

**School:** Bandon Grammar School

**County:** Cork

**Teacher:** Mrs Carena McCarthy

**Student(s):** Greg Tarr

## 4309

**Title:** Phototropic - using machine learning algorithms to prevent habitat loss and deforestation

**Overview:** Using deep learning algorithms to predict using satellite imagery and plant analysis tools where and when deforestation and habitat loss is to occur.

**School:** Templeogue College

**County:** Dublin

**Teacher:** Ms Linda Ward

**Student(s):** Joshua Butler

## JUNIOR GROUP

## 4400

**Title:** Personal Pop-Up Pod

**Overview:** 'Our design provided a pop-up temporary shelter for homeless, especially for those that decline residential homeless accommodation.'

**School:** Desmond College

**County:** Limerick

**Teacher:** Mr Donal Enright

**Student(s):** Emma Greaney, Faye Murphy

## 4401

**Title:** Teacher's P.E.T. (Personal Educational Tools)

**Overview:** This device combines a range of useful tools for teachers such as whiteboard cleaner, laser pointer, protractor, ruler, markers, extendable compass & emergency power bank.

**School:** Desmond College

**County:** Limerick

**Teacher:** Mr Donal Enright

**Student(s):** Emma O' Connell, Mischa Ní Chaoínleáin, Sienna O'Dwyer

## 4402

**Title:** A Seed Of Hope

**Overview:** Design and develop an android interactive game to increase children's awareness of global issues.

**School:** St. Brogan's College

**County:** Cork

**Teacher:** Ms Laura O'Regan

**Student(s):** Cathal Cronin, James Considine

## 4403

**Title:** P.A.S.S.T - Pedestrian Alert Safety System for Trams

**Overview:** We are creating an app which alerts pedestrians and cyclists to the danger of nearby Luas trams.

**School:** Colaiste Mhuire

**County:** Westmeath

**Teacher:** Ms Eva Acton

**Student(s):** Killian McGrath, Evan McGreal

## 4404

**Title:** A Greener Greenhouse

**Overview:** By using technology we hope to make a greener, more

efficient greenhouse, off setting its carbon footprint

**School:** Kishoge Community College

**County:** Dublin

**Teacher:** Mr Micheal Griffin

**Student(s):** Aqlan Ardy, Japnitt Singh

## 4405

**Title:** Decomposing rushes, the answer to heating homes?

**Overview:** Rushes are problematic on farms. We propose to investigate the potential of baled rushes decomposition properties to generate a green heat energy for buildings.

**School:** Tarbert Comprehensive School

**County:** Kerry

**Teacher:** Ms Joanne Mulvihill

**Student(s):** Jim Culhane, Paula - Eve Culhane

## 4406

**Title:** Interception of Insecure Wireless Network Protocols

**Overview:** Demonstration of how unencrypted network communication protocols can be intercepted when transmitted wirelessly and also how easy it is for anyone to do so.

**School:** Douglas Community School

**County:** Cork

**Teacher:** Mr Cian O'Mahony

**Student(s):** Alex De Groot, Robert Roy, Donagh Leahy

## 4407

**Title:** COVIS: COVID-19 Observation Visual Intelligence Sensor

**Overview:** AI that helps the public with their covid worries.

**School:** Belmayne Educate Together Secondary School

**County:** Dublin

**Teacher:** Ms Emma Burrowes

**Student(s):** Jack Winkless, Finn Skehill

## 4408

**Title:** Using GDPR compliant QR codes in the hospitality sector to simplify Covid 19 contact tracing

**Overview:** A case study intervention using GDPR compliant QR codes and an App to simplify contact tracing in the hospitality sector.

**School:** C.B.S. Secondary School

**County:** Kerry

**Teacher:** Ms Maire Fitzgerald

**Student(s):** Conor Flaherty, Ethan Ward, Philip Tracey

## 4409

**Title:** to investigate the potential of loam energy as a renewable energy source

**Overview:** investigating soil ions and electrolytes that create electrically conducting solution when dissolved in polar solvent, how different variables affect the amount of energy produced.

**School:** Our Lady's Bower

**County:** Westmeath

**Teacher:** Ms Aoife Curley

**Student(s):** Anna Harney, Lorraine Moran

## 4410

**Title:** Trackmed

**Overview:** Our app is to make sure people don't forget to take medication. There's an alarm and a vibration setting for people with hearing problems.

**School:** Mount St Michael

**County:** Mayo  
**Teacher:** Ms Stephanie Hogan  
**Student(s):** Caoimhe Monahan, Sophia Hession, Katie Jennings

4411

**Title:** Investigating what materials block a WiFi signal.  
**Overview:** We will be investigating and testing what materials affect a WiFi signal's strength.  
**School:** Douglas Community School  
**County:** Cork  
**Teacher:** Mr Cian O'Mahony  
**Student(s):** Patrick James Irwin, Pierce McFarlane

4412

**Title:** A sensory cube for SEN children.  
**Overview:** We will be designing a sensory cube, that allows children with special needs to engage in play and express their emotions effectively.  
**School:** St Patrick's College  
**County:** Tyrone  
**Teacher:** Miss Sinéad O'Neill  
**Student(s):** Thasia Latusuay, Mariato Embalo

4413

**Title:** Exploring the IPD and Nash Equilibrium using Machine Learning  
**Overview:** We are going to explore the Iterated Prisoners dilemma using Machine learning.  
**School:** Coláiste Phádraig  
**County:** Dublin  
**Teacher:** Ms Jacqueline Farrell  
**Student(s):** Taha Fareed, Jevin Joy

4414

**Title:** HDPE Transformer  
**Overview:** We have made an extruder for High Density Polyethylene plastic from reclaimed materials for domestic use to make HDPE recycling a reality.  
**School:** St Marys College - C.S.Sp.  
**County:** Dublin  
**Teacher:** Mr John Nisbet  
**Student(s):** Aayush Gajare, Hrishikesh Shenoy

## INTERMEDIATE GROUP

4500

**Title:** Polarised, Anti-bacterial Face Shield, for use with Hurling Helmets  
**Overview:** A face shield for hurlers helmets that prevent transmitting of disease from player to player and increasing their ability to catch a ball in sunlight.  
**School:** Desmond College  
**County:** Limerick  
**Teacher:** Mr Donal Enright  
**Student(s):** Emma O'Shea, Rebecca Enright

4501

**Title:** R.A.G.T.A.G  
**Overview:** Is é R.A.G.T.A.G na róbót a gearrann torthaí agus glasraí. Tá sé ann chun cabrú bia a gearadh.  
**School:** Gaelcholáiste Charraig Uí Leighin

**County:** Cork  
**Teacher:** Miss Marianne Ní Thuama  
**Student(s):** Nathan Ó Drisceoil, Kara Ní Dhuinn, Danny Barriscale

4502

**Title:** Developing a sensor glove for the blind  
**Overview:** We seek to develop a glove which can sense objects surrounding it and sends a vibration to the user. This product will help the blind.  
**School:** Nord Anglia International School Dublin  
**County:** Dublin  
**Teacher:** Dr. Florian Maisonneuve  
**Student(s):** Adi Weitzman, Agustina German, Alexander Claxton

4504

**Title:** The Medicate Project  
**Overview:** A silicone wristband that alerts people to take medication. Ideal for people such as the elderly, children and people with certain mental conditions.  
**School:** Ursuline College  
**County:** Sligo  
**Teacher:** Mr Anthony Carolan  
**Student(s):** Amy Jordan, Zoe Parkinson, Laura Coyle

4505

**Title:** Bike Blinkers  
**Overview:** We plan to design and test indicators for a bicycle to see if they have potential to reduce road accidents.  
**School:** De La Salle College Cork  
**County:** Cork  
**Teacher:** Ms Aisling Kelleher  
**Student(s):** Fionn Crowley, Dylan Wenger, Marcin Oleksy

4506

**Title:** Music Wise- the music note scanner app  
**Overview:** We want to develop an app that can name and play the note and identify its location on an instrument, by scanning it with your camera.  
**School:** Beara Community School  
**County:** Cork  
**Teacher:** Mr Dara Crowley  
**Student(s):** Katie O'Donovan, Fiona O'Donoghue

4507

**Title:** Take the musk out of your mask!  
**Overview:** We would like to create a face mask with a filter that can be filled with essential oils to make them easier to wear.  
**School:** Beara Community School  
**County:** Cork  
**Teacher:** Ms Cassandra Cremin  
**Student(s):** Louise O'Donoghue, Ava O'Sullivan

4508

**Title:** A study, analysis and creation of a viral music videos  
**Overview:** We hope to create a viral music video based on research and analysis of past viral music videos  
**School:** Ennistymon Vocational School  
**County:** Clare  
**Teacher:** Mr Cian Ó Súilleabháin  
**Student(s):** Caleb Pennill, Mary Byrne

# Technology

4509

**Title:** Reverse Trailer Hitch

**Overview:** Our project will be to design a device that will make reversing and hitching up a trailer safer and easier.

**School:** Carrick-On-Shannon Community School

**County:** Leitrim

**Teacher:** Ms Sinéad Creegan

**Student(s):** Brogan Fee, Janis Pass

4510

**Title:** Should Diesel Powered Tractors be Converted to Electric Power?

**Overview:** While there is a lot of attention on how electric cars are good for the environment, there is a lot less talk of electric agri-equipment.

**School:** St Joseph's College

**County:** Tipperary

**Teacher:** Ms Mary Gorey

**Student(s):** Eoin Kelly, Tim Comerford, John-Paul Curran

4511

**Title:** An App to Co-ordinate your Awareness and Knowledge of your Locality.

**Overview:** To design an app to encourage tourists and locals to learn about the unique history, ecology and activities in our locality.

**School:** Athlone Community College

**County:** Westmeath

**Teacher:** Miss Irene O'Sullivan

**Student(s):** Conall Mandal, Daragh Lowry

4512

**Title:** Optimising leg orthotic design for individuals with Charcot-Marie-Tooth Disease (CMT)

**Overview:** We will be investigating CMT and focusing on it's affects on the body. Through this we will develop and create optimised leg splint prototypes.

**School:** Laurel Hill Secondary School FCJ

**County:** Limerick

**Teacher:** Dr Mary Frawley

**Student(s):** Lucy Noonan, Joanna Ryan

4513

**Title:** Fire, or fire drill? An alarm that clears up confusion

**Overview:** Fire alarm utilising voice announcements such as "this is a drill" or "Leave the building" along with the typical fire alarm sound to reduce confusion.

**School:** Ursuline College

**County:** Sligo

**Teacher:** Mr Anthony Carolan

**Student(s):** Ella Joyce, Ava Pastor

4514

**Title:** Boost your Mood

**Overview:** Research common worries and anxieties in teenagers and use the information to create an app that will help address these issues using evidence-based CBT theories.

**School:** Loreto High School

**County:** Dublin

**Teacher:** Dr Rachel Hiney

**Student(s):** Aoibhinn Roche, Hannah Bolger

4515

**Title:** Automatic Door handle sanitiser

**Overview:** A machine that automatically sanitises door handles using a censor and a timer.

**School:** Carrick-On-Shannon Community School

**County:** Leitrim

**Teacher:** Ms Sinéad Creegan

**Student(s):** Ross Flanagan, Daniel Brady, Liam Chandler

4516

**Title:** Smart Reusable Water Bottle

**Overview:** This new invention will help you take in optimum water amounts every day including half of your recommended consumption by midday

**School:** Carrick-On-Shannon Community School

**County:** Leitrim

**Teacher:** Ms Sinéad Creegan

**Student(s):** Daniel Martin, Daniel Wynne, Cailum Moran

4518

**Title:** Using modern technology to emulate CHIP8 on a basic webpage

**Overview:** We want to use modern technology to emulate old games such as space invaders and make it run as fast as we can.

**School:** Gonzaga College

**County:** Dublin

**Teacher:** Mr Stephen McGroggan

**Student(s):** Christian Barton Randall, Niall Morahan

4519

**Title:** Easy Ankle

**Overview:** Our project aims to aid people who are transitioning from a support boot to a shoe after an ankle injury

**School:** Beara Community School

**County:** Cork

**Teacher:** Ms Cassandra Cremin

**Student(s):** Michelle Power, Emma O Shea, Niamh Cronin

4520

**Title:** OnlineOffline

**Overview:** Our main goal is to raise awareness when it comes to cyber security by creating a fun and educational board game, which is called "OnlineOffline".

**School:** Mercy Secondary School

**County:** Kerry

**Teacher:** Miss Eimear Nolan

**Student(s):** Michael Guerin, Adam Dineen

4521

**Title:** Defibrillator finder : Ballinrobe

**Overview:** Our goal is to develop an app that helps locate defibrillators in a time of a cardiac event.

**School:** Ballinrobe Community School

**County:** Mayo

**Teacher:** Ms Anne Hession

**Student(s):** Katie Fraser, Tamara Schulte, Siobhan McGrath

4522

**Title:** "S.O.S- Save Our Sheep" Tracking system

**Overview:** Our project aims to develop a GPS tracker for sheep

and cows to help prevent farm theft for the benefit of rural dwellers livelihoods.

**School:** Presentation College

**County:** Wicklow

**Teacher:** Mr Stuart Hannon

**Student(s):** Billy Corrigan, John Fox

## 4524

**Title:** Attainble

**Overview:** Attainable is an application which will come with a wearable that assists people with intellectual disabilities by delivering multiple resources and information in one location.

**School:** Mount St Michael

**County:** Mayo

**Teacher:** Ms Stephanie Hogan

**Student(s):** Anna Farragher, Theres Devassy

## 4525

**Title:** Using NFC technology on medical/ID bracelets

**Overview:** We aim to use NFC technology in medical bracelets. This would allow more crucial medical information to be available to the doctors of unconscious patients.

**School:** St Gerard's

**County:** Wicklow

**Teacher:** Mr Kieran McEvoy

**Student(s):** Aoibh Merrigan, Anna Reynolds, Alannah Whitelaw

## 4526

**Title:** Tap Tech

**Overview:** Our project aims to find a better way for elderly and vulnerable to connect with family and friends and have reminders using a bluetooth bracelet.

**School:** Sligo Grammar School

**County:** Sligo

**Teacher:** Miss Michelle Higgins

**Student(s):** Francesca Reddington, Louise Casey, Lara Swann

## 4527

**Title:** Haus

**Overview:** We want to automate tasks in the household to save electricity and time

**School:** Sligo Grammar School

**County:** Sligo

**Teacher:** Miss Michelle Higgins

**Student(s):** Cormac Shannon, Lewis Murphy, Rory Carr

## 4528

**Title:** Project Poles

**Overview:** Creating a magnetic powered turbine that is powered by opposite magnetic poles that turn the turbine and converts it to energy.

**School:** Coláiste Iósaeaf

**County:** Limerick

**Teacher:** Mr Brian Clarke

**Student(s):** Ciarán Cronin, Jamie O Connor, Enda Buckley

## 4529

**Title:** Floor Safe Lighting System

**Overview:** A pressure-sensitive lighting system to help elderly people navigate their around their homes safely at night.

**School:** Clonakilty Community College

**County:** Cork

**Teacher:** Mr Patrick O Keffe

**Student(s):** Aidan Walsh, Diarmuid Murphy, Tomas Buckley

## 4530

**Title:** Solar power dessicant wheel efficiency

**Overview:** An Energy efficient clothes dryer. The solar panels will provide the energy for the dessicant wheels to turn.

**School:** Loreto Secondary School

**County:** Kilkenny

**Teacher:** Mr Brendan Williams

**Student(s):** Caoimhe Mahon, Robyn Nolan

## 4531

**Title:** Blue Light - Harmless Side Effect or Artificial Insomnia?

**Overview:** We will be examining the levels of blue light is emitted from various types of screens

**School:** Coláiste Cholmáin

**County:** Cork

**Teacher:** Ms Teresa Kearney

**Student(s):** Jamie Clancy, Denis Temple, Niall O' Sullivan

## 4532

**Title:** Captains Hook

**Overview:** The Captains Hook is a door opening device adapted to fit onto any key chain and open any design of door.

**School:** The Royal and Prior School

**County:** Donegal

**Teacher:** Mr Mickey Healy

**Student(s):** Matthew Gibson, Jamie Cole, Adam Mc Crabbe

## 4533

**Title:** Is It Ripe Yet?- A circuit to measure the light resistance of a variety of colours and thereby differentiate between red and green to determine whether certain varieties of fresh p

**Overview:** Electrical circuit that uses a photo-resistor to tell the difference between the colors red and green and hence whether fruit is ripe or not

**School:** Mount Anville Secondary School

**County:** Dublin

**Teacher:** Mr Niall McGrath

**Student(s):** Ailbhe Kelly, Blathnaid Hickey

## 4534

**Title:** The Gameification of social distancing

**Overview:** We plan on making social distancing into a game to train students of the importance of social distance.

**School:** St Joseph's Secondary School, Rush

**County:** Dublin

**Teacher:** Mr Daryl Dunne

**Student(s):** Charlie Rice, Kerry Atowo, Joshua Gaffney

## 4535

**Title:** Can Virtual Reality interventions be used to tackle public speaking anxiety?

**Overview:** our project will explore the idea of helping people with public speaking fears with VR

**School:** St Joseph's Secondary School, Rush

**County:** Dublin

**Teacher:** Mr Daryl Dunne

**Student(s):** Oisín Gosson, Darragh Ruigrok, Jack Browne

## 4536

**Title:** A device using Arduino that will prevent young kids and pets from heatstroke in a car

# Technology

**Overview:** A device created using an Arduino, temperature and pressure sensor to prevent young children and pets from being harmed in an overheated vehicle.

**School:** C.B.S. Thurles

**County:** Tipperary

**Teacher:** Ms Helen Horan

**Student(s):** Sean O'Dwyer, Kevin Donovan

## 4537

**Title:** Jump through the ABC's

**Overview:** Our project aims to improve primary school teaching by incorporating different learning styles. We plan to make a website for teachers to make this possible.

**School:** Beara Community School

**County:** Cork

**Teacher:** Mr Dara Crowley

**Student(s):** Oonagh Spencer, Francisca Silva, Ava O'Shea

## SENIOR GROUP

## 4600

**Title:** Aistrigh, The Smart Translator: Using Natural Language Processing Technology to Optimise Machine Translation in the Irish Language

**Overview:** We seek to develop, a fully working translator comparable to that of human translators within English and Irish using Neural Machine Translation Technology.

**School:** Patrician Secondary School

**County:** Kildare

**Teacher:** Mr Colin Doherty

**Student(s):** Justin Cunningham, Fintan Lalor

## 4601

**Title:** Self-Sanitising Surfaces

**Overview:** Self-sanitising surfaces slows the spread of germs, embedded ultraviolet LEDs in the surface activates a film of TiO<sub>2</sub>, a disinfectant that will sterilise the surface.

**School:** Desmond College

**County:** Limerick

**Teacher:** Mr Donal Enright

**Student(s):** Aoife Lee, Emma Brennan

## 4602

**Title:** SPECS - An Adapted Spectacle System for Dementia Patients

**Overview:** Our project aims to develop a Spectacle System to reduce anxiety and paranoia in patients suffering from dementia when faced with people they don't recognise.

**School:** Mercy Secondary School

**County:** Kerry

**Teacher:** Miss Eimear Nolan

**Student(s):** Dara Newsome, David Hughes, Conor Bradshaw

## 4603

**Title:** Give Me That ENERGY! A Wellbeing App For Young People

**Overview:** Our aim is to "pave the pathway to positive wellbeing" using our school wellbeing program incorporated into an app

**School:** Coláiste Mhuire Co-Ed

**County:** Tipperary

**Teacher:** Miss Katie Carr

**Student(s):** Kaitlyn Ryan, Kayleigh Cronin

## 4604

**Title:** It only takes 15 seconds

**Overview:** our project is based on hand hygiene in hospitals. we have created a device that makes using hand sanitiser compulsory upon entering the hospital.

**School:** Ursuline College

**County:** Sligo

**Teacher:** Mr Anthony Carolan

**Student(s):** Ella Rose Feeney, Bronagh McGee, Aoife Connolly

## 4605

**Title:** A modern approach to Irish EHR data storing and its role in predictive medicine analysis

**Overview:** Modernizing outdated Irish patient records and investigating the practicality of their widely available use in predictive medicine to aid in reducing cost and increasing awareness.

**School:** Scoil Phobail Sliabh Luachra

**County:** Kerry

**Teacher:** Mr Patrick O'Donnell

**Student(s):** Liam McSherry, George Leonard

## 4606

**Title:** Defiblocator

**Overview:** Our app locates every Defibrillator in the Republic of Ireland. It also displays the users location on the map to help recover the nearest AED.

**School:** De La Salle College

**County:** Louth

**Teacher:** Mr Shaun Cumiskey

**Student(s):** Eoin Byrne, Barry Caldwell

## 4607

**Title:** Can an economically efficient upper limb prosthetic be made and match the market?

**Overview:** We are designing a 3d printed prosthetic arm that we plan to make it end up costing less than other prosthetics on the market?

**School:** Naas Community College

**County:** Kildare

**Teacher:** Ms Naomi Curtis

**Student(s):** Sean Byrne, Sean Higgins

## 4608

**Title:** An investigation into the practical uses of facial recognition technology and biometrics, and the experimentation of available open source technology.

**Overview:** Investigating the modern day uses of technology involving biometrics such as facial recognition, and experimenting with open source related technology.

**School:** Loreto Community School

**County:** Donegal

**Teacher:** Mrs Roisin Coyle

**Student(s):** Ryan King, Ahmed Yousif

## 4609

**Title:** ARES: Automated Risk Evaluation

**Overview:** ARES is an artificial intelligence trained to detect firearms. The point of ARES is to drastically reduce the amount of firearm fatalities.

**School:** St Joseph's Secondary School, Rush

**County:** Dublin

**Teacher:** Mr Daryl Dunne

**Student(s):** Stephen Flynn, Oisín Brick

## Young Scientist & Technology of the Year Limited

The BT Young Scientist and Technology Exhibition is the main activity of a charitable trust, Young Scientist and Technology Exhibition Limited. The charitable trust which has been in existence since 2003 and was set-up in order to create a separate corporate entity to protect and act as custodian for the YS&TE. The Company aims to build on the successful track record of the Young Scientist and Technology Exhibition ("Exhibition") and maintain and develop the integrity and identity of the Exhibition.

The trust has worked with some important entities outside and has granted licensing arrangements to stakeholders in Tanzania, Kenya and the United Arab Emirates to allow them to operate the Young Scientist model in these countries.

The first Young Scientist Tanzania took place in 2011. In 2018 the first Young Scientist Kenya was held in Nairobi and in 2019 the first United Arab Emirates edition took place.

# On stage

## Institute of Physics - Lightning Show

Explore the wonders of Electricity in this electrifying display of one of nature's most exciting phenomenon, Lightning. Mark the Science Guy will become the Master of Lightning as he attempts to harness the laws of physics to control a million volts of electricity and turn thunder into rock and roll music that'll remotely blow your socks off!

Investigate the nature of electricity through interactive demonstrations. Learn about electricity through the ages, and the many inventions that power our world, and create a few sparks while you're at it.

**This is a show not to be missed!**

## How to become an astronaut Spaced Out at Explorium

Blast off on your journey to the stars and find out what it takes to become an Astronaut! Join aeronautical engineer and POSSUM Astronaut Candidate, Dr. Norah Patten and physicist, footballer, and the Science Guy, Mark Langtry, on their mission to space as they take you on an action-packed adventure featuring rocket launches, g-forces, astronaut training, and get your space jam on with some questionable space food!

**Tune in to win some fantastic space prizes AND be in with a chance to spend the day with Norah and Mark at Explorium, taking on the 'Ultimate Astronaut Challenge'!!!**

## The Science of Sport

### Are the world's greatest athletes' top scientists?

Mark Langtry aka Mark the Science Guy, Theoretical Physicist, and former Professional Footballer, shows how an understanding of science can help improve your sporting performances!

This fun filled, energetic show explores the science behind the beautiful game, with interactive experiments and awesome demonstrations! Learn how tech and data are revolutionising sports performances around the world and pick up a tip or two of how to improve your own!

## Our Amazing Universe: A journey of discovery

ESA/Hubble

As we look to the night sky we imagine what lies beyond our protective blanket of the atmosphere. We sometimes glimpse visitors from beyond as shooting stars as they burn up in the atmosphere above. We may witness the night sky light up in a cosmic dance with the beautiful Northern Lights. There is even the possibility to gaze upon ancient distant travelers as comets as they pass by us on their own journey around our star, The Sun. Through telescopes we gaze out into the universe and travel through space and time. Our scientific endeavours and exploration of space through robotic spacecraft have uncovered incredible vistas and secrets yet to be explained.

This presentation will take you on a journey through space and time and highlight some of the amazing discoveries we have made about our own Solar System and out into interstellar space and the universe beyond.

# On stage

## Using the universe to combat Covid

Danielle Wilcox who was the winner of the BTYSTE Irish Scientists Have Talent – will be taking the audience on a tour for a behind the scenes look at the science that happens at Blackrock Castle Observatory. First, we'll have an up-close look at the different smaller telescopes that we have on site that we use for observing nights at the castle. Then we'll head to our small observatory which houses the telescope used to look at exoplanets and we'll have a look inside the dome; this area is normally restricted to astronomers and staff at BCO. From there we'll head to the top of the main tower of the castle. There we have our large observatory, which is home to our main telescope, Big Bertha. Big Bertha peers halfway across the known universe to have a look at black holes. The techniques used to analyse the images of those black holes are now being used in an experiment to test masks that are being worn during the pandemic. So, from there, we'll journey out to the Cork Institute of Technology to see the experiment happening in action!

## Nicola Millard – BT

'The D's shaping the future of work' – looking at what dynamics, beyond digital technologies, are shaping the broader ways we may work in the future.

## Interview series

### Dr Tony Scott

Dr Tony Scott, co-founder of the Young Scientist Exhibition in 1965 (with late Rev Dr Tom Burke) in conversation with Émer Hickey, one of the 2013 winners about the exhibition and how it has changed over 57 years and how the 2021 will be different than any other one.

### Dr John Monahan

We talk to the first-ever winner of the then-called Young Scientist Exhibition Dr John Monahan, who after winning the inaugural prize in 1965 went on to a stellar career as a biotech entrepreneur. In Conversation with Mari Cahalane, Head of BTYSTE, they will discuss the exhibition hub being in the Mansion House where the first ever exhibition was hosted and also how the global scientific community are playing such a big part in the fight against Covid-19.

### Julie Sinnamon, CEO of Enterprise Ireland

In conversation with former past participant and Mayo Nua founder, Jack O'Connor. Julie and Jack discuss the advantages of a virtual event and the role that BTYSTE has in fostering future leaders in enterprise in Ireland.

### Prof Donald P. McDonnell

Prof Donald P. McDonnell, the Glaxo-Wellcome Professor of Molecular Cancer Biology, in discussion with Émer Hickey. Donald speaks about his career trajectory after winning the then "Young Scientist" award in 1978, and how he comes to serve as Co-Director of the Women's Cancer Program within the Duke Cancer Institute.

# On stage

## Interview series

### Shane Curran

2017 winner and founder of Evervault, in conversation with former past participant and Mayo Nua founder, Jack O'Connor. Shane discusses his extraordinary journey from the exhibition floor to Silicon Valley and gives advice to those looking to follow in his footsteps.

### Kate and Annie Madden

Kate and Annie Madden, founders of Fenuhealth, who specialise in equine health supplements, in conversation with former past participant and Mayo Nua founder, Jack O'Connor. The dynamic duo reveal how quickly things moved for Fenuhealth after the exhibition which was #BornFromBTYST and how they juggle entrepreneurship and academia.

## EPA State of the environment video

Watch and find out about the current state of Ireland's environment.

### Want to play your part?

Students can tell The Story of Your Stuff in the EPA's upcoming competition.

## Molecules to Medicine: Making medicines in a global pandemic

### Prof Luke O'Neill chairs a panel on making medicines in a global pandemic

The year of 2020 has indeed been the year of science and scientists. The coronavirus pandemic has shaped the year in research. The speed of the coronavirus's spread has been matched only by the pace of scientific insights. Almost as soon as SARS-CoV-2 was discovered, research groups worldwide started probing its biology, while others developed diagnostic tests or investigated public-health measures to control it. Scientists raced to find treatments and create vaccines that could bring the pandemic under control. This panel discussion will take us through the year, and offer insights into the future and life post-covid.

## TechStarter

Tech Starter event, organised in collaboration between BTYSTE and Connecting Women in Technology (CWIT). You can hear from our panel of change makers who are building a better future for our world through their passion for innovation and technology. One thing that has become most apparent this year is the reliance we all have on technology. The panel of special guests include a previous BTYSTE winner and other Alumni, entrepreneurs and problem solvers who have made their mark in the tech industry. They will share their journeys and their learnings to inspire the younger generation to keep tech on their career radar. The event will be opened by Minister Simon Harris TD.

## Why crystals will save the world

### Prof. Michael Zarowotko's in conversation with Émer Hickey

A material developed by Prof. Michael Zarowotko's team at the University of Limerick "could help solve the global water crisis" by producing water from air, even in the most hostile of locations.

The crystalline material, known as ROS-037, has been developed after decades of research by Prof Michael Zaworotko, a Science Foundation Ireland research professor at UL's Bernal Institute. "Water vapour is everywhere in the atmosphere, even in the most arid regions, but harvesting pure water from water vapour using existing desiccants uses so much energy that it is not commercially viable despite the water stresses faced by much of humanity," Join Mike and former BT YSTE winner Émer Hickey to hear about how Mike's research is working to solve global environmental problems.

## Science Foundation Ireland (SFI) Pick Your Brain Quiz with Phil Smith

### Phil of Science is teaming up with Science Foundation Ireland for the interactive family quiz Pick Your Brain!

He has the questions, fantastic prizes and the bad jokes but do you have the answers? Join us for this fun 60-minute quiz that will have a wide range of topics and tests for you and your class. Pick Your Brain will be live-streamed over Youtube with answers submitted via Kahoot. Each team will need a place to watch the stream and a device (phone, tablet) to submit their answers. No need to download an app you can just submit through the website. Places are limited for the prize-filled live-stream so sign up today!

## What is Mark the Science Guy up to now

**Exploding? Floating? Flying? or Crying?  
(with laughter of course).**

**What is the Science Guy doing today!?!?**

Step into Mark's universe as he takes you behind the scenes to explore and investigate some of his favourite creations and inventions at Explorium! New insights and daily glimpses into the mad genius at work...and there is no great genius without some touch of madness! Join Mark every day for your daily fix of science tricks!

## RTÉ | Future Island The Tesla car that drives itself

**RTÉ**

Petrolhead and comedian PJ Gallagher takes Tesla car for a spin as RTÉ's Future Island explores the technological advances that are changing our world. Sitting behind the wheel of an autonomous car, Gallagher is both nervous and amazed by the machine's ability to take control of the journey.

Take a look at the future of motoring here...

# On stage

## Coming, Ready or Not - The Climate Emergency

ClimateChange.ie

Environmental journalist and climate change campaigner John Gibbons delivers an online presentation on the climate change challenge facing us all, and the scientific and behavioural steps that need to be taken to address the challenge of global warming before it is too late.

## Combatting livestock resistance to anti-parasite drugs

This presentation by Irish based agricultural NGO Self Help Africa looks at an innovative programme that has been designed to respond to growing resistance of animals in the Developing World to anthelmintic (anti-parasite) drugs. Targeted Selective Treatments (TST) is a multi-country research project led by Prof. Eric Morgan of Queen's University, Belfast, and involving veterinary and scientific research institutes in the UK, Malawi and Botswana, and has focussed on how botanical dewormers might be employed at farm household level as an alternative to conventional drugs, in the treatment for parasites in goat herds.

## Cairde

**RTÉ**

RTÉ has teamed up with Tik Tok sensation 'Cairde' and superstar DJ 'John Gibbons' to curate a very special performance for the BTYSTE 2021 Opening Ceremony. Filmed in Coláiste Iognáid in Galway, it is time to turn the volume up and enjoy!

## Random Rap off Friday - Doireann and Eoghan

**RTÉ**

On RTÉ 2FM Breakfast with Eoghan and Doireann on Friday 8th January, Doireann and Eoghan will go head to head in a Random Rap Off Friday BTYSTE special.

Listen live at 8.40am on RTÉ 2FM and then check out an exclusive behind the scenes look at their performance at 11am "On Stage" at BTYSTE.

# On stage

## RTÉ After School Hub - on previously

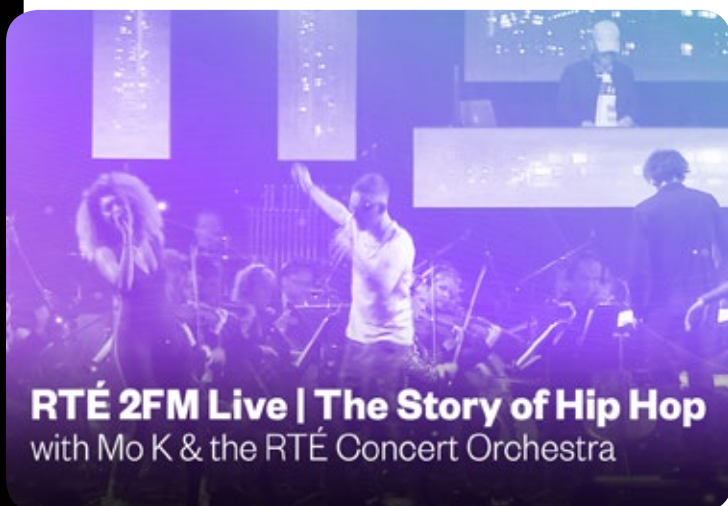

RTÉ

Home School Hub was an integral part of life during lockdown; with After School Hub we are hoping to keep children – and parents – minds and bodies active during the winter months ahead. It will be full of fun, entertainment, but lots of learning as well.

## The Story of Hip Hop

RTÉ

'Origins, The Story of Irish Hip Hop' aims to tell the story of how hip hop slowly infiltrated Irish culture over the course of the past four decades, going from a niche underground prospect to one that is nipping at the heels of the mainstream today, with appearances from Irish hip hop pioneers Scary Eire and other 'old guard' forces including Rob Kelly, Messiah J and the Expert, Ophelia and Lethal Dialect – talk about laying the groundwork for the current crop, and how they were forced to rail against people constantly dismissing the very notion of 'Irish hip hop'.

## Nextipedia

an event for Business Executives

**Aron Ralston**

New York Times bestselling author  
and subject of Academy Award  
nominated film 127 Hours

BT Nextipedia, the business innovation symposium. Our online event will kick-start your year by inspiring you to make your next move with confidence.

This past year, businesses across the world have faced unprecedented challenges. To overcome this adversity, we will need to innovate and think differently in the future. That's why our symposium is focused on the theme: *Your next move matters*. Our speakers will bring this theme to life as they share their different perspectives including positive mindset, conquering personal adversity, implementing a change culture and connecting for good.

Take time out of your diary for BT Nextipedia and you can learn about facing adversity and making difficult decisions from those who've overcome the most extraordinary challenges. You'll also discover how rethinking, reinventing and reinvigorating your business can prepare you for whatever lies ahead. Because in an ever-changing world, what matters most is what we do next.

Because in an ever-changing world, what matters most is what we do next. [Register today](#) to book your spot.

Food Group

## ABP Food Group

ABP is one of Europe's leading privately owned agribusiness companies. It is the largest beef processor in the UK and Ireland. The company also operates substantial renewable (Olleco), pet food (C&D) and protein divisions. ABP employs over 11,000 people and has 47 manufacturing plants in the Ireland, UK, Denmark, Poland, Austria, Holland, France and Spain.

[www.abpfoodgroup.com](http://www.abpfoodgroup.com)

## AG Education Services

AG Education Services specialises in the provision of educational materials into Second level schools in Ireland. Such resources include Science and Technology in Action – a teaching and learning resource for second level education produced in partnership with the Department of Education and Science, industry, and teacher organisations.

AG Education resources address critical educational needs as recognised at European and Government level. Accordingly, the company has won the support of Irish government departments, relevant state agencies and professional associations.

AG Education Services are the creators of Science and Technology in Action, an innovative teaching and learning resource, delivered annually to all second level schools in Ireland and which is also available online at [www.sta.ie](http://www.sta.ie)

The teaching and learning materials are linked to the science curricula. The resource is developed in partnership with the Department of Education and Skills through the Professional Development Service for teachers (PDST), who are responsible for teacher in-service training.

The lessons are related to the real application of science and have been developed with Ireland's leading science and technology organisations, drawn from the public and private sectors.

As well as introducing new resources for teaching and learning to teachers and students of science, Science and Technology

in Action provides a unique means of fostering the link between business and education what is more enforces the awareness of the critical importance of science and technology to our economy and society.

For more information on Science and Technology in Action, visit: [www.sta.ie](http://www.sta.ie).

**ANALOG  
DEVICES**

AHEAD OF WHAT'S POSSIBLE™

## Analog Devices

At Analog Devices, we are passionate about turning tomorrow's possibilities into reality through innovations that link the physical and digital worlds; translating real-world phenomena like motion, sound, light and electromagnetic forces into electronic signals and back again. We aim to make a positive impact on the environment and as a corporate citizen of the world and our engineers continue to find new ways to leverage our leading technology and expertise to deliver a more sustainable future for generations to come. See the positive impact Analog Devices has by browsing the video content on our Virtual Stand.

Analog Devices is proud to support the BT Young Scientist & Technology Exhibition to give encouragement to students in 2nd level education to consider Science and Technology in their future career choices. Irish Engineers working with Analog Devices hold the largest number of US patents in Ireland because we just love to invent and innovate! Our engineering team would like to welcome you to our virtual stand in the Technology Hall where they will open your mind to how our technology has an real impact in today's world – from preventing the spread of diseases, helping in water purification to accelerating the move to electric cars and much more...

Innovating since 1965, and Headquartered in Boston, USA, with ~16,400 employees across 30+ countries. In Ireland, Analog Devices' has development centres in Limerick and Cork employing over 1,400 people. Analog Devices has been named a Top 100 Global Innovator seven times in the last eight years, by solving some of the most complex and impactful challenges of our time: from detecting gravitational ripples in the fabric of space-time to enabling electric vehicles. Innovations that stem from engineers with a passion and vision to stay ahead of what's possible.

## BFireSafe@School Project

The BFireSafe@School project is an Erasmus+ funded project to develop a new fire safety education programme for post primary schools all over Europe. The project consortium consists of 9 project partners from 7 EU countries, Ireland, Belgium, Denmark, Finland, Germany, Lithuania and Spain. Leitrim County Council Fire service is the project Coordinator and is led by Chief Fire Officer Finian Joyce. It is a collaboration between teachers and fire service personnel who will share best practice and use innovative digital learning methods to deliver the project. The new fire safety training programme (consisting of 10 modules delivered in the classroom and online) has been translated into 10 European languages and is suitable for pupils aged 12 -18. The project commenced in October 2018 and will finish in October 2021. It has been pilot tested in Ireland in Late 2019. Feedback from this pilot test has been very positive. It is now going to be pilot tested in other EU Countries in early 2021. A number of innovative outputs have been developed to assist in the delivery of the programme such as the FireSmart Augmented Reality App and the school evacuation video. A new Learning Management System has also been developed to manage all of the content. A teachers handbook is also part of the programme resources.

Check out our project website – [www.bfiresafeatschool.eu](http://www.bfiresafeatschool.eu)

Follow us on Facebook, Twitter, Instagram, LinkedIn and YouTube.

## BT

We use the power of communications to make a better world. We're passionate about technology.

Come to our stand to find out all about what makes us BT and the innovative work we do as a company.

We'll show you all about the innovations that we are currently working on, how we are using the power of communications to build a better world and what the future holds.

Our section shows the amazingly clever ways that internet can

be used and how this has made an impact on communities and countries around the globe. We are investing more and more into future technologies with projects such as BT Ireland Innovation Centre that links with Ulster University in Northern Ireland.

Come to our stand to find out more about us as a company, the future and you.

## CISCO

Reimagine education for tomorrow, while empowering continuity of learning today. Our solutions are simple to use, seamless to deploy, and supported by a committed network of education experts. Security is critical, so we build it into everything we make. University, college, or school. Large or small. We believe it is critical to continue educating the leaders, dreamers, artists, scientists, clinical researchers, caretakers, and doctors of tomorrow without compromising trust, security, or privacy today. With our broad portfolio and unmatched experience that spans networking, security, cloud, and collaboration, only Cisco can deliver the complete education solution that securely connects students, faculty and administrators – no matter where they are – so learning never stops.

## Cook Medical

At Cook Medical, we invent, manufacture and deliver medical devices to the healthcare systems of the world. Our products provide physicians and patients with minimally invasive solutions for almost every body-system, eliminating the need for open surgery. As a family-owned company, we have the freedom to focus on what we care about: patients, our employees and our communities.

## CSO

The Central Statistics Office (CSO) is Ireland's national statistical office. Formed in 1949, our mission is to:

Provide high quality information, both for evidence-based

decision-making and to support accountability.

The CSO regularly takes general and specific surveys of households, individuals and businesses such as the Survey on Income and Living Conditions, the Labour Force Survey, the Household Budget Survey, the National Travel Survey and the Household Finance and Consumption Survey. Using the data collected, we produce over 300 releases & publications each year. Some of our general statistical publications include the Statistical Yearbook of Ireland, Measuring Ireland's Progress and Women and Men in Ireland.

Our Values are:

- Independence, objectivity and integrity are core values
- We ensure absolute adherence to the legal guarantee of confidentiality and all activities comply with statistical and data protection legislation
- We drive innovation throughout all our business and organisational processes
- We are professional, reliable and trusted
- We have respect for our data providers and are committed to finding new ways to reduce the demands placed on them
- We constantly strive to provide excellent service to our customers
- We value our staff and strive to provide an environment in which staff meet their full potential and flourish at work

The CSO is an independent Office and the Director General of the CSO has sole responsibility in relation to professional statistical matters.

## connecting women in technology

### Connecting Women in Technology (CWIT)

Connecting Women in Technology is a network of Irish based technology companies who all share a common goal to support the development of women in the technology industry. Founded by Accenture, Dell and Microsoft in 2011, the network today spans 20 leading multinational technology companies, who all collaborate to attract, promote and encourage women in STEM careers.

Through our Education and Early Career pillars we support and run a number of programmes aimed at encouraging young females to understand what a career in a technology company looks like and the many opportunities available to them by studying a STEM subject.

Our flagship programmes include:

Digital Futures is a programme developed to raise students' awareness of the diverse nature of career opportunities in the technology sector and STEM throughout Ireland. The program consists of an interactive presentation designed to be delivered in secondary schools and is ideally suited for Transition year students (Age 15-18), before they choose their Leaving Cert subjects.

CWIT has partnered with Teen-Turn to identify girls with academic promise, placing them in 'Teen-Turnships' so they can picture themselves in tech careers. Teen-Turn aims to inform participants on education and career options and combat stereotypes by strategically changing how girls identify with technology through work placements and after school activities.

Tech Starter is a panel discussion style event delivered in universities to STEM students. Speakers share their personal experiences of working in STEM, what it's like to work for a technology company and making the transition from university to the workplace.

STEM Teacher Internships provides pre-service teachers with first-hand experience of working in the technology sector, dispel any misconception they may have about what type of people work in the sector and expose them to the sheer variety of roles that exist and career paths that people take.

### Dublin City University

DCU is a unique and vibrant community. Three eclectic and complementary campuses, all close to the beating heart of Dublin and the rural landscape beyond, great transport links, unmatched student support and state-of-the-art facilities.

With a mission to 'transform lives and societies', DCU is ranked amongst the world's best 'Young Universities' (QS Top 100 Under 50). As Ireland's 'University of Enterprise', we were the first Higher Education Institution in Ireland to integrate workplace internships (INTRA) into our undergraduate courses. This real-world experience consistently gives our graduates a head start. In fact, DCU is placed in the world's Top 20 in the prestigious QS Graduate Employment Rankings and has been named The Sunday Times University of the Year for 2021.

Our Faculty of Science and Health is an internationally recognised centre of excellence in scientific innovation and health transformation and our Faculty of Engineering and Computing is recognised nationally and internationally for the

outstanding quality of its courses, which focus on preparing you to pursue careers in the engineering and ICT sectors.

We are committed to developing graduates who are not just employable, but are also creative, agile and engaged citizens who can flourish in a fast changing world.

*Lilly*

## Eli Lilly Kinsale

For four decades, Lilly Kinsale has been built on a team-based working environment where everyone takes pride in our contributions to the site and the company, but most of all, the positive impact we have on the lives of people around the world who depend on Lilly medicines every day.

Today, Kinsale plays a key role in the global Lilly supply chain, providing manufacturing capacity and technical expertise in three areas of medicine manufacturing technology.

Lilly Kinsale is home to a unique 50-hectare manufacturing campus where the worldwide supply of active pharmaceutical ingredients for many of Lilly's innovative medicines is made. The campus is situated about twenty miles west of Cork city in a countryside location between Kinsale and Innishannon.

It's not just the location that sets the Kinsale site apart, it's the work that we do here and the team that does it are what really make Lilly Kinsale a special place.

Uniquely in the biopharmaceutical industry in Ireland, the Lilly campus accommodates chemical synthesis, biotechnology and continuous manufacturing technologies - all inside one site boundary.

Within the site, a highly talented team of almost 1000 employees is dedicated to the Lilly purpose of making life better for people around the world, through their commitment to making medicines with safety first and quality always. A contract workforce of about 500 people partner with the Lilly team to deliver on the site mission.

**explorium**  
National Sport & Science Centre

## Explorium

Explorium is the National Sport & Science Centre based in Sandyford, Co. Dublin a 110,000 sq. ft. state-of-the-art facility where you can discover the wonders of science, through our 300+ exhibits and worldclass challenges including:

- G-Force Bike
  - VR Planetarium
  - Lightning Show and Science Demos
  - The Maker's Lab
- and many, many more.

**www.explorium.ie**

seeing is believing!

**Geological Survey**  
Suirbhéireacht Gheolaíochta  
Ireland | Éireann

## Geological Survey Ireland

Founded in 1845, Geological Survey Ireland is Ireland's public earth science knowledge centre and is a division of the Department of the Environment, Climate and Communications.

It is committed to providing free, open and accurate data and maps on Ireland's subsurface to landowners, the public, industry, and all other stakeholders, including teachers and students, within Ireland and internationally.

It acts as a project partner in data collection and developing models and viewers to allow people to understand the surface and subsurface.

Geological Survey Ireland maps Ireland for the people of Ireland. The data underpins policy including in areas such as renewable energy, minerals, flooding, groundwater, coastal erosion, and the marine sector. It supports world-class research and job development in the Irish geoscience sector.

2020 was the 175th anniversary of the establishment of the Geological Survey in Ireland, to mark this, a joint Geological Survey Ireland and National Museum of Ireland exhibition is due to open in Collins Barracks, Dublin in spring 2021. This will celebrate the geology of Ireland, the work of the Geological Survey and will show case some of the minerals and fossils from the National Museum of Ireland collection. There will be a companion education programme aligned with the national curriculum.

Geological Survey Ireland encourages engagement with the public through the Duty Geologist service.

## Greencoat Renewables

The purpose of our business is to invest in and responsibly manage renewable energy assets that create long term value for our shareholders. Central to the Company's strategy is growing a successful business that supports the transition to a net zero carbon economy while having a positive impact on the community in which it operates.

## IE Domain Registry

.IE is the national registry for .ie domain names and is the trusted and progressive guardian of Ireland's unique online .ie address. We operate the domain name system (DNS) for the .ie namespace, facilitate an independent dispute resolution service, and operate a public WHOIS lookup service for .ie domains.

Our purpose is to enable and empower people, communities and businesses across Ireland to thrive online.

In cooperation with our Registrars, technical partners and stakeholders we help advance Ireland's internet ecosystem. Good governance is evidenced in our policy development process for the .ie namespace which follows a bottom-up, consensus-driven approach through a multi-stakeholder Policy Advisory Committee.

.IE is committed to digital advocacy for the SME community. Through stakeholder engagement initiatives such as .IE Digital Town we work with and support SMEs organisations to improve their members' online presence and e-commerce capabilities so they can unlock the power of the internet.

.IE also produces fact-based research for the business community and policymakers, such as the .IE Tipping Point Report, charting the attitudes of Irish SMEs and consumers to digital during the Covid-19 pandemic.

We are focused on providing excellence in customer service through our ongoing customer experience (CX) innovation and improvement programmes. Since March 2018, it is easier and faster to register a .ie domain. There are over 300,000 domains in the database.

Based in Dun Laoghaire, Co Dublin, .IE employs 22 people.

## IOP Institute of Physics

### Institute of Physics

The Institute of Physics is the professional body and learned society for physics in the UK and Ireland, inspiring people to develop their knowledge, understanding and enjoyment of physics.

We work with a range of partners to support and develop the teaching of physics in schools; we encourage innovation, growth and productivity in business including addressing significant skills shortages; and we provide evidence-based advice and support to governments across the UK and in Ireland.

Our members come from across the physics community whether in industry, academia, the classroom, technician roles or in training programmes as an apprentice or a student. However our reach goes well beyond our membership to all who have an interest in physics and the contribution it makes to our culture, our society and the economy.

We are a world-leading science publisher and we are proud to be a trusted and valued voice for the physics community.

Oifig Maoin  
Intleachtúla na hÉireann  
Intellectual Property  
Office of Ireland

### Intellectual Property office of Ireland/ Irish Patents Office

The Intellectual Property Office of Ireland, IPOI (formally Patents Office) is a statutory office that operates under the aegis of the Department of Trade, Enterprise and Employment.

The role of IPOI is to provide an efficient and effective system of industrial property protection. This is to be achieved through the protection of industrial property rights in the fields of patents (for inventions, function), trade marks (name, logo, slogans) and designs (appearance, shape & configuration).

Irish Aid  
An Roinn Gnóthaí Eachtracha agus Trádála  
Department of Foreign Affairs and Trade

### Irish Aid

The Irish people's overseas aid programme, managed by the Department of Foreign Affairs.

[www.irishaid.ie](http://www.irishaid.ie)

## ISTA

The Irish Science Teachers' Association, Eol Oidí na hÉireann, is the professional association for teachers of science in the Republic of Ireland. As such it is represented on the relevant subject development groups of the National Council for Curriculum and Assessment.

Since its foundation in 1961 it has been providing continuous professional development and support for its members at both national and branch levels.

## Maynooth University

Maynooth University is an internationally recognised institution located 25 kilometres outside of

Dublin, Ireland, and is the nation's fastest growing university. On 16 June 2017, Maynooth University celebrated its 20th birthday, having been formally established as an autonomous university in 1997. Yet, it traces its origins to the foundation of the Royal College of St. Patrick in 1795, drawing inspiration from a heritage that includes over 200 years of education and scholarship.

Today, Maynooth University is a place of lively contrasts—a modern institution, dynamic, rapidly growing, research-led and engaged, yet grounded in historic academic strengths and scholarly traditions.

With 13,000 students from more than 90 countries, Maynooth offers a range of programmes at undergraduate, Master's and PhD level in the humanities, science and engineering, and social sciences, including business, law, and education. The University also offers a range of international programmes and partnerships.

Maynooth's unique collegial culture fosters an interdisciplinary approach to research, which its worldclass academics bring to bear in tackling some of the most fundamental challenges facing society today. The University's research institutes and centres consolidate and deliver this impact as vibrant communities of learning, discovery and creation. Research at Maynooth also is very much central to its teaching, and the University prides itself on placing equal value on its research and teaching missions.

In addition to being named in THE's Top 50 Under 50, Maynooth University is recognised among the top 350 universities in the world, the top 200 European universities, and as one of the top 200 universities for international connections and outlook.

The Faculty of Science and Engineering comprises the departments of Biology, Chemistry, Computer Science, Electronic Engineering, Experimental Physics, Theoretical Physics, Mathematics and Statistics, and Psychology.

## Met Éireann

Ireland's National Meteorological Service, is a line division of the Department of Housing, Planning and Local Government and is the leading provider of weather information and related services in the State. Its mission is to monitor, analyse and predict Ireland's weather and climate and to provide a range of high quality meteorological and related information to the public and to specific customers in, for example, the aviation and agricultural sectors. As a scientific and technical organisation, it strives to utilise the latest technological and scientific advances in order to improve the efficiency, effectiveness and accuracy of its forecasts.

## NUI Galway

The National University of Ireland Galway is celebrating 175 years of excellence. We are really very proud to be amongst the world's elite universities - as judged by our peers we are among the top 1% of universities globally (QS World University Rankings 2021).

Our College of Science and Engineering offers a wide range of research-led degree courses you can join for your study. We have a long heritage and - indeed - in 1906 our student, Alice Perry, was the first woman in Ireland or Britain to graduate with an engineering degree.

Scientific training and research contributes significantly to knowledge generation, technology development and translation, and to our economic and societal development. Our faculty - our professors and teachers - includes internationally recognised innovators contributing to the advancement of science and engineering, and the creation of everyday products used by millions of people throughout the world.

Accordingly, job prospects for our Science and Engineering graduates are excellent - and over 98% of our graduates find relevant employment or further study within six months of graduating.

We are also deeply committed to engaging with the public, and in promoting STEM in society. We are innovators in public engagement, and we lead many national initiatives, such as Cell Explorers and ReelLIFE SCIENCE - which you can read about at this exhibit.

Additionally, we lead in many other initiatives, including Soapbox Science; Bright Club; Kitchen Chemistry, and many others. We contribute to Engineers Week, and we also welcome over 20,000 visitors each year to the Galway Science and technology Festival - the largest of its kind in Europe!

Please do take a look at our exhibit to learn more about our public engagement initiatives, and to get information on the courses we offer and which you might like to study. Enjoy!

## Perrigo

Perrigo Company plc is a leading provider of Quality, Affordable Self-Care Products and over-the-counter (OTC) health and wellness solutions that enhance individual well-being by empowering consumers to proactively prevent or treat conditions that can be self-managed. Led by its consumer self-care strategy, Perrigo is the largest store brand OTC player in the U.S. in the categories in which it competes through more than 9,000 SKUs under customer 'own brand' labels. Additionally, Perrigo is a Top 5 OTC company by revenue in Europe, where it markets more than 200 branded OTC products throughout 28 countries. The Company also commercializes and manufactures generic prescription products in the U.S.

Visit Perrigo online at [www.perrigo.com](http://www.perrigo.com)

## RTÉ

### RTÉ | Raidió Teilifís Éireann

## Science, Engineering and Food Science (SEFS) at University College Cork (UCC)

University College Cork is an award winning institution with a history of independent thinking stretching back over 170 years. UCC is proud to be ranked in the top 2% of universities in the world. Our beautiful university opened its gates to just 115 students in 1849. We now have a student population of over 21,000.

The College of Science, Engineering and Food Science (SEFS) is one of four Colleges in UCC. SEFS is proudly representing UCC for BTYS 2021. SEFS is made up of nine academic units:

1. Biological, Earth and Environmental Sciences
2. Chemistry
3. Computer Science and Information Technology
4. Engineering and Architecture
5. Food and Nutritional Sciences
6. Biochemistry
7. Microbiology
8. Mathematics
9. Physics

SEFS is a thriving, dynamic and diverse College, with internationally renowned academics, research institutions and centres. SEFS provides a vigorous and challenging academic atmosphere for our students. SEFS embodies 600 academic and research staff, over 5,000 students and generates 1,200 STEM-enabled graduates annually. SEFS College plays a significant role in the advancement of STEM - nationally and globally.

STEM has always been hugely important in society. Science, Technology, Engineering and Mathematics will play a pivotal role in the world's economic recovery once we begin to return to post pandemic normality, providing significant career opportunities to those who opt to study a STEM discipline. SEFS at UCC work with top-tier businesses around the globe and have developed a range of comprehensive partnerships via research and academic programmes. These in turn support our students as they develop their careers in STEM.

From cybersecurity to climate change, photonics to food, astrophysics to architecture, and sustainability to waste minimisation, SEFS/STEM at UCC is the place to be right now.

**Self Help  
Africa**

## Self Help Africa

Self Help Africa is an Irish based international development organisation that works through agriculture and agri-enterprise to lift rural poor households out of poverty.

The approach is of 'a hand up and not a hand out,' and of working in collaboration with communities and local partners to increase the productivity and profitability of small farms, and support households to access markets where they can sell their produce.

For more than 35 years, Self Help Africa has been assisting rural poor households to grow more, to diversify what they grow, and to develop opportunities that can allow them to generate an income from their efforts.

### SCIENCE FOR DEVELOPMENT AWARD

For more than 15 years, Self Help Africa has attended the BT Young Scientist and Technology Exhibition, and in collaboration with Irish Aid, the Irish government's overseas development agency, has presented the 'Science for Development Award.'

This award is a special category prize that is presented by the adjudicators each year to a student entry that addresses a challenge affecting people in countries of the Global South. Past winners of the award have included student entries that have looked at solar water purification methods, dairy pasteurisation, fuel-saving cooking devices, seed planting devices, and at issues of health.

Since its inception the Science for Development Award has enabled prize-winning students and their teachers to travel with Self Help Africa to countries in sub-Saharan Africa to deliver peer presentations of their work, and to undertake further research into their projects. These visits are made possible thanks to a travel bursary prize awarded by Irish Aid.

**Sightsavers**

## Sightsavers Ireland

Sightsavers Ireland is an international non-government organisation working to prevent avoidable blindness, support equality for people with disabilities and advocate for change.

Sightsavers works in more than 30 countries in some of the poorest parts of the world. Where we treat and prevent eye

conditions such as cataracts, trachoma and refractive error, help to fight five debilitating diseases that affect more than a billion people around the world and campaign for disability rights so people with disabilities can participate equally in society.

Sightsavers Ireland recently launched a new interactive website for primary school children. The Put Us in the Picture schools website aims to engage children in primary school on issues of development, disability inclusion and the Sustainable Development Goals, as well as exploring how Irish people own and participate in Ireland's international development programme through Irish Aid.

Students watch animated movies, play interactive games, and are rewarded with badges to mark their achievements. Upon completion, each student receives a downloadable certificate naming them a 'Disability Inclusion Champion'.

Start the adventure today by visiting  
**[www.putusinthepicture.ie](http://www.putusinthepicture.ie)**

## SSPC

### SSPC

SSPC, the Science Foundation Ireland (SFI) Research Centre for Pharmaceuticals, is a hub of Irish research expertise developing innovative technologies to address key challenges facing the pharmaceutical and biopharmaceutical industry. The aim of SSPC is to deliver industry-relevant technical solutions, which result in job growth and retention within this sector in Ireland and grow the skills base of qualified scientists and engineers.

The research carried out by SSPC crosses the pharmaceutical production chain from molecule to medicine, with the objective of gaining a better understanding of mechanisms, controlling processes, and predicting outcomes for the efficient and environmentally sustainable production of safe medicines.

The SSPC Education and Public Engagement (EPE) programme plays a key role in communicating the importance and value of science to the wider society in Ireland.

SSPC's EPE programmes incorporate customised, context-based activities for each stage of the Irish primary and post-primary educational systems. Additional programmes designed for third/fourth level students, industry, and the general public also play a role in the EPE strategy to promote engagement with SSPC's research, as well as to create a dialogue among all participants about Science, Technology, Engineering, Mathematics and Medicine (STEMM), particularly in the area of chemistry and pharmaceutical manufacturing.

## Teagasc

Teagasc is the national body providing research, advisory and training services to the agriculture and food industry and rural communities. We are the leading organisation in the fields of agriculture and food research in Ireland.

### Research

The research we undertake covers four programme areas: Animal and Grassland Research and Innovation; Crops, Environment and Land Use; Food; and Rural Economy and Development.

### Education

Teagasc colleges are strategically located and deliver a wide range of Level 5 and Level 6 courses in agriculture, horticulture, equine and forestry. The colleges also collaborate with a number of third level institutions in the delivery of Higher Level courses in agriculture and horticulture.

### Postgraduate programme

The Walsh Scholarships programme is one of Teagasc's most important programmes and provides up to 50 Scholarships each year, mainly at PhD level, to graduates to undertake postgraduate research in agriculture, food, environmental science, agri-food economics, rural development, horticulture, and other related disciplines.

The programme has proven to be remarkably effective in meeting the training needs of graduates and directing them into high-grade employment in industry, academia and the wider public sector both in Ireland and internationally.

Walsh Scholars are part of a diverse student body, most of who are registered in Irish universities, but with a significant number studying in partner universities around the world and will benefit from joint supervision of a Teagasc and university supervisor.

### Advisory

Teagasc provides an advisory and training service to farmers, covering practical, financial, technical and environmental issues. The Teagasc advisory service provides independent, professional and research-backed advice.

Check out the Teagasc website ([www.teagasc.ie](http://www.teagasc.ie)) or follow us on social media to find out more.

The University of Dublin

## Trinity College Dublin

### Science, Technology, Engineering and Mathematics

We believe that Science, Technology, Engineering, and Mathematics (STEM) have the power to change the world. Our mission at Trinity is to enable staff, students and graduates to harness that power to tackle the global challenges facing society and help us all to live better, more fulfilling lives on a healthy planet.

Trinity College Dublin is ranked 1st in Ireland and in the top 100 world universities by the QS World University Rankings. At Trinity you will learn from professors who are global leaders in their research fields and inspiring teachers. You can choose a range of undergraduate degree courses in disciplines such as Computer Science, Engineering, Genetics, Biological, Chemical, Physical and Environmental Sciences Courses. Course details can be found at <https://www.tcd.ie/study/assets/PDF/TCDUndergrad-Prospectus-2021.pdf>. What we offer is rigorous and internationally recognised training in your chosen field, along with demonstrated transferable skills.

In STEM all our undergraduate students undertake a capstone research project either in Trinity, via international placement or in industry. We train our graduates using state-of-the-art facilities and equipment. Our graduates become the thought-leaders and entrepreneurs of the future and many are responsible for ground-breaking inventions like food cloud, nicotine patch and Stevie the socially assistive robot.

**E3:** Representing Engineering, Environment and Emerging Technologies, E3 is a radically new type of collaboration between the Schools of Computer Science and Statistics, Engineering and Natural Science. E3 graduates across all its constituent disciplines will share an experience of having learnt and worked in a multidisciplinary environment, been educated by world-leading experts in areas of their specialisation and benefitted from best-in-class pedagogy. E3 graduates will be flexible, adaptable and creative individuals who bring deep disciplinary knowledge and problem-solving expertise to any challenge they are presented with.

Further details on E3 can be found at [www.tcd.ie/e3/](http://www.tcd.ie/e3/).

# THE PRIMARY SCIENCE FAIR AT THE BT YOUNG SCIENTIST & TECHNOLOGY EXHIBITION

## THE PRIMARY SCIENCE FAIR

BT YOUNG SCIENTIST  
& TECHNOLOGY Exhibition

**The BT Young Scientist & Technology Exhibition will go ahead from 6th – 8th January 2021, despite school closures and other Covid-19 restrictions. The Primary Science Fair has had to be postponed as this can only happen in schools and we look forward to rescheduling this with schools when they reopen.**

**In the meantime here is some information about the schools and the projects.**

## ABOUT THE FAIR

The Primary Science Fair has been an integral part of the BT Young Scientist and Technology Exhibition since it was developed in conjunction with the Department of Education and Skills in the early 2000's. Primary school pupils study science as part of the Primary School Curriculum as one of three subjects in the area of Social, Environmental and Scientific Education (SESE) and it is students in 3rd – 6th class that are taking part in The Primary Science Fair 2021. The curriculum provides excellent opportunities for primary school pupils to explore, investigate and develop an understanding of the natural, human, social and cultural dimensions of local and wider environments; to learn and practice a wide range of skills; and to acquire open, critical and responsible attitudes and these are what these projects are about. We see The Primary Science Fair as a starting point for pupils to get involved in science and hopefully

become the participants of the future in the BT Young Scientist and Technology Exhibition.

The BT Young Scientist and Technology Exhibition is the main activity of a charitable trust Young Scientist & Technology of the Year Limited and The Primary Science Fair is run alongside the BTYTE by BT on behalf of this trust. The trust also works by way of licensing arrangements with stakeholders in Tanzania, Kenya and the United Arab Emirates to allow them to operate the Young Scientist model in these countries.

We would like to thank our judges for The Primary Science Fair who are all previous winners of the BT Young Scientist & Technology Exhibition.

**The Primary Science Fair 2022 will be launched alongside the BTYTE in the next few months and entries will be submitted in September.**

LIVING THINGS

MATERIALS

ENVIRONMENTAL AWARENESS  
AND CARE

ENERGY AND FORCES

**Project title:** Robotics, friend or foe?

**Project overview:** The children will investigate how robotics have changed how businesses produce their products in Ireland. We will also look at how jobs that were previously done by humans are now done by robots. The children will also investigate other forms of A.I. relevant to them. The children will also get a chance to create their own robotic vehicles and instruments. They will also investigate the claim that 85% of the jobs that will exist in 2030 haven't been invented yet.

**Scoil Naomh Br  d Ballyconnell  
Cavan**

**Project title:** Sensational Seaweed

**Project overview:** Our project sets out to explore uses and benefits of seaweed. We learned about seaweed in school and found it a very interesting topic as our school is situated in West Cork and close to lots of beaches, some within walking distance. We want to learn how seaweed can be used as it is a renewable and sustainable source and we believe it has great potential.

**Barryroe National School  
Cork**

**Project title:** Mindful hearts

**Project overview:** Does mindful meditation effect our heart rate? We are conducting a study on the heart rate of 3 children in 6th class. We are investigating whether mindful meditation has an effect on our heart rate. We will be using a mindfulness based meditation program for the duration of 6 weeks. We will be practising mindful meditation 3 times a week for 6 weeks in total. The whole class will be taking part. We will be using a heart rate monitor to measure the heart rate of 3 pupils. We want to measure the changes in the heart rate of the 3 pupils before, during and after mindful meditation.

**Boherbue NS  
Cork**

**Project title:** What impact does pasteurization have on cows milk?

**Project overview:** The project is about cows milk and what pasteurization actually does to it. How does it change? What happens to it? How is it different to raw milk and which is better for the body. Does it lose some of its nutritional value when pasteurized.

**Cullen National School  
Cork**

**Project title:** Do darker colours really attract more heat?

**Project overview:** Our project is about colour and heat absorption. As a class, we wondered why people always say 'darker colours attract more heat'.

We were not really sure what this meant and when we asked our teacher we decided we wanted to investigate if this is true or not.

**Lisgriffin National School  
Cork**

**Project title:** Building a Hugelkultur

**Project overview:** We are looking to build hugelkultur in our new Biodiversity Garden. This is a mound of various debris. Hugelkultur are no-dig raised beds with a difference. They hold moisture, build fertility, maximise surface volume and are great spaces for growing fruit, vegetables and herbs. It is a gardening technique where using wooden debris, used newspapers, leaves, grass clippings, straw, cardboard, manure, compost, top with soil we then plant our vegetables.

**Timoleague National School  
Cork**

**Project title:** Renewable energy powered car

**Project overview:** Our project is based on environmental renewable energy and how there are different ways to power a car. Even the electric cars, you can trace back how their power is made and eventually it becomes bad for the environment. With our car you can see where the energy is coming from. During the time you are not driving the car, it would charge from the sun. We don't realise that there is so much energy at our fingertips. We could probably power most of the world with sunlight. Our car would be made from recycled materials also, as much as possible.

**Bayside SNS  
Dublin**

**Project title:** How does my immune system work?

**Project overview:** With Covid-19 being part of life, our immune system is invaluable. How does it protect us? We will explore how we fight illnesses and why we don't get certain diseases twice. How does a vaccine prevent a virus from attacking us? What does it mean to be immunosuppressed & what can be done about it? We will use models, experiments & analogies to demonstrate our findings & our research. We will make predictions and carry out surveys & transfer to graphs, along with interviewing a transplant recipient who is immunosuppressed as a result of taking anti-rejection medication.

**Scoil Mhuire, Mount Sackville  
Dublin**

**Project title:** Can we turn summer clothes into winter clothes?

**Project overview:** We will be investigating whether we can reuse recycled materials to turn old summer clothes into new winter clothes. We will test materials to see how well they can insulate and then we will design and create new clothing using the

material(s) that insulate the best and recycled summer clothes eg. old t-shirts and shorts.

**St. Kilian's S.N.S.**  
**Dublin**

**Project title:** Inside your head : What's going on?

**Project overview:** Our project is a study of the different parts of the brain. Children will present the different parts of the brain and how they relate to various functions and behaviours.

**Scoil San Treasa**  
**Dublin**

**Project title:** How can we improve the quality of our life?

**Project overview:** This project will be about life expectancy and how we can improve the quality of our lives. Can we improve them physically and mentally. Can we do anything which will help us live longer?

**Scoil San Treasa**  
**Dublin**

**Project title:** Does mindfulness effect your concentration level?

**Project overview:** We are going predict if we believe that mindfulness will effect our concentration levels. We will then investigate the affect of completing a mindful activity on our concentration level. We will do one week with no mindful activity as a control and play a concentration memory game and then one week with a mindful activity and then we will complete the concentration memory game. We will then analyse the results of both weeks to find out the outcome and hypothesis.

**Bunscoil Loreto**  
**Wexford**

**Project title:** Pets in lockdown

**Project overview:** Our project is a simple one .A lot of us have pets at home and we would like to do a project on pets during lockdown. We think life changed for our pets in many ways and we would like to find out what it was like for other pets in Ireland and what other children ,adults and older people think. We would like to talk to others about how their pets lives changed .How the relationships between pets and their owners was affected. What happened to the numbers of pets in Ireland. Were these effects positive or negative.

**s n Moin Ruadh**  
**Ireland**

**Project title:** How does Artificial Intelligence work in Robots

**Project overview:** From our work to date with Dream Space TV we are really interested in learning more about Artificial Intelligence. We would like to see if we can create a simple robot that will use some form of Artificial Intelligence.

**Graignamanagh Boys' NS**  
**Kilkenny**

**Project title:** By your powers comBRINEd!!!

**Project overview:** In Kerry, we are surrounded by freshwater and saltwater. But how much salt is needed for freshwater to turn to saltwater?

**Moyderwell Mercy Primary School**  
**Kerry**

**Project title:** Which grass produces the most biomass, which in turn will produce the most energy?

**Project overview:** We hear about greenhouse gases and climate change through the news, podcasts and social media. We hear about countries discussing and implementing plans to combat climate change. Governments are trying to adopt regulations to encourage people to live more sustainably to protect our planet. They look at how we heat and light our homes, what fuels our cars and how industries operate, in terms of renewable and non-renewable resources. We plan to explore some renewable and non-renewable resources and we plan to explore the advantage and disadvantage of using Biomass energy.

**Primrose Hill National School**  
**Kildare**

**Project title:** How does music affect our body?

**Project overview:** Our project is about looking at how different genres of music affect our concentration, exercise and heart rate.

**Scoil Eanna**  
**Loughrea**

**Project title:** How to remove oil spills from water

**Project overview:** Investigating ways in which oil can removed from water. Looking at the damage oil spills cause and the difficulty in cleaning an oil spill. We will use a few different commonly found items to mimic the real life equipment that is used when there is an oil spill. We will then use hydrogel to see how this will react with the oil. We have to then question if the hydrogel or other chemicals would be the best thing to use when cleaning oil spills."

**Oristown National School**  
**Meath**

**Project title:** JK Irrigation System

**Project overview:** My project is about harvesting rainwater to water my garden. The system works automatically so it saves me time. It does not need any electricity to work so it is good for the environment. It saves money. It is economical and it could be developed to use on large fields and for industry.

**St. Paul's NS**  
**Roscommon**

**Project title:** Biodiversity in our Area

**Project overview:** In our project we hope to increase the biodiversity and sustainability of our school grounds by making small changes to the school environment through the introduction of 'A Bug Hotel', 'A Butterfly Hotel', nesting boxes for birds, bird feeders, window boxes and a wildflower garden. We hope that our school will become a place where wild animals and birds will come to visit and make their home in our school.

**Scoil Mhuire Gan Smál**  
**Tipperary**

**Project title:** When do we concentrate best in school?

**Project overview:** We want to find out if there are particular times during the school day when pupils' concentration levels are better. We also want to find out if there are times in school when our concentration levels are lower and what causes this dip in concentration.

**Scoil na Maighne  
Tipperary**

**Project title:** Does Exercise Help Us to Concentrate Better?

**Project overview:** Our project is about the effect that exercise and physical activity has on our concentration and memory. We are investigating if our test scores improve following exercise and evaluating which type of exercise (gentle or vigorous) is better.

**St. John of God N.S.  
Waterford**

**Project title:** How does Gaming, Exercise and Learning effect our Brain Power?

**Project overview:** We have decided to do our science project on the impact of gaming, learning and exercise on brain power. We have heard our adult generation telling us that gaming is not good for us, that it affects our learning capacity and our reaction times. They have said that we should read more or exercise more to develop our brains. We will investigate how our memory is after a set time of gaming, reading and exercise and then we will test or reaction times after the same. We will compare and analyse our results and see if our predictions are correct.

**St Manchán's NS  
Westmeath**

**Project title:** Which masks give us the best protection while also providing comfort?

**Project overview:** During the current time, teachers and staff in school are wearing masks. Teachers are wearing masks provided by the school but most are opting for their own that they have purchased themselves. Our project is going to be about the different types of masks that the staff of our school are wearing.

**Tubberclare NS  
Westmeath**

**Project title:** Can just 10 minutes exercise a day improve our fitness

**Project overview:** Our project is questioning the effect of 10 minutes exercise per day, we wonder whether it is enough to make a difference to us or not.

**Bunscoil Ioreto  
Wexford**

**Project title:** Does exercise improve concentration?

**Project overview:** We are going to look at the effects exercise has on concentration. We will play a memory game then half the class will go out to exercise while the rest watch a movie. We will then redo the same type of concentration activity and see which group performs better. We will repeat the test the following week with the opposite groups exercising and watching a movie.

**Bunscoil Loreto  
Wexford**

**Project title:** The Honeybee from Flower to Table

**Project overview:** Our project is about Honeybees! The important job they have in the environment for Pollination and the process the Honeybee undertakes to turn Nectar into honey and the role of the beekeeper to extract it and make it safe for eating.

**Gorey Central School  
Wexford**

**Project title:** Music in the Classroom-Can it improve our concentration?

**Project overview:** At Bunscoil Loreto we have a great love of music. As a result, our class has a keen interest in participating in musical activities. For our project we want to investigate how music can affect our focus in the classroom. As a group of 6th class students who are about to transition to secondary school we want to explore if music can aid our focus and concentration. We hope to use our results to help us decide whether we should continue listening to music when studying in secondary school.

**Bunscoil Loreto Gorey  
Wexford**

**Project title:** Taking the sting out of nettles

**Project overview:** Our project is about nettles from an environmental, medical and scientific point of view. What causes the sting to be so sore and how can we ease the pain?

**St Peter's Primary School  
Wicklow**

# BT YS Business Bootcamp

## Programme for students

A number of the exhibiting intermediate and senior students from the 2021 BT Young Scientist & Technology Exhibition will be invited to take part in a BT Young Scientist Business Bootcamp in February/ March next year where they will experience the world of technology commercialisation and entrepreneurship.

We have created this programme to encourage further innovation by our young scientists and provide them with commercialisation skills to carry forward into their careers and lives. The bootcamp will be held at University College Dublin (UCD).

in association  
with UCD Innovate

## Expanding Business Leadership

As an extension of the BT Young Scientist & Technology Exhibition, the BT Young Scientist Business Bootcamp has enabled BT to take a national leadership role in economic development. BT is collaborating with key private and public sector organisations to create an opportunity to mentor the next generation of Irish innovators and entrepreneurs.

## Igniting Entrepreneurial Spirit

We at BT believe that the BT Young Scientist Business Bootcamp helps to bridge the gap between the worlds of education and business and mentor the next generation of young innovators and entrepreneurs.

”

The Bootcamp experience has been life changing. I feel it has really opened up doors for me in regards to career options, developing my project and communicating better with people. I have met and heard from some amazing and inspiring people and I feel I have become more creative and innovative in the way I think.

Quality, Affordable Self-Care Products™

Perrigo Company plc is dedicated to making lives better by bringing high quality and affordable selfcare products that consumers trust everywhere they are sold. The Company is a leading provider of over-the-counter health and wellness solutions that enhance individual well-being by empowering consumers to proactively prevent or treat conditions that can be self-managed.

Visit us at [www.perrigo.com](http://www.perrigo.com)

BT is one of the **world's leading providers of communications services and solutions**, serving customers in 180 countries. Every day, we touch the lives of thousands of people on the island of Ireland, helping them communicate, collaborate, and be entertained and informed.

## Innovation

At BT, we can trace our roots back to the very first communications company, the Electric Telegraph Company, founded in 1846.

For more than 170 years, technologies pioneered by BT have truly built the modern world, and in that time, we've never stopped innovating.

In 1984 our research team perfected the use of single mode optical fibre. Today this technology plays a role at the heart of all global networks, including our own – a network that reaches customers in more than 180 countries. Now, we've over 14,000 scientists and technologists working for us around the world, and have invested €2.8 million in research and development in the past five years.

BT's global presence means that we innovate globally too. Our worldwide scouting network, combined with strong relationships with leading universities, allows us to find the best innovations from across the globe, blend them with our own capabilities and in-house research, and create new possibilities for our customers.

That's why we are so proud to organise the BT Young Scientist & Technology, for 20 years, to increase youth engagement in science and technology, and give them a platform to showcase their innovative ideas nationally and internationally.

## BT in Ireland

BT Ireland is the trusted provider to some of the world's biggest multi-national corporations and indigenous exporters. Our job is to help them solve and manage their complex communication needs using our global network. Every day, we process millions of transactions through our state-of-the-art data centres, develop agile contact

centres, pre-empt and solve emerging cyber threats, build networks for other communications companies and more. We also serve major public sector organisations, operating the 999/112 emergency call answering service on behalf of the Irish state.

## Sustainability in BT

Our purpose is to use the power of communications to make a better world, by connecting people and society, protecting the environment, maintaining a healthy, progressive workplace and by using our skills and resources to benefit good causes throughout our communities.

Last year, BT Ireland employees spent more than 12,700 hours volunteering across the island of Ireland. Our annual BT Shop for Change campaign has raised over €610,000 for the Irish Cancer Society in the last six years. In November 2018, BT Ireland was awarded the Business Working Responsibly Mark, the official standard of excellence for sustainability and corporate social responsibility. We have also been recognised as one of Ireland's Healthiest Places to Work.

We are committed to supporting the local communities in which we live and work through education, digital inclusion, charity fundraising and volunteering.

## Northern Ireland

BT is one of the largest private sector employers in the province. We are leading the way in delivering exciting new services to our customers – everything from TV to high speed fibre broadband to IT services for some of the largest organisations in the market.
